General Information

Overview

The Nursing and Midwifery Board of Australia (NMBA) Registered Nurse Standards for Practice (2016) expect that a registered nurse is able to think critically and analyse nursing practice. This is achieved by accessing, analysing, and using the best available evidence, that includes research findings for safe quality practice. In this unit, you will be introduced to an evidence-based approach to clinical inquiry and decision making that underpins nursing practice. You will develop skills in locating evidence, evaluating and applying research findings to inform best practice.
