

PODI14012 Podiatry Clinical Practice 5

Term 2 - 2022

Profile information current as at 18/04/2024 02:36 am

All details in this unit profile for PODI14012 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This 12-credit point unit encompasses a clinical component (internal and external) and a research component. During clinic, you are required to demonstrate graduate competency in patient assessment, diagnostic decision-making, prevention, treatment and management of a wide range of podiatric patient presentations. You will also treat patients with conditions requiring minor surgical procedures. In addition, you shall also refine your skills in managing podiatric patients of differing ages, ethnic/cultural backgrounds, geographic locations, socioeconomic status and health profiles. This is the third and final unit in the formal requirements for completion of your honours research project. You are required to complete and submit your research project for evaluation. You are expected to present your research findings, during your presentation you are encouraged to consider both the strengths and limitations of your research.

- Sydney

Attendance Requirements

All on-campus students are expected to attend scheduled classes - in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 12-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 25 hours of study per week, making a total of 300 hours for the unit.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from informal feedback

Feedback

The students appreciated the support provided to them. The research supervisors went above and beyond their duties to prepare students to complete their research projects.

Recommendation

It is recommended that students continue to be encouraged to produce quality research that can be showcased at conferences or result in publications.

Feedback from External clinical supervisor via email

Feedback

External clinical supervisors were impressed with the quality of our students and would definitely consider recruiting them when they graduate.

Recommendation

It is recommended that the clinical co-ordinator continue to engage external clinical supervisors for feedback. This feedback will also be provided back to the students.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Demonstrate effective skills in the assessment and management of complex podiatric patient presentations including biomechanical, sport injuries, diabetes, rheumatology and high risk cases
2. Demonstrate competency at a graduate standard of practice in clinical reasoning, execution of techniques and objective assessments, and delivery of programs to manage specific clinical problems
3. Refine skills in analysing and improving ongoing clinical practice
4. Demonstrate the ability to work effectively as an individual and as a member of a team
5. Effectively communicate an advanced understanding of the specified research topic including a critical analysis and interpretation of the research topic.

The Learning Outcomes are linked to the Podiatry Board of Australia (AHPRA) Professional Capabilities for Podiatrists. <https://www.podiatryboard.gov.au/News/2021-09-01-new-professional-capabilities.aspx>

4 Professional Practice Placement (pass/fail)

Assessment Type

Professional Practice Placement

Task Description

Internal clinical placement

You will complete an internal professional placement at the CQUniversity Health Clinic, where you will provide a range of podiatric care to patients. The internal clinical placement will occur in Weeks 2-4.

Internal Clinical Placement will be Monday to Friday from 8:00 am to 5:00 pm.

You will be required to complete Part A, Part B (Mid term and End of Term clinical assessment) and C (Reflective Practice) of the Podiatry Practical Skills Logbook. Your completed logbook needs to be uploaded on by the 5th August 2022, 5 pm via Moodle.

External clinical placement

The target dates for External Clinical Placement are the 22nd August - 23rd September 2022, inclusive (weeks 6 to 10).

The placements occur Mondays to Friday 8:00 am to 5:00 pm.

Please note that these dates are subject to change. In addition, external placement dates and location are dependent on the site's availability therefore placement dates may vary slightly for each student. Details of individual placement locations and dates will be provided to you during the term. External clinical placement may be located either in a metropolitan area or in a rural or remote area. Please note that you may need to travel at your own expense for your external placement.

You will be required to complete and submit your External Clinical Documentation by the 30th September, 2022 5 pm, via SONIA.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
