General Information

Overview

Through intermediate studies in ensemble music performance, you will be able to synthesize your specialised performance skills within the context of publicly presented music ensemble performances. These music ensemble activities give you the opportunity to work in various performance, technical and creative roles as appropriate so that you have the opportunity to develop foundation skills in problem-solving, creative, self-regulated and critical thinking, within a team-based environment. NOTE: On occasion, as part of your studies, you may be required to participate in performance activities in various settings and locations (off campus) that may contribute to your assessment in this unit.

Term Specific Information

Equipment Requirements for Recording Projects

Performance and Production Studies students require some very specific equipment to facilitate the recording requirements of this unit.

This unit provides training in performing recording and mixing music. Because of this, you will need to have access to the following:

- *Ableton Live* software
- An audio interface
- Your instrument
- A quick stable internet connection (preferable ethernet)
- Microphone or instrument lead
- Studio headphones and your computer / webcam

About Ableton Live

Ableton Live is an industry standard DAW (digital audio workstation) and learning how to use it is extremely beneficial. You will be required to submit *Ableton Live* sessions as part of your assessments and therefore need to have access to a copy of *Ableton* software. As the production classes are based on the *Ableton* software, no other DAWs are acceptable for this unit. A free 90 day full use trial version of the *Ableton Live* software is available for download from the *Ableton Live* website (<https://www.ableton.com/en/trial/>).

If you have any questions regarding these requirements, please contact the Unit Coordinator, Jason Smyth-Tomkins (j.smyth-tomkins@cqu.edu.au).

3 Mix Project

Assessment Type

Practical Assessment

Task Description

In this assessment task, you will either:

a) *Perform a mix* of 2 of the songs recorded by your ensemble

or

b) *Perform a mix* of 1 song and *a remix* of another song recorded by your ensemble.

Option A

You will be asked to perform a basic sound mix on 2 of the songs recorded by your ensemble, using specific mixing techniques applied to a specified range of instruments and voice, relative to your ensemble. You should reference the original song as you make decisions about the relative level of each instrument and their position in the stereo image. These songs will be recorded by your ensemble on *Ableton Live* and features a range of instruments. At the completion of Assessment Items 1 & 2, the project stems of each instrument will be shared with you as an *Ableton Live* project,

which you may use to mix the songs. You will be required to:

- Manipulate the level balance of instruments in the recording
- Manipulate the panning of instruments in the recording
- Control the dynamic of instruments where required (compression)
- Add depth to your mix (reverb, chorus and delay)
- Shape or enhance the spectral content of the instruments (EQ)
- Apply automation

Option B

You will perform a mix of one of your ensemble songs as outlined above and create a remix of another ensemble song. For the remix, you may use *Ableton's* live built in software instruments, samples and effects to create a new version of the song. This version may be reinterpreted into a new genre or rearranged as appropriate to your creative vision. The remix must contain:

- At least 2 tracks from the original recording (these may be manipulated)
- At least 2 new instrument tracks

Submitting Your Mixes

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
