General Information

Overview

Leading Lean Projects will develop your hard and soft skills in project management methodologies and core principles of the lean approach in project management. You will discover the evolving nature of lean principles and explore how project management concepts can be embedded in a continuous improvement initiative. You will learn about leadership competencies that are crucial for delivering successful projects. You will be presented with case studies that highlight the methodologies and lean principles and how they can affect project outputs and outcomes. You will familiarise yourself with the use of common management control systems to illustrate how to successfully lead and deliver lean transformations for projects.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Unit Evaluation - Student responses

Feedback

Students found the unit engaging and well structured, with the right balance of individual and group work.

Recommendation

Continue to ensure that the unit is structured to support optimum student experience.

Feedback from Unit Evaluation - Student responses

Feedback

Teaching staff demonstrated commitment to providing an enriching and supportive environment for students.

Recommendation

Continue to encourage a learning environment that is engaging and supportive.

Feedback from Unit Evaluation - Student responses

Feedback

Some students noted that they found the first assessment difficult. This assessment requires students to observe a process in a workplace.

Recommendation

Students are informed that if they are not currently working they can approach any organisation to complete the first assessment. They are also encouraged to use this as an opportunity to engage with organisations within the industry they would like to work. This advice will continue to be provided to students and tutors will continue to emphasize this in their classes.
