

PMSC13007 Contemporary Emergency Services Issues

Term 2 - 2021

Profile information current as at 19/04/2024 09:07 pm

All details in this unit profile for PMSC13007 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit is a survey of contemporary issues related to emergency and disaster management, with a focus on those issues that have particular resonance for you and your specific industry context. From the broader pool of identified issues, you will select one contemporary emergency or disaster management related issue of interest and investigate that issue in some depth. Based on your investigation, you will then identify future directions and recommendations, and communicate your findings in a genre that is appropriate to the academic community and your specific industry context.

Pre-requisites or Co-requisites

Pre-requisite is PMSC13008 Evaluating Emergency Services Risks.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 2 - 2021

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

Flexible engagement opportunities

Recommendation

Given the nature of this capstone unit and the different topics being explored by students, the flexibility to tailor student engagement sessions (for example, Zoom sessions) was appreciated by students. It is recommended that this flexible approach be maintained in future offerings.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Identify a contemporary issue impacting the emergency or disaster management contexts
2. Locate appropriate peer-reviewed literature and industry-based literature relevant to a contemporary emergency or disaster management issue
3. Critique literature relevant to an identified issue
4. Evaluate the located literature in order to formulate future directions and recommendations for addressing the identified issue
5. Communicate findings and directions in a genre that is appropriate to the academic community and the specific emergency or disaster management context.

Assessment Tasks

1 Assessment One (1) - Burning Interest in Emergency and Disaster Management

Assessment Type

Written Assessment

Task Description

In assessment task one, you will select a topic (burning interest) and provide a summary that argues the importance of the topic to the emergency or disaster management context. To do so, you will draw on both peer-reviewed literature (for example, journal articles) plus at least one industry-based source (for example, a policy or procedure, strategy document, annual report or the like).

In your summary, you will introduce the topic, its link to the emergency or disaster management context and importantly, using the literature and industry documentation, argue why it is a pressing or important topic worth further exploration (addressed in a later task).

Please note: the topic you select will be unique to you and your specific area of interest in emergency and disaster management. The topic will be used for all assessment work, so please carefully consider your choice. You can pick any emergency or disaster management-related topic, which you consider is both important to the context you work (or volunteer) in and one that can be improved upon, that is, you can make recommendations for enhancement (addressed in a later task).

Assessment Criteria

The assessment criteria for this unit are in the form of a detailed rubric, which is available from the Moodle site. However, broadly you will be assessed on:

- Knowledge of contemporary emergency or disaster management related issues, with depth in a selected topic
- Application of knowledge and skills in relation to the selected topic
- Communication and presentation

2 Assessment Two (2) - Annotated Bibliography of Burning Interest

Assessment Type

Written Assessment

Task Description

In assessment task two, you will expand on your assessment task one summary and produce an annotated bibliography (for the topic you selected in assessment task one) and an overview of the steps you undertook in your literature search. As such, assessment task two consists of two parts.

Part 1) Annotated bibliography

In part 1), you will develop an annotated bibliography, which contains:

- Ten (10) sources.
- Seven (7) of the ten (10) sources MUST be peer-reviewed sources, and you must confirm their peer-reviewed nature in the title, see optional assessment template for an example.
- Each source must be related to your burning interest.
- Based on the ten (10) entries of the annotated bibliography, you are required to make a summary statement about possible future directions and/ or recommendations for addressing the burning interest (topic). This is a single summary statement of approx. 150-200 words.

Each annotated bibliography entry will be **150-200 words** (1500 - 2000 words total) and the summary statement will also be **150-200 words**. The combined total for Part 1) will be **1650 - 2200 words**.

Part 2) Library search strategy

In part 2) you will provide a detailed account of the search strategy you used to locate the sources for the annotated bibliography. Using the CQUniversity Australia seven (7) step process for searching databases as a framework (the process can be found in the 'Assessment Resources and Help' section of the PMSC13007 eReading and in the Moodle site under Assessment) you will provide a description of the steps taken. Part 2) is to be presented as a table showing the actions, results, refinements you made along the way and the rationale for these actions and refinements. A template has been provided in the Moodle site under Assessment.

There is no set word count on part 2) as it will depend upon your particular actions and refinements.

3 Assessment Three (3) - Bringing it all Together

Assessment Type

Presentation

Task Description

In assessment task three, you will bring the threads of assessment task one and assessment task two together in order to communicate findings and directions related to your chosen topic (burning interest). Assessment task three has both a written and audio component.

Part 1) Written component.

For Part 1) you have two (2) options to choose from. [Option 1](#) is a PowerPoint Presentation and [Option 2](#) is a Poster Presentation (like you see at conferences). Your PowerPoint Presentation or Poster Presentation must include the following five (5) components:

1. Brief description of the topic
2. Rationale for your choice of topic (why is this an important issue)
3. Summary statement about what the relevant literature says on the topic
4. Three possible future directions/ recommendation(s) for enhancement
5. How the proposed enhancement(s) are envisaged to improve practice/ an aspect of your work or volunteer context

Presentation guidelines for Option 1 PowerPoint Presentation

The PowerPoint presentation will have a maximum of 15 slides. The first slide should include the title of your presentation and your name. The last slide will be a reference list.

Presentation guidelines for Option 2 Poster Presentation

The poster should include the title of your poster and your name. The Poster Presentation template and examples of Poster Presentations have been provided in the Assessment section of the Moodle site. The template is a PowerPoint slide, specially set up for developing Poster Presentations, which you will save as a PDF. The PDF file is what you submit for grading. You must also submit a reference list. For the Poster Presentation option, the reference list will be a separate document (Word or PDF).

Part 2) Audio component

Part 2) is an expanded discussion of the topic and verbal presentation of the content from Part 1) Written component. The audio component is an MP3 file and can be submitted as a separate file, or for the PowerPoint Presentation option, you can embed the audio in your PowerPoint Presentation.

The audio presentation will be a maximum of 10 minutes in length.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
