General Information

Overview

This unit builds on your knowledge of anatomy from ORAL11004 Oral Anatomy 1 and supports your study of oral pathology in ORAL11003 Introduction to Oral Disease. In the first half of this unit you will continue the study of anatomy and physiology of the head, neck and oral cavity with an emphasis of the clinical applications of this knowledge. In the second half of this unit you will study embryology and microscopic anatomy of structures within the oral cavity. With this unit you will develop the foundation knowledge required to administer local anaesthesia and conduct an extra-oral and intra-oral examination in oral health therapy practice.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student evaluations and in class.

Feedback

Students would like to receive more feedback on the weekly practice quizzes in preparation for the Online Quiz assessment. They felt that the wording in some Online Quiz assessment questions was confusing.

Recommendation

It is recommended that additional feedback be added to the practice quizzes, and the questions in the Online Quiz assessment be reviewed for clarity.

Feedback from Student evaluations and in class.

Feedback

Some students found this unit to be content heavy and reported difficulty discerning which content was most important.

Recommendation

It is recommended to focus on essential material by enhancing the streamlined lecture slide layout and categorising additional learning resources as essential or optional.

Feedback from Student evaluations and in class.

Feedback

Students appreciated one-on-one support before the written In Class tests.

Recommendation

It is recommended to continue small-group and individual review sessions before the written In Class tests.
