

ORAL11006 *Introduction to Oral Health Practice*

Term 2 - 2022

Profile information current as at 27/04/2024 01:48 am

All details in this unit profile for ORAL11006 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will prepare you for clinical practice in Oral Health Therapy. You will continue to develop your knowledge, skills and attitudes required for clinical work in oral health clinics and health promotion activities in the community. You must comply with clinical policies and procedures while undertaking clinical practice. In this unit you will begin learning theoretical knowledge in patient assessment, dental materials, simple restorative procedures and hygiene procedures. You will also translate and integrate this knowledge in a simulated environment while fulfilling workplace health and safety, equipment maintenance and record management requirements.

Details

Career Level: *Undergraduate*

Unit Level: *Level 1*

Credit Points: 6

Student Contribution Band: 9

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Pre-requisites: HLTH11027 Foundations of Health; ANDBMSC11010 Human Anatomy and Physiology 1; AND ORAL11001 Introduction to Oral Health Therapy; AND ORAL11004 Introduction to Oral Anatomy Co-requisites: BMSC11011 Human Anatomy and Physiology 2; AND ORAL11003 Introduction to Oral Disease; AND ORAL11005 Advanced Oral Anatomy

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2022

- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Assessment Overview

1. **Portfolio**

Weighting: Pass/Fail

2. **In-class Test(s)**

Weighting: 50%

3. **Online Quiz(zes)**

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Feedback via the "Have Your Say" survey, team reflection.

Feedback

Presentation slides for the simulation laboratory activities could include photos or videos of how instruments are used.

Recommendation

It is recommended to include photos or videos of how instruments are used during simulation activities.

Feedback from Student Feedback via the "Have Your Say" survey.

Feedback

It has been suggested to change the oral health products assignment to a group assignment.

Recommendation

It is recommended that consideration be given to changing the oral health products assignment to a group assignment.

Feedback from Student Feedback via the "Have Your Say" survey, team reflection.

Feedback

Students enjoyed the practical simulation laboratory sessions. They indicated they would like more sessions.

Recommendation

It is recommended to continue the practical simulation laboratory sessions. Additional sessions are already scheduled for 2022.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Discuss the theoretical basis of oral health practice including patient assessment, examination, dental hygiene and dental restorative procedures
2. Understand and apply the principles of infection control, workplace health and safety, record management and practice management
3. Apply knowledge and skills in dental procedures including patient assessment, examination, dental hygiene and dental restorative procedures in the simulated environment
4. Demonstrate appropriate oral and written communication skills and professional attitudes required of an oral health therapist
5. Recognise and act upon the legal, ethical and safeguarding issues involving dental practitioners and patients as defined by the relevant professional regulatory bodies in Australia and overseas

The learning outcomes of this unit are part of the overall learning outcomes in the BOralHlth course at CQUniversity. They will form part of the annual report documentation which is submitted to the Australian Dental Council for accreditation.

Alignment of Learning Outcomes, Assessment and Graduate Attributes

Term Specific Information

Equipment Purchase

All students are required to purchase equipment for this unit at a cost of approximately \$1300 (subject to change).

Uniform and clinical attire:

All students are to comply with clinical and uniform requirements of the oral health clinic as promulgated.

All students must comply with Queensland Health and Work-Integrated Learning mandatory requirements. Students must abide by infection control policies, guidelines and procedures at each clinical placement. All mandatory requirements for clinical practice must be met before and during the term. Failure to comply will lead to withdrawal from the clinical practice and failure in the Unit.

Assessment Tasks

1 Portfolio

Assessment Type

Portfolio

Task Description

There are four components in this Practical Assessment. Each component must be passed in order to pass the assessment.

Component 1 Pre-Clinical Practice:

In each pre-clinical session, you are required to complete tasks. These exercises are designed to introduce you to practice as an Oral Health Therapist.

A criterion-referenced analytical assessment rubric for evaluation of student performance of procedures is provided in the Online Real-time Assessment System (ORAS). ORAS records all work-integrated learning experiences, including a number of assessed student-client interactions and performance of procedures. Placement supervisors are required to complete an entry into ORAS for each student-client interaction assessed.

Each student-client interaction is graded on a rubric, which will reflect a grade of Not Yet Competent (0), Approaching Competent (1), Competent (2), and Highly Competent (3) for each procedure part (see example below). An average grade is given at the end of each student-client interaction assessment for all procedures completed.

	Not Yet Competent	Approaching Competent	Competent	Highly Competent
	0	1	2	3
Pocket depths and recession	More than 6 measurements inaccurate. OR Measurements inaccurate by more than 4mm.	Up to 6 measurements inaccurate. Less than 2 sites by 2-4mm.	Up to 4 measurements inaccurate. No sites by more than 2mm. Consideration given if difficult case (poor patient compliance/medical conditions leading to poor visibility and access)	All charted accurately (measurements within 1mm of supervisor)
Mobility and Furcation	Not measured OR 3 or more teeth inaccurate	2 teeth inaccurate (missed or incorrect classification)	1 tooth inaccurate (missed or incorrect classification)	All charted accurately
Suppuration and BOP	Not measured OR 3 or more teeth inaccurate	2 sites inaccurate (missed or incorrect classification)	1 site inaccurate (missed or incorrect classification)	All charted accurately
Periodontal Diagnosis and Maintenance	Unable to determine accurate periodontal diagnosis AND review schedule.	Needs assistance with determining accurate periodontal diagnosis AND review schedule.	Needs minor assistance with determining accurate periodontal diagnosis. OR Accurately proposes review schedule.	Independently determines accurate periodontal diagnosis AND proposed review schedule

In each student-client interaction assessment there are also Critical Competencies. A Not Yet Competent (NYC) in one or more of the Critical Competencies results in a mark of 0 overall for that student-client interaction.

CRITICAL COMPETENCIES	Not Yet Competent (NYC)	Competent (C)
Infection Control and WPHS 1. Demonstrates adherence to strict infection control protocols 2. Maintains a tidy and ordered work area 3. Demonstrates understanding of sharps protocols	Breach of infection control or WPHS Unnecessary removal of sound tooth structure Unnecessary trauma to soft tissues or adjacent teeth Incorrect tooth/procedure	Demonstrates appropriate infection control and WPHS Student may request assistance
Communication, Teamwork and Professionalism <small>***</small>	Unprofessional conduct and/or unethical behaviour. Unapproved use of mobile phone/device	Appropriate professional conduct and/or ethical behaviour.

NOTE: A NYC in one or more of the above Critical Competencies results in a mark of 0 overall for this student-client interaction regardless of average score.

*** Communication, Teamwork and Professionalism	
1. Dress and behaviour is in compliance with placement and CQU Dental Clinic Professional Practice	
2. Accurate completion of documentation in the simulation clinic.	
3. Does not proceed until all indicated steps are checked by the supervisor	
4. Required supplies and materials are readily available	
5. Professional language in communicating with supervisor	
6. A willingness to learn and accept feedback	
7. Compliance with CQU Student Charter expectations on students	

The data is collated over the term to monitor performance and as a “log” of the procedures and student-client assessments completed by the student. The unit teaching team will assess the data aggregated in ORAS over the period of the term to form a longitudinal comprehensive picture of the achievement and development of competence by the student.

In order to achieve a grade of pass in this component, you are required to achieve a minimum average score of Competent (2).

Component 2 Pre-Clinical Safety Audit:

Students will undergo safety audits during Week 11 and 12.

The safety audit is an assessment of your hygiene and simple restorative dentistry clinical skills to ensure you are safe to commence treatment on patients from the general public.

Students are graded against a criterion-referenced rubric. Students must achieve a satisfactory score in all criteria to pass the safety audit.

Re-attempt:

Re-attempt is where you are given a second opportunity to demonstrate your achievement of one or more of the unit’s learning outcomes before you can progress to new learning or participate in subsequent learning activities.

If you do not pass the safety audit, you will be given an opportunity to re-attempt the safety audit within a week. Note that only one opportunity to do a re-attempt will be given. If you do not pass the re-attempt, you will be unable to pass ORAL11006.

Component 3 Clinical Placement:

During your clinical placement throughout the term, you will complete a series of tasks designed to introduce you to clinical practice as an Oral Health Therapist:

- Dental assisting duties
- Completion of an observational workbook
- Oral Hygiene Videos and Resources

These activities are pass/fail.

Component 4 Attendance:

Attendance at clinical and pre-clinical placements is compulsory. You are required to attend a minimum of 90% of clinical and pre-clinical placement days. This allows you approximately 2-3 days of absence without penalty. Absences are required to be supported with a medical certificate or negotiated with the Unit Coordinator/s in advance.

Note that ALL tasks must be completed for the term. If you miss a session, it is your responsibility to contact the unit coordinator and make an arrangement to complete the missed tasks. Absences are to be made up at operational convenience.

A pass for satisfactory attendance is defined as maintaining and fulfilling the 90% clinical and pre-clinical placement attendance for the days rostered during the term. Not meeting attendance requirements may result in a placement outstanding until the next available unit offering, which may delay your progress through the course and graduation.

Who to contact if you are sick: The unit coordinator (via email) and Kelly Hennessy (via phone).

If you require an extension for this assessment please refer to the [Assessment Policy and Procedure \(Higher Education Coursework\)](#)

Learning Outcomes Assessed

- Apply knowledge and skills in dental procedures including patient assessment, examination, dental hygiene and dental restorative procedures in the simulated environment
- Demonstrate appropriate oral and written communication skills and professional attitudes required of an oral health therapist
- Recognise and act upon the legal, ethical and safeguarding issues involving dental practitioners and patients as defined by the relevant professional regulatory bodies in Australia and overseas

2 Station-Based Assessment

Assessment Type

In-class Test(s)

Task Description

This assessment consists of stations set up around the room, each with a set question/s that must be answered within a set time period. After the time period has lapsed, you will rotate to the next station and repeat this until you have been to all stations. There will be a maximum of one (1) student per station at a time. You will be given an answer sheet on which to write your answers. At the end of the exam period, your answer sheet must be returned to the unit coordinator. The station-based exam is closed book so the only things you will be allowed to have on you are pens (black ink only) and your answer sheet.

Assessment Due Date

Week 12 Friday (7 Oct 2022) 11:45 pm AEST

Return Date to Students

- Demonstrate appropriate oral and written communication skills and professional attitudes required of an oral health therapist

3 Online assessments

Assessment Type

Online Quiz(zes)

Task Description

There are 2 components to the online quizzes.

Component 1 Pre-SIM MCQ quizzes:

Prior to each simulation session, you will complete a multiple-choice online quiz related to the learning material for that session.

Component 2 End of term online assessment:

In the first week of the exam period, you will complete an online short-answer quiz.

Weighting: The results from these quizzes are aggregated to become a mark out of 50% for this assessment task. The end of term online assessment will be worth 80% of the total marks for this piece of assessment. The remaining 20% will be from the pre-SIM MCQ quizzes.

You must complete each quiz in a limited time within the quiz open period. Your attempt for each quiz will be submitted automatically, but no more questions can be answered once the time limit expires.

To prepare for this assessment you can study the learning resources for the relevant quiz.

If you are unable to complete the quiz by the due date, you must apply for an extension before the due date.

Your assessment is to be your own individual work and not a result of collaboration with other students. Any identified cases of potential collusion will result in a breach of academic integrity case being raised.

There are a number of support and technology mechanisms of which you need to be aware.

- If you experience any technical difficulties accessing or during the in class test, please contact TASAC (Moodle assistance option) on 1300 666 620.
- Notify the unit coordinator as soon as physically possible (same day) with details of the technical issues. If you are able, take a screenshot of any error message received and include that in your email to the unit coordinator.
- If you are unable to undertake the in class test at the set time and date you will need to apply for an extension in Moodle (in the support area on the top of the page and supply supporting documentation as per normal extension requests.

defined by the relevant professional regulatory bodies in Australia and overseas

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
