

ORAL12005 Oral Health Pre Clinical Practice 2

Term 2 - 2018

Profile information current as at 19/05/2022 10:39 pm

All details in this unit profile for ORAL12005 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit, which is a sequel to ORAL12002 Oral Health Pre-Clinical Practice 1, reinforces skills learnt previously as well as developing new restorative skills and techniques in the primary dentition. You will apply knowledge and demonstrate skills in the preventive and operative management of dental caries including extractions, pulpotomies, stainless steel crowns and strip crowns in the primary dentition. On completion of this unit, you will demonstrate proficiency in the administration of local anaesthesia for child and adult patients. You will communicate information regarding oral health in oral and written forms in terms of relevant interpersonal / team communication skills, professional attitudes and ethical behaviours.

Details

Career Level: *Undergraduate*

Unit Level: *Level 2*

Credit Points: 6

Student Contribution Band: 9

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Prereq: ORAL12001 Oral Hlth Disease Prevention and Mgmt and ORAL12002 Oral Hlth Pre Clinical Prac 1 and ORAL12003 Oral Hlth Clinical Prac1 Coreq: ORAL12004 Orthodontics, Prosthodontics and Pharmacolgy and ORAL12006 Oral Hlth Clinical Practice 2

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2018

- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Overview

1. **Presentation**

Weighting: 20%

2. **Portfolio**

Weighting: Pass/Fail

3. **Written Assessment**

Weighting: 20%

4. **Examination**

Weighting: 60%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from 'Have your say'

Feedback

Students would prefer oral presentations and feedback earlier in the term because the last week of term has a lot of assessment items in other units and earlier feedback would assist with study for the final examination.

Recommendation

Oral Presentations for ORAL12005 will be held earlier in the term as a result of consultation with other unit coordinators and feedback will therefore be provided to students earlier.

Feedback from 'Have your say'

Feedback

Students would like more information as to a break down of what is required in sim lab tasks and self reflective journal.

Recommendation

Following discussion involving all pre-clinical supervisors, more information on what is required will be provided to students on Moodle and in the sim lab pre clinical sessions.

Feedback from 'Have your say'

Feedback

Students would like 'writing clinical notes' included in sim lab activities in ORAL12002 as well as ORAL12005.

Recommendation

Writing of clinical notes as a sim lab task will be included in ORAL12002 in 2018.

Feedback from 'Have your say'

Feedback

Students feel they shouldn't have to pay for teeth models or need more notice regarding costs.

Recommendation

Students have been advised in term 2 year 1 of the Bachelor of Oral Health course of the costs and payment requirements set out by CQUniversity for teeth models for terms 1 and 2 in their second year of study.

Feedback from 'Have your say'

Feedback

Students feel they require more information on how to reproduce dental morphology in restorations, including instruments and technique for different dental materials.

Recommendation

As the theory component on this is provided in ORAL12003, following consultation with other unit coordinators, more information will be provided to students in this unit. Students will practise reproducing dental morphology on pre-prepared bench top cavity preparations and 'Dentaprac' models prior to practising on teeth models in dental manikins in the simulation laboratory as a task in ORAL12002.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Demonstrate knowledge of advanced restorative skills
2. Based on an understanding of the caries process, perform preventive and operative management of dental caries in the primary dentition including extractions, pulpotomies, stainless steel crowns and strip crowns
3. Understand the underlying principles of and perform the administration of local anaesthetic for child and adult patients
4. Communicate information regarding oral health in oral and written forms
5. Demonstrate the interpersonal and team communication skills, professional attitudes and ethical behaviours of an evolving dental practitioner.

All unit profiles in the Bachelor of Oral Health are made available to the Australian Dental Council for on-going accreditation purposes.

Schedule

Week 1 - 09 Jul 2018

Module/Topic	Chapter	Events and Submissions/Topic
Normal growth and development of children. Physical development and milestones. Normal growth of the face and dental arches. Review dental anatomy of deciduous teeth. Cognitive and psychological development. Behaviour management. Communication with paediatric patients. Managing difficult patients. Managing patients with special needs.	Welbury, Duggal and Hosey, Paediatric Dentistry 4th Ed, chapter 1, 2, 4, 16, 17, 18	

Week 2 - 16 Jul 2018

Module/Topic	Chapter	Events and Submissions/Topic
Restorative dentistry 1- Restoration of deciduous teeth; materials and cavity preparation. Rubber dam for children. ART, atraumatic restorative technique. PRR Preventive resin restorations. Pit and fissure sealants.	Welbury, Duggal and Hosey, Paediatric Dentistry 4th ed, chapters 6, 7, 8	

Week 3 - 23 Jul 2018

Module/Topic	Chapter	Events and Submissions/Topic
Deciduous tooth extractions. Pre assessment. Local anaesthesia and pain management. Procedures and instruments. Difficult extractions -when to refer. Treatment planning for extractions - when to extract and space maintenance.	Welbury, Duggal and Hosey, Paediatric Dentistry 4th ed, chapters 5, 15	

Week 4 - 30 Jul 2018

Module/Topic	Chapter	Events and Submissions/Topic
Examination, treatment planning, medical and dental history taking. Informed consent and communication with the parent.	Welbury, Duggal and Hosey, Paediatric Dentistry 4th ed, chapters 2, 3, 7	

Week 5 - 06 Aug 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Restorative dentistry 2- Stainless steel crowns and strip crowns. Intrinsic staining management. Hypomineralisation and hypoplasia management.	Welbury, Duggal and Hosey, Paediatric Dentistry 4th ed, chapters 8, 9, 10
--	---

Vacation Week - 13 Aug 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Week 6 - 20 Aug 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Review morphology of deciduous teeth pulp chambers. Review development of primary teeth. Review eruption dates for permanent teeth and deciduous teeth. Pulp and peri-apical pathology. Abnormalities in tooth morphology and eruption including factors which influence this. Malocclusions particularly for children with dental and oro-facial abnormalities. Space management and common causes of space loss in primary and mixed dentitions. Pericoronitis and eruption cysts. Ankylosed deciduous teeth.	Welbury, Duggal and Hosey, Paediatric Dentistry 4th ed, chapters 1,13,14	
---	--	--

Week 7 - 27 Aug 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Pulp therapy 1- Diagnosis, Direct pulp capping and Indirect pulp capping. Reversible and irreversible pulpitis.	Welbury, Duggal and Hosey, Paediatric Dentistry 4th ed, chapters 8, 9	
---	---	--

Week 8 - 03 Sep 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Pulp therapy 2- Pulpotomy and management of the necrotic pulp in primary teeth; extraction or referral for pulpectomy.	Welbury, Duggal and Hosey, Paediatric Dentistry 4th ed, chapter 8	
--	---	--

Week 9 - 10 Sep 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Management of dental caries in children and adolescent patients. Caries risk assessment and management. Early childhood caries. Prevention and oral health education.	Welbury, Duggal and Hosey, Paediatric Dentistry 4th ed, chapters 3, 5, 6	
---	--	--

Week 10 - 17 Sep 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Gingivitis and periodontal disease in childhood and adolescence.	Welbury, Duggal and Hosey, Paediatric Dentistry 4th ed, chapter 11	
--	--	--

Week 11 - 24 Sep 2018

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Traumatic injuries to the teeth-treatment and referral, including management of the avulsed tooth.	Welbury, Duggal and Hosey, Paediatric Dentistry 4th ed, chapter 12	Barrier Exam

Assessment Tasks

1 Presentation

Assessment Type

Presentation

Task Description

You will choose a topic from a list provided and give a 5 minute presentation on that topic to your peers and an assessment panel.

In this task, you will demonstrate your knowledge in paediatric dentistry for the child and adolescent patient.

Assessment Due Date

Week 12 Wednesday (3 Oct 2018) 8:00 am AEST

Return Date to Students

Review/Exam Week Friday (12 Oct 2018)

Weighting

20%

Minimum mark or grade

A minimum grade of 50% is required in this assessment item in order to pass the unit.

Assessment Criteria

The presentation will be assessed according to the marking criteria of Format, Content, Critical Analysis, Limiting Factors, Communication of Content and Audiovisual Aids and will be available on Moodle at the beginning of term.

You must pass this assessment task in order to pass the unit.

Assessment tasks submitted after the due date where an extension was not requested or where sound reasons were not given by the student for a late request are deducted a penalty of five per cent or equivalent of the total available marks for the assessment for each calendar day (full or part) it is overdue. A reduced penalty will normally apply to extension requests submitted and accepted after the due date.

Referencing Style

- [American Psychological Association 6th Edition \(APA 6th edition\)](#)
- [Harvard \(author-date\)](#)

Submission

Offline

Submission Instructions

A copy of your power point presentation is to be submitted prior to or on the day of the presentation.

Learning Outcomes Assessed

- Communicate information regarding oral health in oral and written forms
- Demonstrate the interpersonal and team communication skills, professional attitudes and ethical behaviours of an evolving dental practitioner.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Information Technology Competence
- Cross Cultural Competence
- Ethical practice

2 Portfolio

Assessment Type

Portfolio

Task Description

This assessment consists of completion of dental procedures and a practical barrier examination performed in the simulation laboratory. The barrier examination is to ensure you can practise dental procedures safely and with basic competency . You are given two attempts to pass the barrier examination. You will write self reflective notes in your workbook following each simulation laboratory session. The procedures and marking criteria are outlined in the workbook.

Assessment Due Date

Week 12 Friday (5 Oct 2018) 4:00 pm AEST

Completed workbooks are to be submitted by the due date.

Return Date to Students

Exam Week Friday (19 Oct 2018)

Weighting

Pass/Fail

Minimum mark or grade

You must obtain a grade of at least 67% in the workbook for completed tasks and a pass mark in the barrier exam in order to pass the unit.

Assessment Criteria

You must obtain a grade of at least 67% in the workbook for completed tasks and a pass mark in the barrier exam in order to pass the unit. This assessment item has a pass/fail grade. Assessment tasks submitted after the due date where an extension was not requested or where sound reasons were not given by the student for a late request are deducted a penalty of five per cent or equivalent of the total available marks for the assessment for each calendar day (full or part) it is overdue. A reduced penalty will normally apply to extension requests submitted and accepted after the due date.

Referencing Style

- [Harvard \(author-date\)](#)

Submission

Offline

Learning Outcomes Assessed

- Demonstrate knowledge of advanced restorative skills
- Based on an understanding of the caries process, perform preventive and operative management of dental caries in the primary dentition including extractions, pulpomies, stainless steel crowns and strip crowns
- Understand the underlying principles of and perform the administration of local anaesthetic for child and adult

patients

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Team Work
- Information Technology Competence
- Ethical practice

3 Written Assessment

Assessment Type

Written Assessment

Task Description

The self reflective journal of approximately 1000 words is worth 20% of the total marks for ORAL12005.

You must show evidence of daily self reflection of your performance of assigned tasks in the simulation laboratory through reference to particular challenges and learning outcomes documented in your workbook, on which you base your reflective journal.

Assessment Due Date

Week 12 Friday (5 Oct 2018) 4:00 pm AEST

Return Date to Students

Exam Week Friday (19 Oct 2018)

Weighting

20%

Minimum mark or grade

Minimum mark or grade - 50%

Assessment Criteria

This assessment item is assessed according to the marking criteria for the reflective journal including Clarity, Relevance, Analysis, Interconnections and Self-criticism.

All marking criteria will be available on Moodle at the beginning of term.

You must pass this assessment in order to pass the unit.

Assessment tasks submitted after the due date where an extension was not requested or where sound reasons were not given by the student for a late request are deducted a penalty of five per cent or equivalent of the total available marks for the assessment for each calendar day (full or part) it is overdue. A reduced penalty will normally apply to extension requests submitted and accepted after the due date.

Closed Book

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
