

Profile information current as at 02/05/2024 04:25 pm

All details in this unit profile for PMSC13010 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit you will study the pathophysiology, presentation, and prehospital management of various medical / surgical conditions, learning how to discriminate between similar conditions and confounding presentations. Through case-based learning you will develop the critical thinking and clinical judgement skills to confidently reach diagnoses and determine the most appropriate clinical management in accordance with contemporary industry guidelines and protocols. A residential school consolidates knowledge with practice in high-fidelity simulation case management exercises.

Details

Career Level: Undergraduate Unit Level: Level 3 Credit Points: 6 Student Contribution Band: 8 Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Pre-requisites: PMSC12002 Clinical Paramedic Practice 1 MPAT12001 Medical Pathophysiology PMSC13003 Pharmacology in Paramedic Practice

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the <u>Assessment Policy and</u> <u>Procedure (Higher Education Coursework)</u>.

Offerings For Term 3 - 2018

Mixed Mode

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Residential Schools

This unit has a Compulsory Residential School for distance mode students and the details are: Click here to see your <u>Residential School Timetable</u>.

Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

Regional Campuses

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

<u>Metropolitan Campuses</u> Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

 Written Assessment Weighting: Pass/Fail
Online Quiz(zes) Weighting: Pass/Fail
Practical Assessment Weighting: Pass/Fail

Assessment Grading

This is a pass/fail (non-graded) unit. To pass the unit, you must pass all of the individual assessment tasks shown in the table above.

CQUniversity Policies

All University policies are available on the <u>CQUniversity Policy site</u>.

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the <u>CQUniversity Policy site</u>.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit Evaluation

Feedback

Appropriate lecture length

Recommendation

Students appreciated concise lectures and recommend lectures continue to be capped at 20 minutes.

Feedback from Unit Evaluation

Feedback

Clinical discussion sessions before scenario practice, at residential scool, assisted learning

Recommendation

Clinical discussion sessions held before practical scenario training were well received by students and should be continued.

Feedback from Unit Evaluation

Feedback

Lecture content evidence based and reflects current practice

Recommendation

As required, update content to reflect current best practice for contemporary Australian ambulance practice and emerging evidence.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

- 1. Take a systematic and responsive approach to clinical assessment and evaluation.
- 2. Evaluate clinical history and assessment data to differentiate between medical pathologies and reach accurate diagnoses.
- 3. Apply critical thinking in case management, justifying clinical decisions with evidence-based rationale.
- 4. Manage clinical cases with appropriate prioritisation of treatment in accordance with industry guidelines and protocols.

The unit increases students' capacity to perform on-road as independent clinicians with Australian ambulance services. This is in direct response to industry feedback (through both direct consultation with management and via clinical placement feedback forms) that students and graduates lack practical skills in clinical case management, noted as a disconnect between medical science studies and the contextual application of this knowledge in the clinical environment. Improving our students' ability to meet industry requirements will strengthen the Paramedic Course ability to meet accreditation requirements.

Schedule

Week 1 - 05 Nov 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Week 1 Cardiovascular Emergencies	Curtis & Ramsden (2015) Chapter 22: Cardiovascular Emergencies Jenkins & Tortora (2013) Chapter 19: The Cardiovascular System	Online lecture/tutorial
Week 2 - 12 Nov 2018		
Module/Topic	Chapter	Events and Submissions/Topic

Week 2 Respiratory Emergencies Part 1	Curtis & Ramsden (2015) Chapter 21: Respiratory Emergencies Jenkins & Tortora (2013) Chapter 22: The Respiratory System	Online lecture/tutorial
Week 3 - 19 Nov 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Week 3 Respiratory Emergencies Part 2	Curtis & Ramsden (2015) Chapter 21: Respiratory Emergencies Jenkins & Tortora (2013) Chapter 22: The Respiratory System	Online lecture/tutorial
Week 4 - 26 Nov 2018		
Module/Topic	Chapter	Events and Submissions/Topic
	Curtis & Ramsden (2015) Chapter 23: Neurological Emergencies	
Week 4 Neurological Emergencies Part 1	Jenkins & Tortora (2013) Chapter 13: The Central Nervous System	Online lecture/tutorial
Vacation Week - 03 Dec 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Mid-Term Break		
Week 5 - 10 Dec 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Week 5 Gastrointestinal and Genitourinary Emergencies Part 1	Curtis & Ramsden (2015) Chapter 24: Gastrointestinal Emergencies Chapter 25: Renal and Genitourinary Emergencies Jenkins & Tortora (2013) Chapter 23: The digestive System Chapter 24: The Urinary System	Online lecture/tutorial Written Assessment Due: Week 5 Friday (14 Dec 2018) 11:59 pm AEST
Week 6 - 17 Dec 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Week 6 Gastrointestinal and Genitourinary Emergencies Part 2	Curtis & Ramsden (2015) Chapter 24: Gastrointestinal Emergencies Chapter 25: Renal and Genitourinary Emergencies Jenkins & Tortora (2013) Chapter 23: The digestive System Chapter 24: The Urinary System	Online lecture/tutorial
Week 7 - 31 Dec 2018		
Module/Topic	Chapter	Events and Submissions/Topic
Week 7 Endocrine Emergencies	Curtis & Ramsden (2015) Chapter 26: Endocrine Emergencies	Online lecture/tutorial
	Jenkins & Tortora (2013) Chapter 17: The Endocrine System	
Week 8 - 07 Jan 2019		
Module/Topic	Chapter	Events and Submissions/Topic

Week 8 Immunological Emergencies	Curtis & Ramsden (2015) Chapter 27: Healthcare Associated Infections and Communicable Diseases Jenkins & Tortora (2013) Chapter 21: The Lymphatic System and Immunity	Online lecture/tutorial
Week 9 - 14 Jan 2019		
Module/Topic	Chapter	Events and Submissions/Topic
Week 9 Revision		
Week 10 - 21 Jan 2019		
Module/Topic	Chapter	Events and Submissions/Topic
Week 10 Revision		
Week 11 - 28 Jan 2019		
Module/Topic	Chapter	Events and Submissions/Topic
Week 11 Residential School (Cairns)		Residential School - 2/02/2019 - 5/02/2019
		Online Quiz(zes) Due: Week 11 Monday (28 Jan 2019) 8:00 am AEST
Week 12 - 04 Feb 2019		
Module/Topic	Chapter	Events and Submissions/Topic
		Residential School - 2/02/2019 - 5/02/2019
Week 12 Residential School (Cairns)		Practical Assessment Due: Week 12 Tuesday (5 Feb 2019) 11:45 pm AEST
Exam Week - 11 Feb 2019		
Module/Topic	Chapter	Events and Submissions/Topic

Term Specific Information

This unit has a compulsory residential school for all enrolled students. Residential School locations and dates are: Cairns - 2/02/2019 – 5/02/2019 You must nominate for a position at this residential school through MYCQU. Numbers at residential schools are capped and a position at your preferred residential school is not guaranteed. Further information regarding residential schools will be released closer to the date.

Assessment Tasks

1 Written Assessment

Assessment Type Written Assessment

Task Description

Objectives

In this assessment, you are required to describe and discuss the presentation and management of a case you have encountered whilst on a placement. You will then discuss the clinical presentation specific to the case and how it relates to contemporary pre-hospital care in Australia. Finally you will reflect upon the case and how it has influenced your approach to patient care and any lessons you have taken away from the experience. Your chosen case must reflect one of the conditions specifically covered in this unit.

Requirements

This assessment builds on the knowledge and experiences you have gained over your progress throughout the entire Paramedic Science course.

You will describe the methods by which you undertake a clinical examination and obtain an accurate medical history from a patient. You will then use this information to formulate a working diagnosis and initiate appropriate interventions. You will be required to research and define a medical condition encountered in the pre-hospital environment. With this knowledge you will gain an understanding of clinical management within the context of pre-hospital care as a component of an integrated healthcare continuum.

Finally you will reflect upon your own practice as a novice clinician to learn and grow from your experiences in preparation to transition from an undergraduate student to a graduate paramedic.

Assessment Due Date

Week 5 Friday (14 Dec 2018) 11:59 pm AEST

Students who have previously completed this unit and successfully passed this assessment can apply for a credit of this assessment task through the unit coordinator

Return Date to Students

Week 8 Monday (7 Jan 2019)

Results and feedback will be provided within two (2) academic calendar weeks of the due date.

Weighting

Pass/Fail

Minimum mark or grade

Pass Mark 75%

Assessment Criteria Submission

Please write your assessment using the following style and format, and then upload it into the PMSC13010 Moodle page using the Assessment 1 – Written Assessment link in the Assessment tab.

Presentation

The document should be formatted on A4 International Standard paper with margins of 2.54cm. Line spacing should be set to 1.5 and font size set to 12 point.

Only submissions in Microsoft Word format, .doc or .docx, will be accepted.

Format

Cover Page

A cover page must be included for this assessment, in the following format:

- Assessment number and name
- Unit number and name (PMSC13010 Consolidated Paramedic Practice)
- Your name
- Student number
- Word count
- Assessment due date (If you have an approved extension this needs to be noted here)

Case Description

In this section you will describe the case you have selected using the following format:

Called To: What specifically were you called to i.e. dispatch code and information given.

General Information: Crew mix (CCP, ACP, GPIP), Time of day.

On Arrival: What did you see on arrival at the scene? Initial scene appraisal. Where was the patient? What was their presenting posture? What was their initial appearance? Were there any family/bystanders?

Patient Complaining Of: What specifically was the patient complaining of?

Patient Narrative: What did the patient tell you? Why did they call the ambulance? Pertinent and non-pertinent history, symptoms they described, current medications, medical history, allergies. Anything else of importance or interest? On Examination: What did you find? Include observations (be specific, list the components of the Perfusion Status Assessment, Neurological Assessment, Respiratory Status Assessment, ECG etc), signs and symptoms you discovered. Include pertinent and non-pertinent signs, symptoms and observations, Head-to-Toes examination.

Provisional Diagnosis: What did you thinks was wrong with this patient and why? Link your provisional diagnosis to all the information you gathered from the above sections.

Differential Diagnosis: Was consideration given to any other potential conditions? Could it have been something else? Patient Management: What did you do for the patient? List all interventions performed, don't forget the basics like posture and reassurance. Outline why you performed these interventions and any effects they had on the patient, link to pathophysiology of the condition and mechanism of the intervention.

Clinical Presentation

In this section you will describe the medical condition discovered from the provisional diagnosis of your patient. You must include the following information:

Definition: Provide a working definition for the condition/disease process you have chosen.

Pathophysiology: What is going on in this condition? Start with the specific system involved then explore systematic effects.

Epidemiology: What is the profile of this condition in Australia? Who does it generally effect i.e. age, sex, race, socioeconomic status? What is the relevance to pre-hospital care?

Aetiology: Why does this condition occur? Risk factors i.e. genetics, lifestyle, diet etc?

Diagnosis: How is this condition diagnosed in-hospital? Did it reflect your provisional diagnosis? Can our diagnosis in the pre-hospital environment change/improve?

Treatment: What is the acute in-hospital management for this condition? Does it reflect your management? How does pre-hospital management impact this?

Reflection

In the final section, you should reflect upon you chosen case and lessons learnt from this experience.

What made you choose this specific case, what stood out for you? How did you feel about interacting with the patient? Were they co-operative? Were there any other factor that affected your assessment or interactions?

How confident were you in undertaking assessments and formulating a provisional diagnosis?

Did you undertake any of the interventions and/or management? If yes; how did you feel about it, were you successful? If no; why not? Was it a confidence issue? Was the patient time critical?

Has this case changed the way you approach similar presentations? Did the case presentation match you expectations from your prior knowledge of the condition?

Did you receive any feedback from your mentors? Did this feedback aid in your learning?

Students who have previously completed this unit and successfully passed this assessment can apply for a credit of this assessment task through the unit coordinator

Submission

Online

Submission Instructions

Please submit through the Unit Moodle page using the Assessment 1 - Written Assessment link in the Assessment tab.

Learning Outcomes Assessed

- Evaluate clinical history and assessment data to differentiate between medical pathologies and reach accurate diagnoses.
- Apply critical thinking in case management, justifying clinical decisions with evidence-based rationale.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Team Work
- Cross Cultural Competence
- Ethical practice

2 Online Quiz(zes)

Assessment Type

Online Quiz(zes)

Task Description

The online quiz will incorporate multiple choice questions, short and medium length answer responses and case studies to assess your theoretical knowledge of topics covered throughout the unit.

You maybe assessed on any topic covered in this unit, including review material.

Anatomy and pathophysiology of any disease process, incorporating presentation (signs and symptoms) and appropriate pre-hospital management maybe assessed.

The assessment aligns with the learning outcomes for this unit, as described in the Unit Profile.

Students are required to complete this assessment prior to attendance to residential school, no prior credit will be offered for this assessment task.

Number of Quizzes

Frequency of Quizzes

Other

Assessment Due Date

Week 11 Monday (28 Jan 2019) 8:00 am AEST Students are required to complete this assessment prior to attendance to residential school, no prior credit will be offered for this assessment task.

Return Date to Students

Week 11 Friday (1 Feb 2019) Students will have this assessment discussed at residential school

Weighting

Pass/Fail

Minimum mark or grade Pass Mark 75%

Assessment Criteria

This is a timed quiz with a pass mark of 75%.

One (1) additional attempt/resit will be offered if you are unable to achieve a pass mark on the first attempt.

You must complete the quiz in the allocated time. There will be no opportunity to save your answers and return to the quiz at a later time.

In the absence of an approved extension there will be no opportunity to complete this assessment after the due date.

Failure to achieve a pass mark on the additional attempt and/or non-submission will result in a fail for this assessment. No opportunity for a supplementary assessment will be offered.

Students are required to complete this assessment prior to attendance to residential school, no prior credit will be offered for this assessment task.

This quiz is an individual assessment task. You are not permitted to collaborate with other students whilst undertaking this assessment. Any attempt or evidence of collaboration will result in an Academic Misconduct investigation.

Submission

Online

Submission Instructions

You will be required to complete the quiz in the allocated time. There will be no opportunity to save your answers and return to the quiz at a later time.

Learning Outcomes Assessed

- Evaluate clinical history and assessment data to differentiate between medical pathologies and reach accurate diagnoses.
- Apply critical thinking in case management, justifying clinical decisions with evidence-based rationale.
- Manage clinical cases with appropriate prioritisation of treatment in accordance with industry guidelines and protocols.

Graduate Attributes

- Problem Solving
- Critical Thinking
- Information Literacy
- Information Technology Competence

3 Practical Assessment

Assessment Type

Practical Assessment

Task Description

For this assessment students will be required to attend a compulsory residential school.

There will be a total of three (3) assessment tasks throughout the compulsory residential school. These tasks are designed to test your theoretical knowledge in combination with your clinical assessment and patient management skills. All assessment tasks align with the learning outcomes for this unit, as described in the Unit Profile. The assessment tasks will be in the following formats: One (1) Viva Voce and two (2) Objective Structured Clinical Examinations (OSCE).

Viva Voce

The Viva Voce is a verbal or "interview style" assessment. You will have 20 minutes to answer a series of questions to demonstrate your knowledge and understanding of the material covered throughout the unit. You may be assessed on anatomy and pathopysiology of any disease process covered throughout the unit. You may also be asked to describe the pre-hospital presentation, including signs and symptoms, in combination with the appropriate pre-hospital management of any disease process described throughout the unit.

Objective Structured Clinical Examination (OSCE)

The two (2) OSCEs will take the format of a structured scenario where you will be allocated 20 minutes to complete each OSCE. The OSCE is designed to assess your knowledge and understanding of the material covered throughout the unit in a structured practical environment. Furthermore the OSCE will assess your ability to perform a thorough and accurate patient assessment and history, and use this information to to formulate a provisional diagnosis. In combination with your patient assessment and provisional diagnosis you will implement appropriate and timely interventions, procedures and/or skills. Your ability to communicate effectively and overall scene management will also be assessed. Finally you will be required to demonstrate your ability to give a patient handover to a senior clinician (i.e. CCP).

Assessment Due Date

Week 12 Tuesday (5 Feb 2019) 11:45 pm AEST During residential school. Please refer to timetable for residential school dates.

Return Date to Students

Week 12 Friday (8 Feb 2019) At completion of residential school and after moderation of all assessments by the unit coordinator.

Weighting

Pass/Fail

Minimum mark or grade

Pass Mark 75%

Assessment Criteria

You must achieve a pass mark on each individual assessment task to be awarded an overall pass for the residential school.

The pass mark for each individual assessment task is 75%.

The inability to achieve a pass mark for two (2) or more individual tasks will result in an automatic fail for this assessment.

One (1) additional attempt/resit will be offered if two (2) individual tasks have been completed successfully.

Failure to undertake and/or achieve a pass mark on the additional attempt/resit will result in a fail for this assessment.

Critical Errors

Critical errors in this unit will be classed as anything, by act or omission, that causes immediate harm or the potential to cause harm, to yourself, partner, patient or bystanders or any procedure that is performed outside your scope of practice. During any form of assessment, if any of the following are witnessed the assessment will immediately cease, and no marks will be given for that assessment. Furthermore, any critical error discovered on review or moderation will also result in no marks being given for that particular assessment:

- \cdot Unsafe defibrillation
- \cdot Incorrect joules delivered during defibrillation
- · Defibrillation of a non-shockable rhythm
- · Failure to recognise a cardiac arrest (>1minute)
- · Failure to shock a shockable rhythm in a timely manner (<2 minutes)
- · Failure to perform a complete drug check
- \cdot Incorrect sharps disposal or unsafe practice with a sharp
- · Performing a skill or procedure, or administering an incorrect drug/drug dosage outside your scope of practice
- · Any grossly unsafe practice, as determined by the assessing academic.

If you do not understand any of the above, please do not hesitate to clarify with your unit coordinator.

Learning Outcomes Assessed

- Take a systematic and responsive approach to clinical assessment and evaluation.
- Evaluate clinical history and assessment data to differentiate between medical pathologies and reach accurate diagnoses.
- Apply critical thinking in case management, justifying clinical decisions with evidence-based rationale.
- Manage clinical cases with appropriate prioritisation of treatment in accordance with industry guidelines and protocols.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Team Work
- Cross Cultural Competence
- Ethical practice

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the <u>Student Academic</u> <u>Integrity Policy and Procedure</u>. This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the <u>Academic Learning Centre (ALC)</u> can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
