

Profile information current as at 09/05/2024 12:13 pm

All details in this unit profile for PMSC12001 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

You will develop an understanding of paramedic care through investigation of the underpinning theory and practice of procedural applications in the discipline. This will include examples of clinical investigations of the neurological, respiratory, cardiovascular, gastrointestinal and endocrine systems including basic practical procedures, such as cannulation, ventilation techniques, defibrillation and trauma management at an introductory level. Your knowledge and skills will be developed through a series of coursework exercises and practical laboratory sessions.

Details

Career Level: Undergraduate

Unit Level: Level 2 Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Pre-requisites: PMSC11002 Foundations of Paramedic Clinical Practice BMSC11001 Human Body Systems 1Co-requisite BMSC11002 Human Body Systems 2 Emergency Medicine is a fast paced, ever changing environment. At CQU we are continually adapting our course to ensure students are prepared to meet these needs. With this in mind, if in the last 12 months you have not: Successfully completed a clinical placement unit or Successfully completed a PMSC unit with a compulsory residential school attached or Undertaken equivalent and relevant work experiences (as deemed by the Unit Coordinator) You will be required to attend the residential school for PMSC12001 again at your own cost. Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the Assessment Policy and Procedure (Higher Education Coursework).

Offerings For Term 2 - 2021

- Cairns
- Mixed Mode
- Rockhampton
- Townsville

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are: Click here to see your <u>Residential School Timetable</u>.

Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

Regional Campuses

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

Metropolitan Campuses

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. Practical Assessment

Weighting: Pass/Fail 2. **Presentation** Weighting: 50%

3. Written Assessment

Weighting: 50%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the <u>University's Grades and Results Policy</u> for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the CQUniversity Policy site.

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the CQUniversity Policy site.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback

Feedback

Feedback on assessment not helpful to learning.

Recommendation

Review the format and content of feedback to ensure it is specific and helpful to student learning.

Feedback from Student feedback

Feedback

Skills videos were invaluable to learning, however the quality of some videos was poor.

Recommendation

To improve the quality of the recording of the skills videos.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

- 1. Articulate the theoretical underpinnings, including the anatomical and pathophysiological reasons, for the application of advanced care skills and interventions in the management of a critically ill or injured patient
- 2. Identify the indications, precautions, risks and contraindications of the skills and interventions involved in advanced care prehospital practice
- 3. Employ critical thinking and clinical decision making for the use of advanced care skills and interventions
- 4. Demonstrate the skills and interventions involved in advanced care prehospital practice.

The new learning outcomes align with the Council of Ambulance Authorities accreditation standards of:

- 3.1.4 Collaboration with the ambulance sector
- 3.1.5 Collaboration with the profession
- 3.1.6 Collaboration with other sectors

Also aligns with the CAA paramedic professional competency standards:

- professional expectations of a paramedic
- makes informed and reasonable decisions
- demonstrates professional autonomy and accountability
- develops and maintains professional relationships
- demonstrates the knowledge, understanding and skills required for practice
- operates within a safe practice environment
- identifies and assesses health and social needs in the context of the environment

Textbooks and Resources

Textbooks

PMSC12001

Prescribed

Textbook of Adult Emergency Medicine

Edition: Fifth

Authors: Peter Cameron, Mark Little, Biswadev Mitra, Connor Deasy.

Binding: Paperback

Additional Textbook Information

If you prefer to study with a paper text, you can purchase one at the CQUni Bookshop here:

http://bookshop.cqu.edu.au (search on the Unit code).

IT Resources

You will need access to the following IT resources:

- CQUniversity Student Email
- Internet
- Unit Website (Moodle)
- Computer ability to access study materials, including instructional videos and scan and upload assessment.
- Earphones

Referencing Style

All submissions for this unit must use the referencing style: <u>American Psychological Association 7th Edition (APA 7th</u> edition)

For further information, see the Assessment Tasks.

Term Specific Information

Students enrolled as On-campus will be required to attend compulsory tutorial sessions during the term. Students must nominate their preferred tutorial location and time through MyCQU, under My Timetable in the My Units tab. Tutorial numbers are capped per session, you are not guaranteed a place at your preferred session, but you are guaranteed one session per week.

Students enrolled as Distance will be required to attend a compulsory residential school. Students must nominate their preferred residential school location through MyCQU, under My Timetable in the My Units tab. Numbers at residential schools are capped and a position at your preferred residential school is not guaranteed. Geographical proximity to and/or previous attendance at a residential school location does not guarantee placement at your preferred residential school location.

Attendance at internal tutorials and residential schools is compulsory. If for any reason you cannot attend a tutorial or day at residential school you must provide appropriate evidence, as per Assessment Policy and Procedure, to justify your absence. You will be responsible for making arrangements, with the unit coordinator, to make up for the missed learning and teaching

Assessment Tasks

1 Procedures and Skills Validation

Assessment Type

Practical Assessment

Task Description

The safe and competent performance of medical procedures and skills forms a core aspect of paramedic practice. As such all qualified Paramedics need to be assessed on a regular basis to ensure continued excellent standards of practice. This assessment will be conducted using a variety of platforms, including (but not limited to) general observation, one-on-one discussion and Objective Structured Clinical Examinations (OSCEs).

Attendance at the Residential school is compulsory. Inability to attend must be discussed as soon a possible with your lecturer BEFORE THE SCHEDULED TIME with alternate arrangements being made. Please note that appropriate documentation will need to be provided.

Assessment Due Date

Clinical Skills assessed during Residential School for all Students.

Return Date to Students

Students will be made aware of their results on completion of the residential school.

Weighting

Pass/Fail

Minimum mark or grade

You must achieve a pass mark for EVERY skill/procedure to be eligible to pass this course.

Assessment Criteria

You will be required to demonstrate your theoretical knowledge and practical abilities for each skill and procedure addressed in this course. This will be conducted on a number of varying platforms, such as general observation, one on one demonstration and Objective Structured Clinical Examinations (OSCE's). The practical assessments consist of a quiz on the first morning of the residential school, followed by a random selection of two skills covered throughout the unit on the last day of the residential school. Students must achieve a Pass Mark for every assessment attempted to pass the unit. Students will be provided with one resit should they fail one assessment. If a student fails two or more assessments, an overall Fail will be awarded for this unit.

Critical errors in this unit will be classed as anything, by act or omission, that causes immediate harm or the potential to cause harm, to yourself, partner, patient or bystanders or any procedure that is performed outside your scope of practice. During any form of assessment, if any of the following are witnessed the assessment will immediately cease, and no marks will be given for that assessment. Furthermore, any critical error discovered on review or moderation will also result in no marks being given for that particular assessment:

· Unsafe defibrillation

- · Incorrect joules delivered during defibrillation
- · Defibrillation of a non-shockable rhythm
- Failure to recognise a cardiac arrest (>1minute)
- Failure to shock a shockable rhythm in a timely manner (<2 minutes)
- · Failure to perform a complete drug check
- · Incorrect sharps disposal or unsafe practice with a sharp
- · Performing a skill or procedure or administering a drug outside your scope of practice
- · Any grossly unsafe practice, as determined by the assessing academic.

If you do not understand any of the above, please do not hesitate to clarify with your unit coordinator.

Submission

Offline

Submission Instructions

Clinical Skills assessed at Residential School for all Students.

Learning Outcomes Assessed

- Identify the indications, precautions, risks and contraindications of the skills and interventions involved in advanced care prehospital practice
- Demonstrate the skills and interventions involved in advanced care prehospital practice.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Team Work
- Cross Cultural Competence
- Ethical practice

2 Poster Presentation

Assessment Type

Presentation

Task Description

Preamble: Pre-hospital care in Australia is a dynamic and constantly evolving environment. With the introduction of new technology and emerging research, how we treat our patients and the scope of paramedic practice also evolves. **Rationale:** Pre-hospital care is becoming an evidence-based profession, all new skills and procedures should, therefore, be supported by best practice. As health care professionals we need to remain current in our clinical practice and be cognisant of when we are limited by our own scope of clinical practice.

Details: You are to investigate and report on a skill or procedure that is currently taught or utilised in PMSC12001. You will deliver your findings as a scientific poster presentation.

Objectives:

Research a skill or procedure in patient assessment or management that is currently taught or utilised within PMSC12001.

Using evidenced based data:

Discuss the procedure/skill: Provide an overview of its application and discuss its relevance to paramedic practice. Using supporting evidence discuss the utilisation prehospitally and the benefits it provides.

Clinical Practice Procedure breakdown: Explain why it has the current INDICATIONS, CONTRAINDICATIONS and COMPLICATIONS, or why it has none. Utilise supporting evidence.

Comparison: Compare and contrast to previous procedures/skills that were used prior to the application of the chosen skill.

Future: Research what new procedures/skills are available or being developed that could be adopted by an ambulance service. If you are unable to find a new and improved version, then suggest improvements for the current procedure/skill.

Word count: 1000 words (+/- 10%)

Weighting: 50%

Assessment Due Date

Week 11 Monday (27 Sept 2021) 8:00 am AEST

Return Date to Students

Feedback and grading will be made available four weeks post due date

Weighting

50%

Minimum mark or grade

50%

Assessment Criteria

Results for this assessment will be based on the following criteria:

Discussion: Demonstrated an appropriate overview of the procedure/skill, utilising contemporary evidence to support or justify arguments made. Maximum Score: 10

Clinical Practice Procedure Breakdown: The indications, contraindications and complications of the skill were addressed with correct and relevant content. Explanations provided were appropriate with the utilisation of evidence to support them. Maximum Score: 10

Comparison: Appropriate examples of past skills provide with an appropriate overview of its benefits and limitations.

Maximum Score: 10

Future: Appropriate choice of future skill with an adequate overview or appropriate outline of possible improvements.

Maximum Score: 10

Poster Setup: Professional presentation of the scientific poster in terms of organised layout (e.g. flow and use of headings), use of visual aspects (images/diagrams and readability). Presented the information in a logical sequence with an appropriate flow of information. Demonstrated appropriate grammar and spelling. Maximum Score: 5

References and Referencing: Utilised at least eight (8) high-quality references (a minimum of three peer-reviewed articles are expected) in line with APA referencing. Use of predominantly peer-reviewed scientific articles including sentinel articles, high levels of evidence or quality studies and articles. Utilised the APA referencing style with appropriate and correctly formatted in-text referencing, reference list and images. Maximum Score: 5

Total Score: 50

Referencing Style

Submission

Online

Submission Instructions

Submitted via Moodle

Learning Outcomes Assessed

- Articulate the theoretical underpinnings, including the anatomical and pathophysiological reasons, for the
 application of advanced care skills and interventions in the management of a critically ill or injured patient
- Employ critical thinking and clinical decision making for the use of advanced care skills and interventions

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Information Technology Competence
- Ethical practice

3 Clinical Practice Discussion Forum

Assessment Type

Written Assessment

Task Description

Clinical Practice Discussion Forum

You are required to participate in two (2) different Module Clinical Practice Discussion (CPD) forums throughout the unit . A new clinical question will be provided prior to the discussion forum opening. The discussion forum will open Monday 08:00 and will close one week later on Monday 08:00.

- Forum One: Opens Monday Week Three 26/07/2021 08:00 (closes 02/08/2021 at 08:00)
- Forum Two: Opens Monday Week Seven 30/08/2021 08:00 (closes 06/09/2020 at 08:00)

The Clinical Practice Discussion forums will utilise the Moodle forum platform and involve smaller groups. The emphasis of these forums centers around student engagement and interaction as well as student-led constructive and contemporary contribution. Teaching staff will act as moderators for the CPD forums.

A copy of your CPD response must also be uploaded to Moodle under Clinical Practice Discussion Assessment item.

Assessment Due Date

Various (please review Task Description or Moodle site for further details)

Return Date to Students

Feedback and grading will be made available three weeks post due date

Weighting

50%

Minimum mark or grade

50%

Assessment Criteria

The Clinical Practice Discussion will be worth 25% each.

Word Count: 500 (+/-10%) for each Clinical Practice Discussion submission.

Results for this assessment will be based on the following criteria:

Engagement, Contribution to dialogue and Professionalism: Demonstrated engagement and positively contributed to the discussions by posing questions, challenging ideas, stimulated ongoing relevant conversation and added real value to the discussions. Minimum of 3 different questions posed. Demonstrated proficiency and professionalism in ability to address questions posed by other participants in the forum. Maximum Score: 5

Quality of Information: Comprehensively addressed all elements of the discussion questions. Demonstrated critical thinking and decision making. Presented ideas in a logical structure. Maximum Score: 10

Evidence and Reasoning: Utilised contemporary evidence to justify response and current clinical practice. Demonstrated use of evidence with clear links to support clinical practice and/or identified gaps in the evidence. Maximum Score: 5

Formatting and Referencing: Demonstrated appropriate grammar and sentence structure. Utilised language and dialogue that is expected and appropriate for the health profession. Utilised quality information sources including in text references. References list with minimum of 5 quality journal sources. In text referencing and reference list in accordance with APA 7 referencing. Maximum Score: 5

Referencing Style

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the **Student Academic Integrity Policy and Procedure**. This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the <u>Academic Learning Centre (ALC)</u> can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
