Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student and non-university educator feedback.

Feedback

Students have reported that navigating the written assessment requirements whilst managing work intergrated learning can at times be challenging.

Recommendation

It is recommended that increased student contact through offering scheduled drop in sessions will be provided to students to offer structured support that assists with completing the written assessment.

Feedback from Unit co-ordinator reflection and student feedback.

Feedback

Some students find independent navigation of Moodle resources during off campus work intergrated learning challenging.

Recommendation

It is recommended that the format of Moodle is revised to provide students with greater structure to support independent revision whilst off campus during work integrated learning including check lists that facilitate the revision in a timely manner.

Feedback from Unit co-ordinator reflection, student and non-university educator feedback.

Feedback

COVID requirements and restrictions has continued in 2021 to add complexity to students completing work integrated learning.

Recommendation

It is recommended that strategies and supports are continually developed in regards to COVID requirements to allow work integrated learning to continue with as little disruption as possible in an environment where students feel supported by the university including regular communication with all stakeholders, revision and updating of relevant information in a timely manner and ensuring linkages to relevant university supports as needed.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Utilise the occupational therapy process when working with clients
2. Demonstrate sound professional reasoning within a client-centred professional practice approach
3. Demonstrate professional behaviour that meets ethical and legal responsibilities
4. Demonstrate critical reflection of professional practice learning experiences.
5. Demonstrate skills in completing an Evidence Review on a specific area of professional practice which includes succinctly articulating characteristics of appraised studies, the clinical impact of the results and recommending future research.

The World Federation of Occupational Therapy (WFOT) stipulates that all occupational therapy education programs must meet the requirements of offering students a minimum of 1000 hours of professional practice within a variety of settings. WFOT also requires that students in consultation with their practice educator develop and complete learning goals to support their professional practice requirements.

The inclusion of an Evidence Review (Part 2) contributes to meeting external accreditation requirements of an honours course, as well as meeting AQF Level 8 requirements. Both of these require students to learn and apply research and Evidence Based Practice (EBP) skills across the curriculum.

Assessment Tasks

1 Work Integrated Learning (WIL)

Assessment Type

Professional Practice Placement

Task Description

This unit requires you to complete a minimum of 400 hours of supervised work integrated learning (WIL). This intermediate level placement will provide key opportunities for you to integrate previously acquired knowledge (theories and principles of occupational therapy) within your professional practice experience. The practice educator who supervises the WIL will assess you using the Student Practice Evaluation Form Revised Second Edition (SPEF-R2). This will then be returned to the unit co-ordinator for the results to be recorded.

Assessment Due Date

Your practice educator will forward the completed SPEF-R2 to the unit co-ordinator within one week of WIL completion.

Return Date to Students

You will receive your SPEF-R2 result during the final evaluation with the practice educator during WIL.

Weighting

Pass/Fail

Minimum mark or grade

Pass

Assessment Criteria

You will be assessed as either passing or failing using the Student Practice Evaluation Form - Second Revised (SPEF-R2) by the supervising practice educator/s. In addition to rating items, practice educators provide written feedback in the feedback / recommendation spaces provided on the form. The evaluation is completed at halfway and again at completion of the WIL. To achieve an overall pass on the final evaluation you will need to:

- pass all core items (a rating of 3 or more). If you fail a core item, you will consequently fail the evaluation overall.
- pass the additional minimum requirements indicated for each learning objective
- pass the relevant learning objectives for all domains

More detailed information on the SPEF-R2 can be found in the user manual located on the unit Moodle page. Minimum requirements for passing each learning objective are specifically located on page 27 of the SPEF-R2 user manual.

A final summary statement regarding your overall performance will be recorded together with your final grade of pass or fail.

Please refer to Moodle for details about the process of conducting a literature review.

A literature review provides context to your proposed study and clearly demonstrates its rationale and importance. The literature review itself should be a critical analysis rather than a regurgitation of pertinent literature.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
