

Profile information current as at 07/05/2024 10:49 am

All details in this unit profile for PMSC12003 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

# **General Information**

### Overview

In this unit you will develop the capacity to engage with, assess, and manage the population subgroups of pregnant women, paediatrics, and people with disabilities. Upon completion of this unit you will be able to draw upon your knowledge of pathophysiology, epidemiology, and aetiology to create effective treatment pathways for the management of these populations.

## **Details**

Career Level: Undergraduate

Unit Level: Level 2 Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

# Pre-requisites or Co-requisites

Pre-requisite - PMSC11004 Paramedic Emergencies 1 and PMSC12004 Advanced Electrophysiology and Coronary Care Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the <u>Assessment Policy and Procedure (Higher Education Coursework)</u>.

# Offerings For Term 2 - 2020

• Mixed Mode

# Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

## Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are: Click here to see your <u>Residential School Timetable</u>.

### Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

# Class and Assessment Overview

## Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

# Class Timetable

#### **Regional Campuses**

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

#### **Metropolitan Campuses**

Adelaide, Brisbane, Melbourne, Perth, Sydney

# **Assessment Overview**

1. Online Quiz(zes)

Weighting: 60%

2. Practical Assessment

Weighting: Pass/Fail

3. Written Assessment

Weighting: 40%

# Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the <u>University's Grades and Results Policy</u> for more details of interim results and final grades.

# **CQUniversity Policies**

### All University policies are available on the CQUniversity Policy site.

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the CQUniversity Policy site.

# Previous Student Feedback

# Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

## Feedback from Student Feedback Casual Staff Recommendation

#### **Feedback**

Videos to demonstrate skills could be included for external students to watch prior to attending Residential School

#### Recommendation

Skill videos will be included in 2020 and posted to Moodle for students to access.

#### Feedback from Student Feedback

#### Feedback

Paediatric resuscitation was not covered in enough detail prior to residential school

#### Recommendation

Further information will be provided on Moodle regarding paediatric resuscitation for students to access.

#### Feedback from Student Feedback

#### **Feedback**

Recommendation to increase length of Residential School to four days

#### Recommendation

Continue discussions with Paramedic Science team to determine if a four day Residential School is possible.

# **Unit Learning Outcomes**

# On successful completion of this unit, you will be able to:

- 1. Summarise the major anatomical and physiological changes that occur during pregnancy and birth and their clinical relevance
- 2. Discuss the anatomical and physiological differences in paediatric patients and their clinical relevance
- 3. Explain the underlying physiology of common disabilities and their clinical relevance
- 4. Demonstrate effective assessment and management of obstetric, paediatric, or patients with disabilities in a safe and competent manner.

# **Term Specific Information**

Due to COVID-19 impacts at the time of preparing this unit profile, the residential school attached to this unit for Term 2 2020 has been postponed and will need to be completed at a later date. Further details will be made available on the unit Moodle site in due course.

# **Assessment Tasks**

# 1 Online Quizzes

#### **Assessment Type**

Online Quiz(zes)

## **Task Description**

You will complete three (3) separate online quizzes. Each quiz may consist of multiple choice questions, True/False, Sequence questions, Long Answer questions and/or Short Answer questions, exploring content included in the unit (such as, but not limited to, lecture materials, online modules, links and required readings).

Content for the quizzes is based on previous weeks' topics (as detailed in the schedule) and will test your ability to explain the major anatomical and physiological changes that occur during pregnancy and their clinical relevance; and explain the anatomical and physiological differences in paediatric and patients with disabilities and their clinical relevance. You may also be required to explain specific medical conditions relating to these special populations.

QUIZ ONE: Available from 3 August 2020. DUE Friday 14 August 2020 1700hrs

QUIZ TWO: Available from 31 August 2020. DUE Friday 11 September 2020 1700hrs

QUIZ THREE: Available from 14 September 2020. DUE Friday 25th September 2020 1700hrs

#### **Number of Quizzes**

3

#### **Frequency of Quizzes**

Other

## **Assessment Due Date**

Quiz One: DUE 14/08/2020; Quiz Two: DUE 11/09/20; Quiz Three; DUE 25/09/20

#### **Return Date to Students**

Students will receive feedback via the Moodle Website within 2 weeks post due date.

## Weighting

60%

## Minimum mark or grade

50%

#### **Assessment Criteria**

There are three (3) quizzes and each quiz is worth 20% of the total mark for the unit. Marks are awarded if a question is answered correctly and the total marks are tallied after each quiz has been attempted. Non-attempts will score a zero

Quizzes are open-book, so the use of Clinical Practice Guidelines, book chapters, journal articles etc are allowed. Please take note that this is an individual assessment. Collaboration is not allowed and may lead to disciplinary action. Each quiz will have a specific time limit imposed to complete the quiz.

In the absence of an approved extension, there will be no opportunity to complete the task after the due date, and there will be no opportunity to apply a late penalty of five percent per day. Quizzes may not be re-attempted. You are required to achieve an overall mark of at least 50% to pass this assessment item.

#### **Referencing Style**

• American Psychological Association 7th Edition (APA 7th edition)

#### **Submission**

Online

## **Learning Outcomes Assessed**

- Summarise the major anatomical and physiological changes that occur during pregnancy and birth and their clinical relevance
- Discuss the anatomical and physiological differences in paediatric patients and their clinical relevance
- Explain the underlying physiology of common disabilities and their clinical relevance

#### **Graduate Attributes**

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Information Technology Competence
- Cross Cultural Competence
- Ethical practice

# 2 OSCE

#### **Assessment Type**

**Practical Assessment** 

## **Task Description**

This assessment is a Pass/Fail Assessment.

This is an Objective Structured Clinical Examination (OSCE), which will be conducted at the Residential School. There will be three (3) OSCE stations, each designed to assess your knowledge and practical skills acquired during this unit. There will be two (2) short case OSCE stations. You will be allocated 10 minutes per station, with a mix of station types and competencies tested.

Some examples of these stations are:

- Voice Viva
- Skill Station
- Mini Scenario

There will also be one (1) long case OSCE station. You will be allocated 20 minutes to complete the assessment. The long case OSCE will be delivered in the format of a structured scenario, looking at the following areas:

- Patient assessment and history taking.
- Evidence gathering and patient treatment.
- Implementation of interventions, procedures and skills.
- Overall patient and scene management.

#### Assessment Due Date

The Practical Assessment will take place during the Residential School - Date to be announced

## **Return Date to Students**

2 weeks post Residential School

## Weighting

Pass/Fail

#### **Assessment Criteria**

The Assessment Rubric will be provided on the unit Moodle page. The result from each OSCE will be added together to form a cumulative mark to determine the pass/fail result. You will be required to achieve an overall score of 50% to achieve a pass mark.

Critical errors in this unit will be classed as anything that causes immediate harm to self, partner, patient or bystanders and/or any procedure that is performed outside the students' scope of practice.

During any form of practical assessment, if any of the following critical errors are witnessed the assessment will immediately cease and no marks will be given for that item:

- Unsafe defibrillation.
- Incorrect joules delivered during defibrillation.
- Defibrillation of an non-shockable rhythm.
- Failure to recognise a cardiac arrest within 1 minute.
- Failure to defibrillate a shockable rhythm within 2 minutes.
- Failure to perform a complete drug check.
- Incorrect sharps disposal or unsafe practice with a sharp.
- Performing a skill and/or procedure outside the scope of practice taught in PMSC11002, PMSC12001, PMSC12004 and PMSC12003.
- Any grossly unsafe practice, as determined by the assessing academic.

If you do not understand any of the above, please do not hesitate to clarify with your unit coordinator.

Failure to attempt/undertake an assessment task will result in a fail for this assessment.

#### **Referencing Style**

• American Psychological Association 7th Edition (APA 7th edition)

#### Submission

No submission method provided.

#### **Learning Outcomes Assessed**

• Demonstrate effective assessment and management of obstetric, paediatric, or patients with disabilities in a safe and competent manner.

#### **Graduate Attributes**

- Communication
- Problem Solving
- Critical Thinking
- Team Work
- Information Technology Competence
- Cross Cultural Competence
- Ethical practice

## 3 Written Assessment

#### **Assessment Type**

Written Assessment

## **Task Description**

Often the phrase "A child is not a small adult" is heard in the medical professions. Your task is to research current literature, learning materials or peer-reviewed sources to discuss this phrase. In this essay you should review the above statement and explain the pathophysiological, anatomical and physiological concepts behind this. You should also relate your findings to paramedic clinical practice.

#### **Assessment Due Date**

Week 11 Friday (2 Oct 2020) 5:00 pm AEST

Students should submit their assessment via the Moodle Website, following submission to Turnitin

#### **Return Date to Students**

Review/Exam Week Friday (16 Oct 2020)

Students will receive feedback via the Moodle Website within 2 weeks post due date.

## Weighting

40%

#### Minimum mark or grade

50%

#### **Assessment Criteria**

Your essay should contain at least the following:

- Title Page
- Contents Page
- Introduction
- Body logically presented and divided into relevant paragraphs
- Conclusion
- References

Please note the following details:

- The length of your essay should be 2000 words (+/- 10%) excluding references.
- Text should be word-processed, with appropriate layout and use of headings/sub-headings.
- Diagrams can be used if relevant please ensure you cite/reference all sources appropriately.
- Referencing should be in APA format and a complete Reference List should be included at the end of the essay.
- You should locate and use relevant primary peer-reviewed source material published within the last 10 years.
- Please save/upload your file in either Word Format (.doc or .docx) or PDF format.
- Further guidance is provided using the marking rubric provided on the Moodle page.

This essay will be worth 40% towards the total percentage mark for this unit.

You are required to complete and achieve a mark of at least 50% for this assessment item to pass the unit.

#### **Referencing Style**

# **Academic Integrity Statement**

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the **Student Academic Integrity Policy and Procedure**. This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

#### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

#### Where can I get assistance?

For academic advice and guidance, the <u>Academic Learning Centre (ALC)</u> can support you in becoming confident in completing assessments with integrity and of high standard.

#### What can you do to act with integrity?

#### **Be Honest**

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### **Produce Original Work**

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
