General Information

Overview

Adult learning theories inform a wide range of contexts in which humans learn. Adult Learning in Practice addresses approaches to adult learning in formal and informal settings. In this unit you will examine how theories are used to inform and develop your teaching practice. You will explore a variety of teaching methods and learning theories across a number of learning environments. You will apply reflective practice and scholarship to develop your teaching philosophy and inform your teaching practice. You will develop the knowledge and skills to adapt your teaching to meet the needs of a variety of cohorts in various environments.

Assessment Tasks

1 Assessment One: Teaching Presentation

Assessment Type

Reflective Practice Assignment

Task Description

The Teaching Presentation Assessment is designed to give you the opportunity to (i) show us how you teach; (ii) self-assess how you teach; and (iii) get constructive feedback to improve your teaching practice.

For this assessment task, you need to create an engaging teaching video. In the video, using Sweller's cognitive load theory, you are to teach a single concept from your discipline. You will need to succinctly explain this concept to a novice, in an online recorded format.

Your video will be:

- A maximum of 5 minutes
- MP4 format or a YouTube link

Please refer to the Moodle site for more information and exemplars.

Assessment Due Date

Week 7 Friday (6 Sept 2019) 4:45 pm AEST

Return Date to Students

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
