PBHL13002 *Public Health Disaster Management*

Term 2 - 2024

Profile information current as at 10/05/2024 04:06 am

All details in this unit profile for PBHL13002 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Since the 1960s, the occurrence of disasters globally has more than tripled. Extreme weather events are predicted to become even more frequent as our environment continues to change and communities will need to become more resilient if they are to withstand and recover from the effects of disasters. Disaster risk reduction and resilience is based upon a combination of risk reduction strategies combined with increasing intra- and inter-personal resilience, including building on existing strengths and relational networks. Individuals and communities are the starting point to build disaster resilience, consistent with Australia's National Strategy for Disaster Resilience (2011) which underscores "shared responsibility" between governments and communities for disaster resilience. Connecting and working in partnership with the community is the aim in disaster risk reduction (DRR); building on existing networks, resources and strengths; identifying and supporting the development of community leaders; and empowering the community to exercise choice and take responsibility are some of the practical actions that can be undertaken to build a more resilient community. In this unit, you will review the historical aspects of disaster management, contrasting the traditional command and control method against the increasing involvement of the public/community in disaster management. You will examine the benefits and barriers to partnering with the broader community, identifying their level of commitment, making use of the community's emerging skill base, and access to largely underutilised resources. By learning from authentic examples of emergency services and community interaction, you will be able to explore the concepts of engagement, preparedness and resilience and be able to participate in contemporary public health disaster management practices.

Details

Career Level: *Undergraduate*

Unit Level: *Level 3*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Pre-Requisite of 96 credit points

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2024

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Information for Class and Assessment Overview has not been released yet.

This information will be available on Monday 13 May 2024

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Personal reflection

Feedback

The one thing I continue to struggle with is engaging professionals working this field to speak with the students.

Recommendation

Every effort will be made to make contact with professionals working in the field of Public Health Disaster Management to speak with the students about their experiences.

Unit Learning Outcomes

Information for Unit Learning Outcomes has not been released yet.

This information will be available on Monday 13 May 2024

Alignment of Learning Outcomes, Assessment and Graduate Attributes

Information for Alignment of Learning Outcomes, Assessment and Graduate Attributes has not been released yet.

This information will be available on Monday 13 May 2024

Textbooks and Resources

Information for Textbooks and Resources has not been released yet.

This information will be available on Monday 17 June 2024

Academic Integrity Statement

Information for Academic Integrity Statement has not been released yet.

This unit profile has not yet been finalised.
