PODI13012 Paediatrics in Podiatry Practice

Term 2 - 2024

Profile information current as at 01/05/2024 01:11 pm

All details in this unit profile for PODI13012 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will focus on childhood development, with specific focus on paediatric disorders related to the lower extremity. Students will develop history taking and physical examination skills specific to the paediatric podiatry patient. Students will also be exposed to psycho-social issues affecting children, which may affect the management of paediatric lower limb conditions. An evidence-based approach to clinical management of the paediatric patient in podiatry practice will be central to this unit.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback

Feedback

Assessment requirements and the scaffolding against relevant learning outcomes should be clearly articulated.

Recommendation

It is recommended that the unit coordinator clearly articulates assessment requirements to ensure that students understand how their performance will be determined and how individual assessment items scaffold upon one another throughout the term.

Feedback from Staff feedback

Feedback

Consideration should be made to maximise exposure to clinical clientele to implement learnt unit material.

Recommendation

It is recommended that opportunities for practical application of skills be considered in the unit design.
