

PBHL13003 *Public Health in Practice A*

Term 1 - 2023

Profile information current as at 05/05/2024 02:08 am

All details in this unit profile for PBHL13003 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

We strongly believe that a Public Health degree should include genuine work experience in a public health workplace setting. In addition to meeting unit requirements, the skills and experiences you gain throughout this Unit will assist with developing professional networks and further your career opportunities. You will undertake a structured period of industry placement (240 hours) as part of this Unit. This will be specifically designed and contractually agreed upon with the University and industry partner. The placement will enable you to apply your knowledge of public health program planning and evaluation, whilst developing an understanding of the professional requirements of working as a public health, health promotion, public health nutrition or environmental health specialist.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Reflection and SUTE

Feedback

The flexible way in which students can complete their practicum means that some still find negotiating the requirements for the unit challenging.

Recommendation

Lecturers should continue to work one-to-one with students to assist them in negotiating practicum and completing assessment tasks.

Feedback from Reflection and SUTE

Feedback

Requirements for the different cohorts (health promotion, nutrition and environmental health) have caused some confusion at times.

Recommendation

Make changes to assessment to better align tasks for each cohort.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Collaborate with relevant stakeholders to undertake a Public Health project
2. Negotiate and manage a placement experience through the use of a self-directed learning plan
3. Identify, analyse and discuss current and emerging issues relating to working within the field of Public Health
4. Apply problem-solving techniques and strategies to a Public Health Project
5. Critically reflect on learning associated with placement experience.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
