PPMP20009 *Leading Lean Projects*

Term 2 - 2022

Profile information current as at 18/05/2022 05:57 am

All details in this unit profile for PPMP20009 have been officially approved by CQU University and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

Leading Lean Projects will develop your hard and soft skills in project management methodologies and core principles of the lean approach in project management. You will discover the evolving nature of lean principles and explore how project management concepts can be embedded in a continuous improvement initiative. You will learn about leadership competencies that are crucial for delivering successful projects. You will be presented with case studies that highlight the methodologies and lean principles and how they can affect project outputs and outcomes. You will familiarise yourself with the use of common management control systems to illustrate how to successfully lead and deliver lean transformations for projects.

Assessment Overview

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student evaluation (SUTE)

Feedback

Tutorials need to be at least an hour and a half or 2 hours, it is too short if it's an hour as the tutor has to rush off to the next class.

Recommendation

As teaching migrated to online from week 3 in Term 1, 2020 tutorial durations were retained as 1 hour. However, the improved tutorial structure and tutor guidance and the use of ZOOM breakout rooms are believed to have improved the effectiveness of the learning experience.

Feedback from Student evaluation (SUTE)

Feedback

The content covered throughout the unit is well structured, organised and full of additional resources. All the resources including the additional readings and the recorded lectures are very useful.

Recommendation

Keep the extra resources provided to the students and update these resources every term.

Feedback from Students evaluation

Feedback

Moodle site is easy to navigate and well organised.

Recommendation

Maintain the easy access of the Moodle site and enrich the moodle site with extra supporting resources

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Review lean transformation framework by explaining lean approaches, project lifecycle and change management
2. Compare and contrast project management methodologies
3. Examine leadership competencies for successful delivery of projects
4. Determine management control systems for lean process capabilities
5. Explain the processes and techniques to acquire, develop and manage project teams.

This unit will satisfy one of the requirements for Australia Computer Society (ACS) accreditation in the postgraduate ICT courses.

The unit might also contribute to the required number of academic study units for students wishing to undertake profession certification with the Project Management Institute's (PMI) professional qualifications, such as CAPM or PMP.

The ACS recognises the Skills Framework for the Information Age (SFIA). SFIA is in use in over 100 countries and provides a widely used and consistent definition of ICT skills. SFIA is increasingly being used when developing job descriptions and role profiles. ACS members can use the tool MySFIA to build a skills profile at

<https://www.acs.org.au/professionalrecognition/mysfia-b2c.html>

This unit contributes to the following workplace skills codes as defined by SFIA:

- Business Analysis (BUAN),
- Project Management (PRMG),
- Stakeholder Relationship Management (RLMT),
- Systems Integration (SINT),
- Change Management (CHMG),
- Release and Deployment (RELM),
- IT Operations (ITOP),
- Problem Management (PBMG).
