General Information

Overview

This unit focuses on all aspects of diabetes as a chronic disease including the epidemiology, diagnosis, complications, and related management of diabetes. Students will define primary health care goals and recognise the barriers to diabetes care across specific population groups. Further, this unit will explore the principles of shared decision-making incorporating best available evidence in diabetes education and advanced clinical practice.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from SUTE comments

Feedback

The requirements for the oral presentation and written assessments could be more clear

Recommendation

It is recommended that the unit coordinator schedules additional time to explain the assessment requirements for the oral presentation and written assessment in this unit.

Feedback from SUTE comments

Feedback

The sessional lecturer explained complex processes in a manner which was easy to understand, without compromising the quality of information

Recommendation

It is recommended that high-quality sessional educators continue to be involved in the delivery of this unit, when required.
