Term 2 - 2024

Profile information current as at 10/05/2024 11:45 am

All details in this unit profile for ORAL12006 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit you will translate and integrate knowledge and skills learnt in Years 1 and 2 into the clinical setting through work-integrated learning clinical practice. You will study the clinical implications of diagnostic radiography and pharmacology in oral health practice. You will have the opportunity to practise and further develop competency in a range of skills including patient assessment, hygiene, restorative, radiography and other dental procedures. On completion of this unit, you will be able to demonstrate higher level clinical judgment and practical skills in the diagnosis and treatment of dental conditions in patients across the lifespan. You will be able to communicate information regarding oral health in oral and written forms utilising appropriate interpersonal and team communication skills, professional attitudes and ethical behaviours.
