## Term 3 - 2018

Profile information current as at 28/04/2024 08:56 am

All details in this unit profile for PMSC13004 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

### General Information

#### Overview

This unit is the third of three work-integrated learning units within the Paramedic Course, requiring Student Paramedics to apply clinical knowledge, reasoning and practical skills at an advanced level in the acute prehospital care environment. Students will complete a total of six weeks of clinical placement at an urban station with an approved ambulance service. Placement activities focus on clinical judgement & decision-making to support increasingly independent practice, ensuring student preparedness for entry into a graduate internship program.

#### Details

## Assessment Tasks

### 1 Placement Attendance & Performance Evaluation Reports

#### Assessment Type

Professional Practice Placement

#### Task Description

On a fortnightly basis, you will complete a Placement Attendance & Performance Evaluation Report (PAPER) with your supervising Mentor. This report considers aspects of your clinical and professional performance on-road, including your performance as patient care officer, clinical procedures and skills, communication and teamwork skills, and your professional conduct, attitude, and demeanour. The PAPER template guides you and your Mentor through completion, and the form itself also provides comprehensive information for your Mentor on your current stage of learning, your expected performance levels, and information on support and assessment. Please see the unit Moodle site for a complete description of this assessment task, including completion guidelines and examples.

This task is designed to enhance the educational quality and value of your clinical placement by:

- Establishing clear expectations of students' clinical performance and knowledge, enabling Mentors to frame assessment, feedback, and support at the appropriate level.
- Providing a framework for communication and feedback to guide and strengthen the Student - Mentor relationship.
- Recording your on-road performance on a week-by-week basis, to demonstrate achievement of unit learning objectives and assessment requirements.
- Ensure adherence to required standards of conduct and attendance during clinical placement.

It is important to note that these documents are not solely to confirm your completion of unit requirements; they are equally valuable as evidence logs of your professionalism, conduct, and clinical performance that will support your future employment applications. For these reasons they are arguably the most valuable documents from your clinical placement, and it is imperative that you are diligent in completing them with your mentors as instructed.

#### Assessment Due Date

For non-standard clinical placement dates your due date for this assessment is one week after the completion of your clinical placement.

#### Return Date to Students

For non-standard clinical placement dates your return date for this assessment is two weeks after submission.

#### Weighting

Pass/Fail

#### Assessment Criteria

Whilst attending placement you will provide a copy of the Student Information Sheet to all mentors that you work with. This sheet provides information on appropriate performance expectations, the goals of this placement phase, and on the performance review process. Appropriate feedback and grading from your mentor depends upon their access to this information, and it also provides University contact details in the event of emergencies or problems, so please ensure that you do provide this sheet for Mentors. Where problems arise in terms of performance expectations one of the first

things that is checked is completion of the Student Information Sheet.

- Your submission must meet the following criteria to pass this assessment task:
- You must attend all scheduled shifts for both placement rotations. Minimum placement hours apply.
- You will complete three PAPERS with your mentors across the six weeks of your clinical placement **according to the stated schedule:** complete PAPER1 at end of second placement week, complete PAPER2 at end of fourth placement week, complete PAPER3 during (but before the end of) the sixth and final placement week.
- You will submit all three PAPERS together on the first Friday following completion of clinical placement.
- All fields must be completed in full according to directions on the Information Sheet at the front of the document.
- Your shift attendance log must be verified as true and correct by either one of your mentors or your station OIC. Failure to obtain a signature from your mentor or OIC will result in your PAPER being return for all signatures.
- You must complete the Marking Checklist prior to submission of the PAPER assessment.
- Notify the placement host by phone asap of any unplanned absenteeism; next notify the Unit Coordinator via email and attach a completed Absenteeism Report.
- Absences must be logged on the shift log, and arrangements made to complete missed hours. Minimum total hours apply.
- Minimum expectations of clinical performance grades are detailed within the assessment rubric on Moodle.
- Minimum expectations of professional conduct grades are detailed within the assessment rubric on Moodle.
- Students are expected to uphold the standards and requirements of the Clinical Placement Guidelines as provided within Moodle.
- Direct reports from industry of student misconduct, or of significant concerns regarding clinical performance, are investigated fully and may impact successful completion of this assessment task.
- Please scan all pages of your PAPERS, and compile into ONE SINGLE PDF file. Instructions for this process are provided on Moodle.

Further information and examples of completed documentation are provided on Moodle.

Attendance and mentor reports are subject to validity checks with placement hosts.

#### **Professional conduct:**

Your professional conduct during clinical placement is subject to evaluation. Significant penalties, ranging from unit failure to course expulsion, exist for students whose conduct and/or actions breach University policies and/or those of the industry placement host. Direct lines of communication exist between placement hosts and the University, and all complaints or concerns raised by industry representatives will be fully investigated. In such circumstances both student and industry perspectives are sought.

Please review the policies and rubrics for this assessment task prior to placement; these are available on the Moodle assessment page.

You must submit and pass all components of this assessment to pass the unit. This is a pass/fail assessment.

## 2 Clinical Placement Portfolio

#### **Assessment Type**

Portfolio

### **Task Description**

This term you will continue to use reflective practice activities to self-assess your own academic progress and to proactively manage your learning and development during on-road placement.

This assessment comprises a combination of clinical and non-clinical tasks presented in portfolio format. These tasks support your continued professional development through structured reflective practice activities and self-directed learning.

By continuing with this program of self-review through your final clinical placement, you will further cement the core skill set necessary to take charge of your academic and clinical professional development, both during this final clinical placement and future career with an Australian ambulance service.

### **Assessment Due Date**

For non-standard clinical placement dates, your portfolios are due two weeks after the completion of your clinical placement.

### **Return Date to Students**

For non-standard clinical placement dates, your results will be posted two weeks after actual submission date.

### **Weighting**

Pass/Fail

### **Assessment Criteria**

The Portfolio comprises one workbook document, which must be completed to the required standard and submitted as a single combined PDF document. The portfolio will contain the following elements:

- Patient Care Officer Case Log.
- Post-Placement Self-Review.
- Clinical Case Reviews, completed to the required standard. **Please review the example provided in Moodle. Substandard CCRs will be returned for completion.**
- Clinical Skills Sign-Off Sheet.
- Clinical Questions
- DTP Sign-Off Sheet.
- Marking Checklist, to be completed by the student prior to submission.

The portfolio must be submitted as a single PDF file and uploaded to Moodle; please do not submit as image files, and please do not email these to your Lecturer. Please see the unit Moodle for a complete description and discussion of this assessment task, including completion guidelines and word count requirements as relevant.

An exemplar will be posted to the unit Moodle page for reference.

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### What can you do to act with integrity?

#### Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
