# PODI13012 *Paediatrics in Podiatry Practice*

## Term 2 - 2024

Profile information current as at 16/05/2024 10:58 am

All details in this unit profile for PODI13012 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

This unit will focus on childhood development, with specific focus on paediatric disorders related to the lower extremity. Students will develop history taking and physical examination skills specific to the paediatric podiatry patient. Students will also be exposed to psycho-social issues affecting children, which may affect the management of paediatric lower limb conditions. An evidence-based approach to clinical management of the paediatric patient in podiatry practice will be central to this unit.

### Assessment Overview

#### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Student feedback

**Feedback**

Assessment requirements and the scaffolding against relevant learning outcomes should be clearly articulated.

**Recommendation**

It is recommended that the unit coordinator clearly articulates assessment requirements to ensure that students understand how their performance will be determined and how individual assessment items scaffold upon one another throughout the term.

#### Feedback from Staff feedback

**Feedback**

Consideration should be made to maximise exposure to clinical clientele to implement learnt unit material.

**Recommendation**

It is recommended that opportunities for practical application of skills be considered in the unit design.

## Unit Learning Outcomes

**On successful completion of this unit, you will be able to:**

1. Describe the developmental milestones of a child relevant to podiatry practice
2. Demonstrate effective communication skills with paediatric patients and their parents/ guardians, taking into consideration possible underlying psycho-social and medical issues.
3. Identify lower limb conditions seen clinically in paediatric patients, select relevant diagnostic assessments and Implement safe, effective and evidence-based management plans.
4. Discuss the role of inter-professional practice within the paediatric healthcare system
