General Information

Overview

This unit is one of three (3) clinical placement units within the course. In this unit, you will apply clinical knowledge and skills at an intermediate level in a clinical setting with an approved provider. You will complete a placement of a minimum of 200 hours (rostered across six weeks) with an approved clinical provider, applying a defined scope of practice under supervision. You will demonstrate your competency of newly acquired skills and engage in structured reflective practice activities to support self-directed learning.

Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2027

- Mixed Mode

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student Unit Teaching Evaluation

Feedback

The provision of a prewritten case study was met with mixed feedback. Previously, students have completed a grand rounds presentation based on a case attended on clinical placement. Students reported that whilst the pre-written case study was a useful task to respond to, they felt it would be more meaningful to focus on a case attended on clinical placement.

Recommendation

Update the assessment task to draw on clinical placement experience. Reflection is a key focus of work-integrated learning and can be achieved through a reflective case study response to a case attended on clinical placement.

Feedback from Student Unit Teaching Evaluation

Feedback

Update learning materials within the unit, whilst mindful of study load on clinical placement.

Recommendation

Continue to update learning materials within the unit. Ensure resources are concise, relevant to clinical placement and easy to access.
