Corrections

Unit Profile Correction added on 01-03-19

This correction refers to Assessment 1, under the heading "Context". Please use the following sentence instead of the one that currently appears.

"Throughout your lessons, you have watched videos which demonstrate nursing care that was arguably not in the patients' best interests. This assessment refers to **Madge's** story."

General Information

Overview

This unit provides you with advanced knowledge of contemporary nursing practice in the Australian healthcare industry. You will examine current legislation, registration standards and scope of practice documents in order to organise and delegate safe and effective healthcare for individuals, families and groups. Ethical and legal considerations that arise from working in the nursing profession will be critically analysed and you will consider ethical, professional and self-management implications for practice. You will be encouraged to demonstrate sound judgement in applying legal and ethical frameworks in a simulated activity. You will critically evaluate the use of evidence-informed practice in nursing and will examine its significance in clinical leadership. This allows you to design and communicate a quality improvement plan in a simulated health setting.

Pre-requisites or Co-requisites

Students must be enrolled in either: CH79 Graduate Certificate in Nursing (Re-Entry) or CL02 Graduate Certificate in Nursing (International Registered Nurse Entry)

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2019

- Cairns
- Online
- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from "Have your say" button

Feedback

Students have found it difficult to complete all work requirements.

Recommendation

Students who wish to study full time must seek the permission of the Head of Course who discusses the realities of a 50hr/week study load. Many students do choose to continue as full-time students but reduce their study load to part-time before the Census date. Students who have not studied at a postgraduate level, or who have competing priorities in their life, should give careful consideration to studying part-time.

Feedback from "Have your say" button Student emails

Feedback

Disagreement regarding the usefulness of consolidation activities.

Recommendation

Compared with previous intakes, where consolidation activities were not used, students' academic performance was better. The consolidation activities are designed to allow students to demonstrate their academic writing skills and receive detailed constructive feedback about their work. This work also relates to the assignment work. Consolidation activities are not compulsory and will continue to be used as a teaching and learning strategy.

Feedback from "Have your say" button Student emails

Feedback

Instruction around the second assignment could be improved.

Recommendation

An activity has been designed which replicates the second assignment which will be used in a tutorial before the assignment is due. This tutorial will be recorded for those students who cannot attend.

Feedback from "Have your say" button Class conversations

Feedback

Students feel supported in the program

Recommendation

People enrolled in NURS20160 are often studying after an extended break, have conflicting life priorities, and are nervous about returning to nursing. In this Unit, we take an active role in identifying students who may be struggling and refer them to support services such as the Academic Learning Centre, student advocacy, Inclusion and Accessibility, the Ally Network, student counselling etc.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Apply legal and ethical frameworks and professional codes and guidelines to nursing practice
2. Delegate nursing care in an appropriate manner, to optimise patient outcomes in simulated scenarios
3. Evaluate sources of evidence in order to design an evidence-informed nursing care plan
4. Apply the principles of clinical leadership to construct a best-practice change concept.

Standard 1: Thinks critically and analyses nursing practice

- 1.1 accesses, analyses, and uses the best available evidence, that includes research findings, for safe, quality practice
- 1.2 develops practice through reflection on experiences, knowledge, actions, feelings and beliefs to identify how these shape practice
- 1.3 respects all cultures and experiences, which includes responding to the role of family and community that underpin the health of Aboriginal and Torres Strait Islander peoples and people of other cultures
- 1.4 complies with legislation, regulations, policies, guidelines and other standards or requirements relevant to the context of practice when making decisions
- 1.5 uses ethical frameworks when making decisions

Standard 2: Engages in therapeutic and professional relationships

- 2.1 establishes, sustains and concludes relationships in a way that differentiates the boundaries between professional and personal relationships
- 2.6 uses delegation, supervision, coordination, consultation and referrals in professional relationships to achieve improved health outcomes
- 2.7 actively fosters a culture of safety and learning that includes engaging with health professionals and others, to share knowledge and practice that supports person-centred care
- 2.8 participates in and/or leads collaborative practice, and
- 2.9 reports notifiable conduct of health professionals, health workers and others.

Standard 3: Maintains the capability for practice

- 3.1 considers and responds in a timely manner to the health and wellbeing of self and others in relation to the capability for practice
- 3.2 provides the information and education required to enhance people's control over health
- 3.3 uses a lifelong learning approach for continuing professional development of self and others
- 3.4 accepts accountability for decisions, actions, behaviours and responsibilities inherent in their role, and for the actions of others to whom they have delegated responsibilities
- 3.5 seeks and responds to practice review and feedback
- 3.6 actively engages with the profession, and
- 3.7 identifies and promotes the integral role of nursing practice and the profession in influencing better health outcomes for people.

Standard 4: Comprehensively conducts assessments

- 4.3 works in partnership to determine factors that affect, or potentially affect, the health and wellbeing of people and populations to determine priorities for action and/ or for referral, and
- 4.4 assesses the resources available to inform planning.

Standard 5: Develops a plan for nursing practice

- 5.2 collaboratively constructs nursing practice plans until contingencies, options priorities, goals, actions, outcomes and timeframes are agreed with the relevant persons

Standard 6: Provides safe, appropriate and responsive quality nursing practice

- 6.2 practises within their scope of practice
- 6.5 practises in accordance with relevant policies, guidelines, standards, regulations and legislation, and
- 6.6 uses the appropriate processes to identify and report potential and actual risk related system issues and where practice may be below the expected standards.

Standard 7: Evaluates outcomes to inform nursing practice

- 7.3 determines, documents and communicates further priorities, goals and outcomes with the relevant persons.

Task Description

Length: 2500 words + 3-minute video

The word count is considered from the first word of the introduction to the last word of the conclusion. It excludes the cover page, abstract, contents page, reference list and appendices, annotated bibliography, PICO/PEO. It includes in-text references and direct quotations.

Weighting: 50% Referencing Style: APA 6th Edition

Format:

- Size 12 font (Times New Roman or Arial)
- 1.5 spacing
- 2.54cm margins
- Page numbers, name and student number on each page
- Video: Please save as an MP4 file and upload to Moodle.

PICO/PEO: Please use the template provided in the Unit.

ANNOTATED BIBLIOGRAPHY: Please use the template provided in the Unit.

Learning Outcomes Assessed

- Evaluate sources of evidence in order to design an evidence-informed nursing care plan
- Apply the principles of clinical leadership to construct a best-practice change concept

Graduate Attributes

1. Knowledge: Acquire and apply a body of knowledge and appropriate professional judgment relevant to a discipline.
2. Communication: Communicate and interact with others and in culturally diverse contexts.
3. Cognitive, technical and creative skills: Investigate, analyse and synthesise complex information, problems and concepts.
4. Research: Critically appraise outcomes and products of research for translation into the discipline
5. Leadership: Exercise initiative and responsibility, taking action and engaging others to make a positive difference as a global citizen

Context

Throughout your lessons, you have watched videos which demonstrate nursing care that was arguably not in the patients' best interests. This assessment refers to Paul's story.

The Task

Find one (1) nursing intervention in Paul's Story that you believe was not patient-centred. Then, research an alternative nursing intervention that could have been used in the same scenario, that is evidenced-based and patient-centred.

Next, create a plan to install the alternative nursing intervention into the ward's culture, using the attributes of transformational leadership.

You will present your work as an essay and an accompanying video. The audience for your video is the hospital community.

Steps to complete the task

Step 1. Identify the poor nursing practice.

Step 2. Create a search strategy to identify an evidence-based nursing intervention using the PICO/PEO format. Submit your completed PICO/PEO template as part of your assessment documentation.

Step 3. Carry out your search strategy.

Step 4. Complete an annotated bibliography of 5 journal articles identified through your search. Submit your completed annotated bibliography as part of your assessment documentation.

Step 5. Write the essay that is set out as follows:

- An introduction that informs the reader about the importance of your topic and outlines your essay.
- A brief background/overview of the practice problem (200-word maximum).
- The method you used to search for your evidence-based intervention (i.e. PICO/PEO and search strategy).
- A brief overview of the results of the search (200-word maximum).
- Analysis of 5 journal articles identified through the search.
- Identification of the new nursing practice.
- A discussion on how you could use the Transformational Leadership approach to embed the new evidence-based approach into the ward's practice.
- Reference List.
- Appendices.

Step 6. Create a 3-minute video that explains your research in a language appropriate to the wider hospital community. You are allowed one PowerPoint slide, but no other resources or props.

Submit all documentation:

* Video

* Essay (2500 words +/- 10%)

* PICO/PEO template (essay appendix A)

* Annotated bibliography template (essay appendix B)

*A minimum of 10 references are required to demonstrate broad consideration of the topic.

Assessment Due Date

Week 6 Monday (22 Apr 2019) 5:00 pm AEST

Please allow enough time to submit this assessment piece through Moodle.

- Delegate nursing care in an appropriate manner to optimise patient outcomes.

Graduate Attributes

1. Knowledge: acquire and apply a body of knowledge and appropriate professional judgement, relevant to the profession.
2. Cognitive and Technical Skills: Investigate, analyse and synthesize complex information, problems and concepts.
3. Self-Management: Reflect on and critically evaluate one's performance
4. Ethical and Professional Responsibility: demonstrate ethical, legal, social and civic responsibility.

Context

In this assessment, you are required to create a delegation for the shift as well as identify and respond to a legal/ethical dilemma.

Outputs

1. Delegation Justification (1500)
2. Ethical/Legal response (1000words)

The Task

In this assignment, you will outline the delegation and supervision requirements you must comply with as a student re-entry nurse on clinical placement. You will consider these requirements at the beginning and end of your clinical placement as they will change.

Further, you will extend the assignment by outlining how you will navigate a common legal and ethical dilemma faced by student nurses.

Step 1

Please watch the following 3 handovers:

Mary Johnstone (https://youtu.be/lGcce4uWD_c)

Peter Mendel (<https://youtu.be/PHvJoDJaIO4>)

Aisha Ray (<https://youtu.be/xfuWZ8947kQ>)

These patients have been allocated to your buddy Registered Nurse for the shift.

Week 1:

- a) Discuss your scope of practice as a student re-entry/international entry nurse at the beginning of your clinical placement.
- b) Identify, then justify, the nursing cares that would be appropriate for you to perform in your first week of clinical placement.
- c) Using the NMBA decision-making framework, discuss how you will negotiate delegation of these cares with your Registered Nurse buddy.

Week 4 (Re-Entry)/ Week 6 (International Entry):

- a) Discuss your scope of practice as a re-entry/international entry nurse at the end of the clinical placement.
- b) Identify, then justify, the nursing cares that would be appropriate for you to perform in your last week of clinical placement.
- c) Using the NMBA decision-making framework, discuss how you will negotiate delegation of these cares with your Registered Nurse buddy.

STEP 2:

During your first week of clinical placement the Nurse Unit Manager has asked you to buddy up with an Enrolled Nurse, to refamiliarise yourself with medication rounds, and an Assistant in Nursing, to refamiliarise yourself with activities of daily living.

- a) Please explain why this is an ethical and legal dilemma, explaining the laws, standards, codes or guidelines that it contravenes.
- b) Explain how you will act to approach the situation to ensure that you and the healthcare facility are not practising outside of your scope/law.

In this section, you must refer to material covered in the course as well as sourcing evidence from other contemporary sources such as the Nursing and Midwifery Board of Australia and peer-reviewed journal articles. A minimum of ten (10) references (from peer-reviewed and grey sources) are necessary to demonstrate broad consideration of the topic. You are encouraged to write in the first person, present for this assignment.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
