## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from 'Have Your Say' evaluations, Moodle and online tutorials.

#### **Feedback**

Students would like more feedback on their Oral Presentations to understand where they need to improve for future oral presentations in Oral Health.

#### **Recommendation**

It is recommended that Oral Presentations return to face to face delivery in 2021 as opposed to on-line. In this format, students will be given more time to receive feedback. Face to face delivery allows a greater opportunity for students to engage in the discussions and learn from other students in their cohort.

Feedback from 'Have Your Say' evaluations, Moodle and online tutorials.

#### **Feedback**

Students would like more activities that engage them in learning.

#### **Recommendation**

In addition to the preclinical and clinical activities and weekly quizzes, it is recommended that interactive learning activities are added to the Moodle site as well as the workbook.

Feedback from 'Have Your Say' evaluations, Moodle and online tutorials.

#### **Feedback**

Students appreciated that the Moodle site was easy to navigate and provided study guides, lectures slides, practice questions and quizzes to support their learning

#### **Recommendation**

It is recommended that the unit continues to improve on moodle navigation and that study guides, lectures slides, practice questions and quizzes are delivered in a timely manner to support learning.
