General Information

Overview

In an increasingly mobile world, many people are experiencing periods of time immersed in different cultural contexts, either as part of our work, study, volunteering or leisure. This unit provides you with theoretical and scholarly support for cultural immersion at the point of experiencing it in order to help deepen your understanding of yourself and of your new cultural context. Cultural immersion can be a potentially powerful transformative learning experience if undertaken with such support and can develop effective cultural competence skills and knowledge. As this unit explores cultural disruption, it is recommended you take this unit at the beginning of a cultural immersion experience. The unit content will help you to make sense of the disruption and support you in developing strategies and resources to facilitate cultural integration and the development of respectful cross-cultural relationships.

Assessment Tasks

1 Reflective Practice

Assessment Type

Reflective Practice Assignment

Task Description

We each come to public health with a set of our own beliefs, assumptions, experiences, judgements, and views that reflect our culture and upbringing, as well as the events in our life. For this assignment, you must think about your own health experiences and the way they have been impacted by your own socio-cultural background and how you think about health.

This is an individual 1000-word reflective assessment. Your reflections on these areas should be supported by evidence from literature, textbooks or other reputable sources. All references must be cited appropriately with a reference list included. You cannot use materials from Google, Artificial Intelligence or any internet sources which do not meet academic standards and guidelines.

Assessment Questions

1. Think about how your personal upbringing and circumstance influence how you perceive health and illness.

What is your understanding of health and illness? How do they treat illness? How does your education play into your understanding? Is what you believe similar to your family and those around you?

2. Critique the responsibility to health and managing illnesses.

Who do you think is responsible for health - the individual involved, the family, the society in which he or she lives, the government, health services or others? Discuss why you think that way.

3. Create a diagram to illustrate what factors have impacted your position on health

This may include personal factors, socio-economic factors and community factors

4. Map your diagram explaining the factors impacting your position link against the socio-ecological model of health.

Provide a critical analysis of different factors that interacts and influences health outcomes.

Compare how your model is different or similar to the socio-ecological model of health.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
