You will review contemporary models of health services used to provide healthcare to populations in urban, rural and remote locations. You will explore the social determinants of health by analysing health conditions and the provision of quality and culturally safe health care. The role of the government will also be analysed in terms of the provision of health care. You will use your judgement in a range of simulated scenarios across these contextual factors in order to contribute to meaningful and responsive care.

Objectives and Outcomes

Throughout this unit, you have learnt about how Australia's healthcare systems and the nursing profession are governed and have been introduced/re-introduced to some of the many nursing roles found in practice. In the following assessment piece, you will explore, in greater detail, an area of specific interest to you.

The Task

This assignment will give you the opportunity to learn more about the contemporary role of nursing you wish to return to and its broad and specific governance structures. This assignment should be presented as a portfolio under the following sections.

Overview (250 words)

Introduce the assessment and provide a brief overview and direction of the assessment.

Nursing Role (500 words approx.)

Identify the type of nursing role you wish to return to (e.g. theatre nurse, mental health nurse, community health nurse, sexual and reproductive health nurse).

Describe this position in detail:

- your client/patient base their health needs
- the scope of the role (what kinds of nursing care will you provide? what is the level of autonomy? What is the major setting of the work? Etc.)

Governance (500 words approx.)

Explain the governance that provides a legal/procedural framework to your nursing role. You should begin this section by describing the broad Federal/State laws affecting nursing in general, then narrow your focus to the laws, guidelines, standards and frameworks which are pertinent to your area of nursing.

Peak Bodies (500 words approx.)

Identify the major peak nursing bodies for your area of nursing. Clarify their role and explain how they support the specific area of nursing.

Consider if the peak body appears to support a diverse nursing workforce and justify what has led you to that conclusion.

Continuing Professional Development (CPD) Requirements (not counted in the word count)

In consideration of the factors you have explicated above, create an annual CPD plan directed at increasing your knowledge and skill in your preferred area of nursing. In undertaking this task you should use the Nursing and Midwifery Board of Australia's Self Directed Evidence Record. Tasks should be well-aligned to the nursing role.

Conclusion (250 words)

Provide a summary to your assessment which connects the separate items and brings the assessment to a logical conclusion.

Reference List

The reference list should include a minimum of 10 references; these can be from both peer-reviewed journal articles and grey literature.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
