NUTR28002 Communication in Distance Health Care and Practice

Term 2 - 2024

Profile information current as at 14/05/2024 11:29 pm

All details in this unit profile for NUTR28002 have been officially approved by CQUUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit, you will develop skills and knowledge required to communicate effectively in health care settings in the culturally and geographically diverse Australian context. You will gain knowledge of the contemporary issues in health communication including the advantages and challenges of technology (for example online, social media and digital health). You will practice communication skills and apply your understanding of effective communication to demonstrate competency in distance health care communication relevant to people from different cultural and geographical backgrounds.

Assessment Overview

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback

Feedback

Students found the learning materials interesting and tutorials enjoyable to participate in.

Recommendation

Continue providing a variety of communication content and include more application scenarios in the tutorials for students to engage with.

Feedback from SUTE feedback

Feedback

Some students preferred that each assessment task details be released at the start of term instead of throughout the term.

Recommendation

Provide comprehensive assessment details for all assessments earlier in term.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Communicate effectively with people from geographically and ethnically diverse backgrounds, including Indigenous Australians
2. Critique different technologies in distance health care communication and their application
3. Critically discuss the challenges and barriers associated with technology in distance health care and communication
4. Demonstrate practical skills in using technology effectively in distance health care communication relevant to people from a multicultural background.
