Profile information current as at 07/09/2026 10:01 pm

All details in this unit profile for PMSC13016 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

In this unit, you will apply evidence-based knowledge of pathophysiology to identify and differentiate between a broad range of cardiovascular and respiratory conditions. You will learn to accurately interpret electrocardiographs (ECGs) and diagnose coronary conditions, including dysrhythmias and acute coronary syndromes. In addition, you will integrate knowledge of current evidence-based practice to articulate and undertake appropriate clinical assessments, skills and interventions in managing cardiovascular and respiratory conditions. In doing so, you will incorporate the principles of safe, professional, ethical and culturally safe practice as it relates to paramedicine.
