General Information

Overview
In this unit, you will explore the role of occupational therapy in assisting clients to engage in work, considering historical perspectives as well as contemporary legislative and professional frameworks that guide practice. Building on your emerging task analysis skills, you will identify enablers and barriers to work participation, for use in creating appropriate client-centred goals. You will engage in simulations using occupational therapy tools to evaluate work environments and clients' functional capacity for work. Learning activities provide you with the opportunity to develop case management and return to work plans for clients with a range of physical and psychosocial conditions.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE comments, informal student comments and unit coordinator reflection.

Feedback
Student feedback suggested some challenges with receiving learning materials in a timely manner, impacting on preparation for unit content prior to class.

Recommendation
It is recommended that teaching staff aim to upload learning materials 24 hours prior to class to allow students time to prepare for class content.

Feedback from SUTE comments, informal student comments and unit coordinator reflection.

Feedback
Student feedback identified some perceived delays in teaching staff responses to online questions through Moodle, especially related to assessment tasks.

Recommendation
It is recommended that teaching staff provide students with clear guidelines around the expected response times for online questions through Moodle. In addition, teaching staff may provide opportunity for assessment related questions in class for further clarification.

Feedback from SUTE comments, informal student comments and unit coordinator reflection.

Feedback
Student feedback indicated some challenges with understanding the requirements of assessment tasks, especially in relation to the use of AI (assessment task 3) and appropriate completion of templates (assessment task 2&3).

Recommendation
It is recommended that the assessment tasks are further reviewed for clarity, especially assessment task 3 that was adapted in 2025, and this is reflected on Moodle and assessment task sheets. Additionally, consideration may be given for the provision of template examples to support student understanding.
