General Information

Overview

Public Health Project Work 2 is the third of a suite of four units designed to allow you to undertake a work-related or research project over the course of two terms. This suite of units provides you with the opportunity to demonstrate the skills and knowledge you have gained throughout the six core public health units and to apply these to a specific project. The project may be related to a public health intervention, evaluation or research topic. This unit will allow you to undertake the relevant work associated with data collection and analysis, reflexivity and management of a project.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit Coordinator's observations

Feedback

Students often view the research process as somewhat mechanical and do not reflect on their own learning and interests that may be supported by the research experience.

Recommendation

The online discussion activity be structured to encourage reflection and focus more clearly on the personal, intangible aspects of the research experience.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Monitor integrity of research work with regards to social-ecological model of health principles
2. Maintain integrity of project work with regards to design, approach and ethical considerations throughout data collection and analysis
3. Critically reflect on and monitor relationships with project team and participants, ensuring effective communication maintained
4. Express critical reflexivity through journalling, memos or field notes.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
