

PMSC20016 *Direct Threat Care*

Term 1 - 2019

Profile information current as at 22/05/2024 03:29 am

All details in this unit profile for PMSC20016 have been officially approved by CQUUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will introduce and familiarise you with the risks associated with conducting patient care in the direct threat environment. Wounding patterns such as blunt and penetrating trauma, blast injuries and ballistics will be discussed in depth. You will be introduced to the concepts of situational awareness and critical thinking as it applies to treatment priorities. Specialist equipment not available in mainstream pre-hospital medicine will be introduced to assist you with environment-specific treatment methodologies for major preventable causes of death. You will synthesise direct-threat related risks with treatment priorities to manage the tension between risk mitigation and favourable patient outcomes.

Details

Career Level: *Postgraduate*

Unit Level: *Level 8*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2019

- Online

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Case Study**

Weighting: 30%

2. **Written Assessment**

Weighting: 50%

3. **Online Quiz(zes)**

Weighting: 20%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Plan and prepare strategies for successful operation within the direct threat care environment
2. Integrate clinical knowledge to identify clinical treatment priorities, risk and challenges in the direct threat care environment
3. Articulate the concepts of risk analysis, team safety and operational control and deferment
4. Evaluate the use of specialist equipment and emerging technology in the direct threat care environment.

Textbooks and Resources

Textbooks

There are no required textbooks.

Additional Textbook Information

Students should already have an understanding of Emergency and Trauma Care. However, should students wish to have a reference for this course Emergency and Trauma Care 2e for Nurses and Paramedics, Kurtis and Ramsden is recommended. Other texts will be provided online through the CQUni library. Student will have online access to Ciotto's Disaster Medicine and the Journal of Special Operations (JSOM) **Tactical Paramedic Protocols** (ATP-P) Handbook.

IT Resources

You will need access to the following IT resources:

- CQUniversity Student Email
- Internet
- Unit Website (Moodle)

Referencing Style

All submissions for this unit must use the referencing style: [Harvard \(author-date\)](#)
For further information, see the Assessment Tasks.

Schedule

Week 1: Introduction and umbrella concepts - 11 Mar 2019

| Module/Topic | Chapter | Events and Submissions/Topic |
|---|---------|------------------------------|
| Introduction HX Tactical medicine. Umbrella concepts. Introduction to Damage control resuscitation and the lethal triad. Introduction to MARCHE. Introduction to PACE. | | |

Week 2: Haemorrhage control - 18 Mar 2019

| Module/Topic | Chapter | Events and Submissions/Topic |
|---|---------|------------------------------|
| HX of the tourniquets. Tourniquet application. Characteristics of haemostatic agents. Classification and structural composition of haemostatics. | | |

Week 3: Situational awareness - 25 Mar 2019

| Module/Topic | Chapter | Events and Submissions/Topic |
|--------------|---------|------------------------------|
|--------------|---------|------------------------------|

Physiological response to stress.
 Grossmans colour codes of fear and stress response.
 Cooper colour codes of awareness.
 OODA loop, decision-making cycles, habit loops.
 Tactical concepts.

Week 4: Situational response - 01 Apr 2019

| Module/Topic | Chapter | Events and Submissions/Topic |
|--|---------|------------------------------|
| Management of physiological stress. Training principles: Stress inoculation/graded stress immersion. Communication. Patient movement options. | | |

Week 5: Haematology - 08 Apr 2019

| Module/Topic | Chapter | Events and Submissions/Topic |
|--------------------|---------|--|
| Basic Haematology. | | Terror attack: Case study briefing Due: Week 5 Monday (8 Apr 2019) 11:45 pm AEST |

Vacation Week - 15 Apr 2019

| Module/Topic | Chapter | Events and Submissions/Topic |
|--------------|---------|------------------------------|
|--------------|---------|------------------------------|

Week 6: Community response programs - 22 Apr 2019

| Module/Topic | Chapter | Events and Submissions/Topic |
|---|---------|------------------------------|
| The Hartford Consensus. Hot zone care. C-TECC/TCCC guidelines review. | | |

Week 7: Less lethal weapon injuries - 29 Apr 2019

| Module/Topic | Chapter | Events and Submissions/Topic |
|--|---------|------------------------------|
| Methods of deployment. Chemical munitions. Electrical conductive weapons. Impact weapons. | | |

Week 8: Wounding patterns 1 - 06 May 2019

| Module/Topic | Chapter | Events and Submissions/Topic |
|--|---------|------------------------------|
| Kinematics of trauma. Mechanism of Injury. Edged weapons low-velocity weapons. | | |

Week 9: Wounding patterns 2 - 13 May 2019

| Module/Topic | Chapter | Events and Submissions/Topic |
|---|---------|--|
| Ballistics. Mechanism of propulsion. Projectile speed classification. Physics. BABT (Behind Armour Blunt Trauma). | | Written assessment Due: Week 9 Monday (13 May 2019) 11:45 pm AEST |

Week 10: Wounding patterns 3 - 20 May 2019

| Module/Topic | Chapter | Events and Submissions/Topic |
|--|---------|------------------------------|
| Blast injury mechanism. Pathophysiology of blast injuries. Explosive devices and deployment. Improvised explosive devices. Explosively formed projectiles. | | |

Week 11: Contemporary attack and response models - 27 May 2019

| Module/Topic | Chapter | Events and Submissions/Topic |
|--------------|---------|------------------------------|
|--------------|---------|------------------------------|

Attack modalities.
Response paradigms.

Week 12: Review - 03 Jun 2019

| Module/Topic | Chapter | Events and Submissions/Topic |
|---|---------|--|
| Review C-TECC DTC. Review evidence of wounding patterns in civilian high threat incidents vs military wounding patterns. | | Online quiz Due: Week 12 Friday (7 June 2019) 11:00 pm AEST |

Review/Exam Week - 10 Jun 2019

| Module/Topic | Chapter | Events and Submissions/Topic |
|--------------|---------|------------------------------|
|--------------|---------|------------------------------|

Exam Week - 17 Jun 2019

| Module/Topic | Chapter | Events and Submissions/Topic |
|--------------|---------|------------------------------|
|--------------|---------|------------------------------|

Assessment Tasks

1 Terror attack: Case study briefing

Assessment Type

Case Study

Task Description

In this assessment, you will be given a briefing based on a recent terror attack. You will create a team briefing based on the known modality of the attack. Use a briefing model that addresses the following points.

- Detailed background and description of the incident.
- What your specific tasks will be in your capacity as a tactical medic while the attack is in progress.
- A detailed description of how the task will be executed.
- What you will need to perform your tasks and how you will mitigate the risks posed to yourself and your team members.
- How will you facilitate communication on the macro and micro level?

You are required to consider the specifics of the terror attack to inform your team briefing. Each point within your briefing must be substantiated by the critical elements specific to the case briefing and you must discuss your rationale for each briefing point you present. It should be presented in an essay format.

Assessment Due Date

Week 5 Monday (8 Apr 2019) 11:45 pm AEST

Return Date to Students

Week 7 Monday (29 Apr 2019)

Weighting

30%

Minimum mark or grade

50%

Assessment Criteria

There is a minimum word count of 1500 words with a maximum 10% deviation excluding references for this assessment. Your case study briefing must be clear and concise. The case study briefing will be assessed in accordance with the information and rubric provided on the units Moodle page.

This case study briefing is worth 30% of your overall unit mark.

2 Written assessment

Assessment Type

Written Assessment

Task Description

In this assessment, you will consider the Australian posture related to the survivability of victims of a mass casualty event and using a strengths, weaknesses, opportunities and threats (SWOT) analysis, present your findings in the form of an essay. You may choose to limit your discussion to a single Australian organisation such as a state fire service, state ambulance service or a state police service. You may also discuss any broader federal or citizen initiatives.

Your essay must include the following information:

- Description of the service, organisation or campaign.
- SWOT analysis of the service, organisation or campaign.
- How treatment for the preventable causes of death is being addressed by the service, organisation or campaign.
- recommendations to address the needs or gaps identified within the service, organisation or campaign.

Assessment Due Date

Week 9 Monday (13 May 2019) 11:45 pm AEST

Return Date to Students

3 Online quiz

Assessment Type

Online Quiz(zes)

Task Description

You will complete an online quiz. Your quiz will consist of multiple choice questions exploring the content included in the unit such as lecture materials, required readings, podcasts and links. Multiple choice questions will be based upon information provided in this unit from weeks 1 – 12.

You will be required to complete this online quiz by the end of Week 12, this quiz will become available in Week 11 and will have a specific time limit imposed to complete the quiz.

The quiz will test your ability to identify the concepts and theoretical underpinnings related to wounding profiles, situational awareness, situational response, planning, communicating, managing the effects of physiological stress and the foundational concepts of tactical medicine. You will be required to contextualise the information in the learning materials specific to the direct threat care environment in order to answer the questions.

Assessment Due Date

Week 12 Friday (7 June 2019) 11:00 pm AEST

Return Date to Students

Review/Exam Week Friday (14 June 2019)

Weighting

20%

Minimum mark or grade

50%

Assessment Criteria

The quiz is worth 20% of the overall mark for this unit. Marks are awarded if the multiple-choice question is answered correctly and the total marks will be tallied once the quiz has been attempted.

The quiz is open-book, so the use of C-TECC and CoTCCC guidelines as well as related book chapters and journal articles are allowed. Please take note that this is an individual assessment with no collaboration allowed.

There is an automated time limit to complete the quiz.

In the absence of an approved extension, there will be no opportunity to complete the task after the due date. There will be no opportunity to apply a late penalty of five percent per day.

Non-attempts will score a zero mark. Once complete, the quiz may not be re-attempted.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
