

# PPMP20009 *Leading Lean Projects*

## Term 2 - 2023

Profile information current as at 25/04/2024 09:46 am

All details in this unit profile for PPMP20009 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

## General Information

### Overview

Leading Lean Projects will develop your hard and soft skills in project management methodologies and core principles of the lean approach in project management. You will discover the evolving nature of lean principles and explore how project management concepts can be embedded in a continuous improvement initiative. You will learn about leadership competencies that are crucial for delivering successful projects. You will be presented with case studies that highlight the methodologies and lean principles and how they can affect project outputs and outcomes. You will familiarise yourself with the use of common management control systems to illustrate how to successfully lead and deliver lean transformations for projects.

### Details

Career Level: *Postgraduate*

Unit Level: *Level 9*

Credit Points: 6

Student Contribution Band: 10

Fraction of Full-Time Student Load: 0.125

### Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

### Offerings For Term 2 - 2023

- Brisbane
- Melbourne
- Online
- Sydney

### Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

### Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

## Class and Assessment Overview

### Recommended Student Time Commitment

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

### Class Timetable

#### [Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

#### [Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

### Assessment Overview

#### 1. **Written Assessment**

Weighting: 40%

#### 2. **Written Assessment**

Weighting: 40%

#### 3. **Online Quiz(zes)**

Weighting: 20%

### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

## CQUniversity Policies

**All University policies are available on the [CQUniversity Policy site](#).**

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Unit Evaluation - Student responses

**Feedback**

Students found the unit engaging and well structured, with the right balance of individual and group work.

**Recommendation**

Continue to ensure that the unit is structured to support optimum student experience.

#### Feedback from Unit Evaluation - Student responses

**Feedback**

Teaching staff demonstrated commitment to providing an enriching and supportive environment for students.

**Recommendation**

Continue to encourage a learning environment that is engaging and supportive.

#### Feedback from Unit Evaluation - Student responses

**Feedback**

Some students noted that they found the first assessment difficult. This assessment requires students to observe a process in a workplace.

**Recommendation**

Students are informed that if they are not currently working they can approach any organisation to complete the first assessment. They are also encouraged to use this as an opportunity to engage with organisations within the industry they would like to work. This advice will continue to be provided to students and tutors will continue to emphasize this in their classes.

## Unit Learning Outcomes

**On successful completion of this unit, you will be able to:**

1. Review lean transformation framework by explaining lean approaches, project lifecycle and change management
2. Compare and contrast project management methodologies
3. Examine leadership competencies for successful delivery of projects
4. Determine management control systems for lean process capabilities
5. Explain the processes and techniques to acquire, develop and manage project teams.

This unit will satisfy one of the requirements for Australia Computer Society (ACS) accreditation in the postgraduate ICT courses.

The unit might also contribute to the required number of academic study units for students wishing to undertake profession certification with the Project Management Institute's (PMI) professional qualifications, such as CAPM or PMP.

The ACS recognises the Skills Framework for the Information Age (SFIA). SFIA is in use in over 100 countries and provides a widely used and consistent definition of ICT skills. SFIA is increasingly being used when developing job descriptions and role profiles. ACS members can use the tool MySFIA to build a skills profile at

<https://www.acs.org.au/professionalrecognition/mysfia-b2c.html>

This unit contributes to the following workplace skills codes as defined by SFIA:

- Business Analysis (BUAN),
- Project Management (PRMG),
- Stakeholder Relationship Management (RLMT),
- Systems Integration (SINT),
- Change Management (CHMG),
- Release and Deployment (RELM),
- IT Operations (ITOP),
- Problem Management (PBMG).

## Assessment Tasks

### 1 Assessment 1 - Case Study

#### Assessment Type

Written Assessment

#### Task Description

This assessment is to be completed and submitted **INDIVIDUALLY** and equates to 40% of your overall grade.

**Due:** Monday of the **Week 5**

You will complete a Gemba Walk at your workplace. During the *Gemba Walk*, you will look to identify an opportunity for Lean Transformation in that environment, specifically by identifying a Lean Waste within a specific process within your organisation.

You will then create a case study (maximum four pages) using the knowledge you obtain from performing a *Gemba Walk* within your workplace that address the criteria noted below. The case study will be shared with others. Therefore, you will need to ensure that what is provided is appropriate and can be shared. Discuss with your tutor early if you believe you cannot produce a case study relating to your current workplace, for example, if you are not currently working.

#### Assessment Due Date

Week 5 Monday (7 Aug 2023) 8:00 am AEST

#### Return Date to Students

As per CQU Assessment Policy and Procedure (Higher Education Coursework)

#### Weighting

40%

#### Assessment Criteria

Your work will be assessed based on the quality, level of professionalism, thoroughness, consistency and proper application of tools/techniques thought in the unit. The allocated marks are as below:

**The Case Study** (Monday Week 5)

The criteria are to be read with the additional information provided on the Moodle site, for example, the Moodle site outlines in more specific detail what is to be included to address each criteria.

1. An overview of the organisation (1.5 marks)
2. Pre-Gemba Walk Management Meeting (3 marks)
3. An explanation of the process you will be observing during your Gemba Walk (3.5 marks)
4. A description of how you completed the Gemba Walk. (2 marks)
5. Tools and Photos (4 marks)
6. A description of the insights you gained during the Gemba Walk, including the specific 'Lean Waste' identified'. (6 marks)
7. A description of the lean transformation project you propose to reduce or remove the lean waste identified. (6 marks)
8. A discussion and justification of whether the lean transformation project should be managed with an Agile or Waterfall project management approach. (2 marks)
9. A description of how you would manage the change necessary to implement the outputs of the Lean Transformation Project using the ADKAR change management model. (10 marks)
10. The case study is professionally presented, including correct spelling and grammar, is a maximum of four pages, and is reflective of examples provided in that it is visually appealing and concise. (2 marks)

Please check the unit Moodle page for further details.

- Cognitive, technical and creative skills
- Research

## 2 Assessment 2 - Leadership competencies and management control systems for lean process capabilities

### Assessment Type

Written Assessment

### Task Description

#### Group submission (40 marks)

*Due Friday, Week 11*

Students will form into groups of four members to perform this assignment. Groups will be formed in the week 5 tutorial and will complete assessment questions in tutorials 6 and 7, therefore it is mandatory that you are present during these tutorials. Those who are not present during week 5 will be placed into groups by the tutor, it will be up to these students to make contact with their groups. You need to attend the tutorials to ensure that you are placed into a group and to work on tasks related to the assessment with your group members during the tutorials. Students who do not attend tutorials with relevant assessment tasks may miss out on the marks associated with that task in the assessment. As a group you will discuss the case studies the group members have each prepared. You will then decide on which case study your group will continue to work on using project prioritisation.

As a group you will apply relevant unit theory including Lean leadership and quality control to the case study you have prioritised and to your own experience of groupwork during the completion of the assessment. You will also use an Agile Tool to manage your group work to complete the assessment. You will be provided with a template to capture your process, responses and reflections. You must demonstrate critical reflection in linking relevant theory to the case study and your practical application of the Agile tool or technique whilst completing the assessment.

As the assessment contains both practical and theoretical elements it is important that you attend the tutorials to ensure that you understand assessment requirements to be able to demonstrate the concepts being assessed.

**Assessment Due Date**

Week 11 Friday (29 Sept 2023) 11:59 pm AEST

Only one member of the group is to submit the assessment file.

**Return Date to Students**

As per CQU Assessment Policy and Procedure (Higher Education Coursework)

**Weighting**

40%

**Assessment Criteria**

Your work will be assessed based on the quality, level of professionalism, thoroughness, consistency and proper application of tools/techniques thought in the unit.

The allocated marks are as below:

	Assessment Criteria	Marks Possible
1	Project Prioritisation Weighted Matrix and discussion	6
2	MS Teams Group Channel and Kanban Board	6
3	Photos of Kanban board	3
4	Lean Leadership Principles - Application to case study	5
5a	Current State Value Stream Map	2
5b	Future State Value Stream Map	2
5c	Explanation of how the lean transformation would enable the shift from the current state to the future state value stream map.	2
6	Quality Control Tools for Lean	4
7	Reflective Practice Reflection on leadership and your groupwork experience during this unit.	10

## 3 Assessment 3 - Online Quiz

### Assessment Type

Online Quiz(zes)

### Task Description

This assessment item involves an online quiz.

You will be required to answer a set of questions related to all the learning outcomes of this unit. The quiz will be based on the knowledge gained throughout the term. For you to complete the quiz, it is necessary for you to complete all learning activities prescribed in this unit.

- Only **one** attempt is allowed.
- The quiz is an open-book test.
- The quiz must be completed within the given timeframe.
- The quiz will be available for 48 hours on the Moodle website.
- There will be 40 questions (a combination of multiple-choice and true/false questions).
- There will be a time limit of 60 minutes to complete the quiz. Your quiz will automatically be submitted after 60 minutes.
- The quiz covers the content from week 1 to 12 (lectures, tutorials, readings, etc.).
- Questions will be drawn from a pool of 450 questions. When you attempt the quiz, 40 questions will be randomly selected and displayed. It is very unlikely that two students will see the same questions.
- You can attempt the quiz at any location, provided you have access to Moodle website.
- It is your responsibility to use a reliable internet connection to attempt the quiz.

## Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

### What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

### Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

### Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

### What can you do to act with integrity?

#### Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

#### Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

#### Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
