General Information

Overview

This unit explores core healthcare principles including fitness to practise, quality healthcare, and cultural competence. Effective communication is emphasised as a crucial component for patient and team interactions, while the implementation of safe clinical practices underpins appropriate care in paramedicine. The unit examines communication strategies that support meaningful engagement with patients and healthcare teams. A safe clinical approach is also addressed, incorporating clinical assessments, practical skills, and the safe use of medications in paramedic practice. In addition, the unit considers sociocultural influences on health and outlines strategies to support at-risk patients and address their unique needs. Collectively, these principles contribute to enhanced patient care and outcomes.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Feedback

Feedback

Students mentioned that they found the residential school very rewarding and a great way to put theory into practice

Recommendation

Will continue with the hands on approach of the residential school, allowing students ample time to practice their practical applications.
