NURS29003 *Nursing Practice in Contexts 1*

Term 2 - 2025

Profile information current as at 04/12/2024 11:58 am

All details in this unit profile for NURS29003 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Australians are living longer. Traditionally, healthcare has been focused on acute illness. However, the number of people living with chronic disease is growing. This is an important intersection as many chronic illnesses begin as an acute alteration or can cause an acute alteration in health. In this unit, you will analyse lifestyle factors such as obesity, insufficient physical activity, tobacco smoking, and alcohol use and their impact on acute and chronic health conditions. Using a systems-based approach and utilising case studies, you will probe into the journey of healthcare consumers as they experience alterations in cardiovascular, respiratory, endocrine, nervous and haematological health through an acute episode and follow along as their illness extends to a chronic condition. You will consider the nursing process required to support people with acute and chronic conditions and potential consumer deterioration. You will learn how to assist people living with a chronic health condition to implement self-management strategies and develop care plans from a person-centred, community, family and healthcare service perspective to minimise exacerbations. You will develop a discharge/education plan utilising aspects of behavioural change, psychosocial support and health literacy aimed at effecting change and supporting a person's self-management of chronic illness taking into consideration the roles of other members of the interdisciplinary care team. The unit is scheduled to align with the content of Pathophysiology and Pharmacology for nurses 1.

Details

Career Level: *Postgraduate*

Unit Level: *Level 9*

Credit Points: 6

Student Contribution Band: 7

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Pre-requisite: Nursing Foundations

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2025

No offerings for NURS29003

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview
