General Information

Overview

Volunteering in cross-cultural communities is an experience many adults seek out to broaden their personal and professional perspectives. In this unit you will develop the skills and knowledge required to undertake a volunteer experience in a cross-cultural context. These experiences include being able to initiate and maintain cross-cultural relationships and to reflect deeply on your own actions, assumptions and worldviews that influence these relationships. You will explore the benefits and challenges of volunteering in cross-cultural communities and organisations and develop skills in the co-generation of knowledge through working closely with others. This unit requires you to undertake a minimum of 25 hours volunteering with a community organisation that will provide you with an opportunity to work with people from a cultural context different to your own.
