## Task Description

Type: Essay

Due date: 5pm (AEST) Wednesday 10th August 2022 (Week 5)

Weighting: 25%

Length: 1,500 words

Unit Coordinator: Dr Lorraine Thompson

## Learning Outcomes Assessed

1. Analyse theories and models of leadership and apply these to the healthcare setting
2. Evaluate your leadership skills and abilities and construct a professional development plan to effectively lead healthcare teams

## Aim

The aim of this assessment is for you to develop a document that demonstrates your leadership in healthcare and indicates your leadership aspirations.

## Instructions

Create a profile of your leadership ideals and aims in E-portfolio.

There are three steps to your leadership profile which is in essay form:

Step 1. From Module 1's content and wider reading, identify the leadership models and theories that resonate with you. Briefly describe these with reference to the academic literature.

Step 2. Take a self-assessment approach to your leadership skills (you can use one of the tools suggested). Then reflect on how the models/theories you identified above relate to your current role, your self-assessment, and how you can lead in your professional setting using these theories within your role.

Step 3. Aspiration for future leadership - Consider aspects that you aspire to but have not yet been able to demonstrate in your practice and create at least three (3) goal statements. These 3 goals should use the SMART format.

## Literature and references

In this assessment use at least 12 contemporary journal articles (<10 years) to support your discussion. You may also use seminal scholarly literature where relevant. Additional suitable references include textbooks and credible websites. When sourcing information, consider the 5 elements of a quality reference: currency, authority, relevance, objectivity, and coverage. Grey literature sourced from the internet must be from reputable websites such as from government, university, or peak national bodies: for example, the Australian College of Nursing.

## Requirements

## Assessment Type

## Task Description

Type: Essay

Due date: 5pm (AEST) Wednesday 7th September 2022 (Week 8)

Weighting: 35%

Length: 2,000 words

Unit Coordinator: Dr Lorraine Thompson

## Learning Outcome Assessed

2. Evaluate your leadership skills and abilities and construct a professional development plan to effectively lead healthcare teams

## Aim

The aim of this assessment is for you to demonstrate insight into your leadership skills and how you plan to further develop them.

## Instructions

Following on from your leadership profile in Assessment 1, create a professional development plan for yourself to move from where your skills and abilities currently focus to where you would like to be in the future (note this does not necessarily mean changing your current professional role, for some people this will mean how they can lead better within their current role).

Consider the aspects of self-management as well as leading others, or leading change (you may wish to review modules 4 and 5 for assistance with this), whatever fits within your self-assessment.

You can be as creative with this professional development plan as you wish, for example, adding photos, diagrams, links etc., that will help your reader see HOW you will go about achieving your end goal.

Your 3 goal statements will essentially be the source of your planning and will be further developed in this assessment.

Consider the feedback from Assessment 1 to help you refine your goals, then plan out strategies with referenced rationales to achieve the goals, along with what and how you will measure your success.

### **Learning Outcomes Assessed**

1. Analyse theories and models of leadership and apply these to the healthcare setting
3. Apply skills and knowledge to effectively lead teams for change management in healthcare settings

### **Aim**

The aim of this assessment is for you to demonstrate your knowledge and understanding of leadership in health care by applying this knowledge to an incident (case study) within your workplace.

### **Instructions**

Identify an incident (case study) that includes a multi-disciplinary team and is complex and multi-factorial. Include patient outcomes or staff outcomes and ensure that you have included some positive and negative aspects for analysis.

You are required to provide an analysis of the leadership approaches, the outcomes demonstrated, and provide evidence-based (referenced) recommendations regarding the following:

1. Alternate approaches and leadership models that were both positive AND may have helped ameliorate or improve the incident outcomes
2. The main areas for improvement that would have a positive impact leading the team in the future
3. Proposed change management strategies to ensure this situation can be improved (inclusive of team management approaches)
4. Potential professional development options for those involved

### **Literature and references**

In this assessment use at least 12 contemporary journal articles (<10 years) to support your discussion. You may also use seminal scholarly literature where relevant. Additional suitable references include textbooks and credible websites. When sourcing information, consider the 5 elements of a quality reference: currency, authority, relevance, objectivity, and coverage. Grey literature sourced from the internet must be from reputable websites such as from government, university, or peak national bodies: for example, the Australian College of Nursing.

### **Requirements**

1. Include an introduction, body and conclusion in your essay.
2. Use a conventional and legible size 12 font, such as Times New Roman or Arial, with 2.0 line spacing and 2.54cm page margins (standard pre-set margin in Microsoft Word).
3. Include page numbers on each page in a footer.
4. You should write in the third person.
5. Use formal academic language.
6. Use the seventh edition American Psychological Association (APA) referencing style. The CQUniversity Academic Learning Centre has an online [APA Referencing Style Guide](#).
7. The word count is considered from the first word of the introduction to the last word of the conclusion. The word count excludes the reference list but includes in-text references and direct quotations.

### **Resources**

1. You can use unit provided materials and other credible sources (e.g. journal articles, books) to reference your argument. The quality and credibility of your sources are important.
2. We recommend that you access your discipline-specific [library guide](#): the [Nursing Resource Guide](#).
3. We recommend you use EndNote to manage your citations and reference list. More information on how to use EndNote is available at the [CQUniversity Library website](#).
4. For information on academic communication please go to the [Academic Learning Centre Moodle site](#). The [Academic Communication section](#) has many helpful resources including information for students with English as a second language.

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### **What is a breach of academic integrity?**

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

### **Why is academic integrity important?**

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### **Where can I get assistance?**

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### **What can you do to act with integrity?**

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
