NURS20175 Assessment One

Assessment Type: Reflective Practice Assignment

This is a Pass/Fail assessment

Word Count: 2500 (+- 10%)

Assessment Due Date: Week 12 Wednesday 5/6/19

This assessment addresses the following learning outcomes:

2. Analyse psychosocial and ethical and legal issues in clinical decision making
5. Reflect critically on practice to identify strengths and areas for improvement.

Assessment

For this assessment you are asked to use the Gibb's Reflective Model (see information under Assessments) to reflect on a nursing situation or incident that you have experienced working in your specialty. Your reflection needs to highlight the ethical and legal implications of the situation/incident and your role in this incident.

Reflecting in this way will allow you to explore the situation/incident, your cognitive reasoning, decision making skills and demonstrate learning.

Gibb's steps to reflective practice are:

- Description – what happened (situation/experience)?
- Feelings – What are you thinking or feeling about this?
- Evaluation – What was good and what was bad about the experience?
- Analysis – What can you learn from this experience?
- Conclusion – What could you have done differently?
- Action – If you faced this situation again, how would you act differently (Gibb's, 1988)

Before you begin writing, follow these guidelines to help you prepare the reflection:

1. Review the situation/incident thoroughly
 - Take notes, highlight relevant facts, and review relevant literature.
2. Focus your analysis
 - Identify two to three key nursing issues
 - Why did they exist?
 - How did they impact the patient's care?
 - Who was responsible for the different aspects of care provision?
 - Did the care provided meet the standards of best practice?
 - What were the legal and ethical considerations related to care?
 - What was your role in the case?
3. Uncover possible solutions
 - Review unit readings, discussions, outside research, your experience.
4. Select the best solution
 - Consider strong supporting evidence, pros, and cons: was this care provided at a gold stand level?

When you begin writing follow the guidelines and required format:

- Your reflection should have a clear introduction, body and conclusion.
- The reflection can be written in the first person where appropriate.
- The reflection should be substantiated with reference to the contemporary literature.
- No less than 15 peer reviewed journals are to be cited to support the reflection in particular, the reflection on the identified decisions and actions taken.

Format

- The reflection should be written in essay form
- Font size is Calibri 11 or Times New Roman 12 and double spaced
- You should use the the [American Psychological Association \(APA\) abridged guide Term 2 2018](#) referencing style

- Your essay should be page numbered and include a title page
- Refer to the marking rubric prior to writing the reflection

General Information

Overview

This unit will extend your knowledge of normal homeostatic mechanisms and the pathophysiological basis of health disorders and injuries relevant to your chosen clinical specialisation using a person centred approach. Your clinical decision making and problem solving skills in managing episodes of care will be enhanced through examining biological, physiological processes and psychosocial concepts. You will also explore the legal and ethical issues relevant to clinical practice within your specialisation area.

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from emails

Feedback

Students view of the unit was good. There was no negative feedback.

Recommendation

The unit was reviewed and minor changes were made, in relation to the number of forum discussions, which on top of the assessments, proved to be onerous. 'Course' changed to 'unit' by Dr Leanne Jack 20/02/2023. Associate Professor Clare Harvey taught this unit however is no longer involved with the unit and course.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Analyse and apply contemporary national and international initiatives to patient management
2. Analyse psychosocial and ethical and legal issues in clinical decision making
3. Evaluate therapeutic and rehabilitative approaches that may be applied to individuals/groups within area of clinical specialisation
4. Evaluate physiological and psychosocial interventions, and therapies that maintain and/or restore homoeostasis
5. Reflect critically on practice to identify strengths and areas for improvement.

Assessment Tasks

1 Reflective Practice Assignment

Assessment Type

Reflective Practice Assignment

Task Description

Pass/Fail Assessment

This assessment addresses the following learning outcomes:

2. Analyse psychosocial and ethical and legal issues in clinical decision making
5. Reflect critically on practice to identify strengths and areas for improvement.

Task Description

A case study is an in-depth analysis of a real-life situation or incident, as a way to illustrate content and theory to a real life situation. Case studies allow you to acquire cognitive reasoning, critical thinking, and decision-making skills.

This assessment requires you to identify a clinical case, relevant to your specialty and use the Gibbs Reflective Model to reflect on it. In particular reflect on the legal and ethical issues associated with the clinical decisions made. Critically reflect on the strengths and weaknesses of these decisions and the associated practice.

Task Steps

Before you begin writing, follow these guidelines to help you prepare and understand the case study:

1. Read and examine the patient case thoroughly
 - Take notes, highlight relevant facts, underline key problems.
2. Focus your analysis
 - Identify two to five key problems
 - Why do they exist?
 - How do they impact the patient's care?
 - Who was responsible for the different aspects of care provision?
 - Did the care provided meet the standards of best practice?
 - What were the legal and ethical considerations related to care?
 - What was your role in the case?
3. Uncover possible solutions
 - Review course readings, discussions, outside research, your experience.
4. Select the best solution
 - Consider strong supporting evidence, pros, and cons: is this care provide a gold stand level?

5. References to the contemporary literature, no less than 15 peer reviewed journals, to support decisions and actions must be incorporated into the reflection.

Format

The assessment should be written in essay form
 Your essay should have a clear introduction, body and conclusion.
 It should be written in the third person **except** for when you are describing the scenario.
 Font size is Calibri 11 or Times New Roman 12 and double spaced
 You should use APA 2016 edition referencing style
 Your essay should be page numbered and include a title page
 The word count is 2500 (+/- 10%)
 Refer to the marking rubric prior to writing the reflection

Assessment Type

Portfolio

Task Description

This is a pass/fail assignment.

For this unit of study, you are going to develop your **clinical portfolio**, in which you will seek out and develop those practices that are specific to your own specialty area. This will form part of your overall professional portfolio that you will need to get into the habit of keeping up to date as you progress with your nursing career.

1. Using the WORKPLACE ASSESSMENT GUIDE, review your clinical practice at the beginning of the term and plan your learning.
2. Identify the areas you need to focus on in your skills development from this guide.
3. Commencing early in the term, to begin working on your CLINICAL PORTFOLIO (template provided in Moodle).
4. Towards the end of the term, go back to the CLINICAL ASSESSMENT GUIDE and repeat the self-assessment to see how you have progressed during the term.
5. Use this self-assessment to reflect on your practice and to complete your CLINICAL PORTFOLIO.
6. With your clinical educator or a mentor in your workplace, complete the WORKPLACE APPRAISAL RUBRIC.

Guide to this activity:

- There are PORTFOLIO GUIDELINES provided on Moodle, as well as a CLINICAL PORTFOLIO TEMPLATE for you to use for your assessment.
- You will also need to identify your area of specialty practice (in week 1), and then you will choose the CLINICAL ASSESSMENT GUIDE that is provided for each specialty domain on Moodle. You need go through the list provided at the beginning of the term (in week 2), in order to identify what clinical and skills development, you need to undertake during the term. This forms your learning plan for the term, and also forms part of your reflective practice. You then need to repeat this process towards the end of the term (in week 9) to see how you have progressed in your development. You will need to upload both of these reflective assessments onto MOODLE in the tab provided under ASSESSMENTS.
- Each CLINICAL ASSESSMENT GUIDE follows the Bondy Assessment Tool that identifies the standard of procedure, the quality of performance and level of assistance required. There are 5 levels of competency for this, graded as 1 = Dependent; 2 = Marginal; 3 = Assisted; 4 = Supervised; 5 = Independent. Even if you are dependent or marginal in a skill, it does not mean you have failed, it just means you need more work on refining the skill.
- Please do be realistic in your reflections and your planning. You cannot complete all the skills in one term, but you can monitor and plan your learning constructively. Part of your reflection is to identify what clinical processes and skills you will focus on during the term.

As evidence of your completion, you will need to submit:

- The WORKPLACE APPRAISAL RUBRIC
- Both WORKPLACE SELF-ASSESSMENTS (from weeks 2 and 9)

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

**Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

**Seek Help**

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

**Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
