Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student emails

Feedback

Students working in clinical practice felt overloaded with working in their new role as new graduates while simultaneously completing their graduate program and studying.

Recommendation

Recommend students get advice at the beginning of the term to pace their assessment preparations, rather than leaving it to the last minute. Students are encouraged to contact the unit coordinator via email. Recommend to students that they apply for an extension early if required.

Feedback from Email from graduate coordinator

Feedback

Hospital graduate coordinators were unsure regarding the assessment items and provided confusing feedback to students.

Recommendation

Recommend graduate coordinators attend the Academic liaison meetings to remain appraised of the current assessment requirements.
