General Information

Overview

In this unit you will consider some of the latest theories in the Safety Sciences, particularly in relation to the concept of resilience in organisations and broader organisational culture issues. The factors which influence the quality and validity of decision making within organisations, such as, values, mindfulness, culture, adaptive systems, participation and leadership in complex socio-technical systems will be considered. You will critically reflect on and evaluate theories such as resilience engineering, high reliability organisations, safety culture and safety climate, and discuss the usefulness of these theories to practice. You will also have the opportunity to evaluate the usefulness of the tools and methods available to measure and monitor factors that affect resilience and other safety science concepts within organisations.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit Coordinator Reflection

Feedback

There is a need to emphasise the importance of including references to support claims (which could otherwise indicate use of artificial intelligent language applications) as well as the existence of self plagiarism, even at the third-year level to circumvent further misunderstandings.

Recommendation

Before each assessment submission, remind students of their academic integrity responsibilities, and provide some tips for avoiding plagiarism, including self-plagiarism.

Feedback from Unit Coordinator Reflection

Feedback

Students enjoy the critical thinking tasks associated with this unit.

Recommendation

Retain the critical thinking assessment tasks.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
