

NURS13135 *The Professional Nurse*

Term 2 - 2021

Profile information current as at 03/05/2024 01:38 pm

All details in this unit profile for NURS13135 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit you will consolidate knowledge gained throughout the Bachelor of Nursing course and be introduced to concepts aimed at transitioning you to the registered nurse role. You will build on your critical thinking and clinical reasoning skills through the development of professional, legal and ethical knowledge to facilitate safe delivery of nursing care to individuals, families and communities. This unit will provide you with theoretical knowledge that will complement Clinical Nursing Practice 5.

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 12-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 25 hours of study per week, making a total of 300 hours for the unit.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from MyExperience Feedback Pilot

Feedback

I love the layout of the Moodle site, it makes it very easy to navigate between weeks.

Recommendation

Continue to use Tiles format for unit content which clearly structures the unit for students.

Feedback from MyExperience Feedback Pilot

Feedback

Relevant and able to use in assessments and in my workplace to assist with transitioning

Recommendation

Align assessments with clinically relevant content with particular reference to transitioning , reality shock and resilience

Feedback from Forum discussions from students

Feedback

Weekly unit schedule needs to be realigned to allow content to be delivered prior to the due date for assessment two.

Recommendation

Change proposal submitted to realign unit content schedule. Ensure all content relevant to assessment two is delivered prior to due date of assessment.

Feedback from SUTE

Feedback

Engaged teachers, lots of content to view and spark personal research and critical thinking. Biggest positive for me is the new way of thinking - emotional intelligence, coping, resilience. I feel stronger.

Recommendation

Continue to provoke discussion with students around transitioning through the use of guest speakers, story telling, real life experiences and assessment tasks.

Feedback from SUTE

Feedback

Information was heavily QLD based. Though CQU is in QLD, there are a lot of students not in QLD. More information needs to be given about the other states and territories in Australia. As the first few weeks were QLD based, made me switch off and hard to engage in the subject going forward.

Recommendation

Undertake a review of all content and ensure a national lens to learning and content. Consider reaching out to guest speakers from different states/territories.

Feedback from SUTE

Feedback

Too much referencing needed for 2000 word assessment. I felt like I needed a reference for every sentence not leaving any room for discussion.

Recommendation

To allow for discussion and critical thinking, rework marking criteria for assessment three and adjust HD reference expectation to 15-20 references.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Analyse the professional, legal and ethical governance and their application to the leadership role of the registered nurse.
2. Critique conflict and change management strategies within organisational cultures and the impact this may have on nursing and members of the multidisciplinary team.
3. Consider the transitional challenges and coping strategies required by the graduate registered nurse entering the workforce.
4. Define the scope of practice and the delegation roles of the registered nurse and integrate these into nursing practice.

The learning outcomes are linked to the Australian Nursing and Midwifery Accreditation Standards for registered nurses and the Nursing and Midwifery Board of Australia competencies.

1 Online Quiz

Assessment Type

Online Quiz(zes)

Task Description

The multiple-choice online quiz will test your understanding of fundamental concepts, perspectives, and facts covered over the first 3 weeks of term. There will be 20 multiple-choice questions to be answered in 60 minutes. There is only one correct or best answer to each question, and you need to select the option corresponding to this answer.

While you can refer to the textbook or other resources while you are taking the quiz, it is not possible to do this for every question because of the time limit. Therefore, you need to have a good understanding of the unit content, including the core readings, before taking the quiz. Each student will receive a customized quiz, where questions are randomly generated from a large test bank so that collusion will not be possible.

2 Short Answer Questions

Assessment Type

Written Assessment

Task Description

All tasks are related to the following scenario

Scenario

You are a graduate registered nurse and are asked to cover the patient load for Registered Nurse Bobby whilst she is on a meal break. You observe the patient, Matthew Higgs, has medications sitting on his tray table. He asks you if these are meant for him. You recognise immediately that the medication should have been given to Matthew and not left on the table. You go to check this with Bobby and advise that an incident report is required - but she states, 'that isn't necessary, I know exactly what I gave.' Bobby then proceeds to chastise Matthew in front of you and other patients, stating he should have taken the meds when given to him. She later says to you that the nursing staff on the ward have been administering medications this way for the last 20 years and there is hardly ever a problem with it. You feel uncomfortable and believe this behaviour should be addressed, however Bobby is very intimidating and much more senior than you.

Please follow the steps below to complete your assessment task:

Task 1

- **Explain how relevant medication safety standards apply to this scenario.**

Your responses should be based upon the Australian Commission on NSQHS Standards and the Quality Use of Medicines (QUM).

Task 2

- **Consider Bobby's comment that the ward has been administering medication this way for 20 years. Discuss the organisational culture within this organisation and explore factors that would contribute to a positive organisational culture.**

Task 3

Discuss relevant conflict management processes and techniques and explain how you, as the graduate nurse, would appropriately manage this situation.

Your responses should be based upon guidelines and legislative requirements as well as current journals for Australian health care practitioners.

3 Case Study Essay

Assessment Type

Written Assessment

Task Description

Aim

The aim of this assessment is to arm students with the knowledge, and practical skills needed to successfully transition to a graduate registered nurse. Despite the years applied to completing their degree and gaining registration, newly graduated registered nurses often have feelings of being unprepared for their new role. This feeling can range from somewhat uncomfortable to highly shocking and it can have a significant impact on staff retention in the workplace. The following case study shows the reaction of one graduate, Susan, when she begins her new job in a busy medical ward.

Journal Entry 22nd March 2021: *Today was another bad day. Every day it is getting harder and harder to enjoy the work I am doing. I feel like a failure because I am not keeping up the same way the other grads are.*

When we all started, we were all so excited and happy, we were catching up and laughing a lot. Now, it seems like they are still moving forward while I am stuck. The nurses I work with have really high expectations of me and just feel like nothing I do is good enough.

I am starting to realise that the ward has a very toxic culture with popular cliques and groups. Some nurses don't seem to adhere to the proper policies and don't seem to be held to account for poor practice and behaviour. I feel nervous on shift like they are watching my every move. I feel so overwhelmed and like nursing is not for me. I have a lot to think about.

Instructions

This assessment should be written in essay format with a clear introduction, body and conclusion. The body should be made up of three main parts:

1. Examine the transitional challenges that Susan is experiencing on entering the workforce and use current literature to explore the concept of reality shock.
2. Identify positive coping strategies that Susan could use to address the issues she is experiencing. Consider resilience and resiliency development strategies in the workplace in your response.
3. What can the workplace do to embed positive organizational culture and to ensure the safe transition of graduate staff?

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
