

PPMP20010 Executing and Closing Projects

Term 1 - 2017

Profile information current as at 10/04/2024 02:29 am

All details in this unit profile for PPMP20010 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit is designed for project managers to develop their skills in the executing and closing stages of the project life cycle. The unit considers several different definitions of what is required when executing a project from the perspective of different standards, frameworks and academic works. Additionally, the unit investigates projects according to industry, project domain, and other factors that influence approaches to project execution and closing. The content of inputs and outputs required and the tools and techniques applied are studied throughout the unit. A highlight of the unit is the practical application of project monitoring, earned value analysis, as well as control systems, and the management of control issues, such as, scope creep, risk, quality and baseline changes. The unit also investigates project outsourcing, oversight, and contract closure. This unit will be of interest to students that have a requirement to know more about project control, project auditing, management of external suppliers, and project termination.

Details

Career Level: *Postgraduate*

Unit Level: *Level 8*

Credit Points: 6

Student Contribution Band: 10

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

There are no requisites for this unit.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2017

- Brisbane
- Distance
- Mackay
- Melbourne
- Perth
- Sydney

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Postgraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

5. **Practical Assessment**

Weighting: 20%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Moodle, phone

Feedback

Assignments due on Friday's every fortnight is inconvenient for FLEX students that are employed full-time

Recommendation

Due dates moved to Sunday 11:59pm from Friday 5pm.

Action

As recommended. Due dates Sunday 11:55pm.

Feedback from Moodle, face-to-face

Feedback

Some students do not contribute as much as others on group assignments

Recommendation

Tighter control and monitoring of students engaged in group assignments to identify issues earlier on

Action

Tutors employed tighter control over student group assignments and monitored student engagement.

Feedback from Melbourne student feedback noted in Moodle

Feedback

Moodle Feedback "The lecturer is a good speaker who can speak perfect English. He engages me to learn never find his class boring. That's why I never miss his class since the beginning of the term. He has the right attitude in teaching and is well-prepared. He knows what he should teach to make us learn in this course. He is willing to share his personal experience in Project Management field and give as many examples as possible in the class to make us understand. He shows enthusiasm in teaching. He interacts with us. He shows concern to his students on campus. He treats everyone equally. He is a good listener and will talk to us personally if we face any issues in group work. He guides us in doing assignments by giving a clear explanation on every assignment we should do"

Recommendation

Noted.

Action

Noted.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Describe and discuss framework differences with the project management life cycle for executing and closing projects.
2. Explain how organisational strategies might impact upon business case verification when the execution of projects is undertaken.
3. Critically analyse how control systems are used within the project management domain.
4. Develop earned value management project reports for supplied case studies.
5. Develop project event-driven and time-driven controls for supplied case studies.
6. Develop project audit reports and project termination reports for supplied case studies.
7. Develop project governance approaches for supplied case studies.

This unit will satisfy one of the requirements for Australia Computer Society (ACS) accreditation in the postgraduate ICT course s.

The unit also contributes to the required number of academic study units for students wishing to undertake profession certification with the Project Management Institute's (PMI) professional qualifications, such as CAPM or PMP.

The ACS recognises the Skills Framework for the Information Age (SFIA). SFIA is in use in over 100 countries and provides a widely used and consistent definition of ICT skills. SFIA is increasingly being used when developing job descriptions and role profiles. ACS members can use the tool MySFIA to build a skills profile at

<https://www.acs.org.au/professionalrecognition/mysfia-b2c.html>

This unit contributes to the following workplace skills codes as defined by SFIA:

- Business Analysis (BUAN),
- Project Management (PRMG),
- Stakeholder Relationship Management (RLMT),
- Systems Integration (SINT),
- Change Management (CHMG),
- Release and Deployment (RELM),
- IT Operations (ITOP),
- Problem Management (PBMG).

Assessment Tasks

1 Presentation with Accompanying Script

Assessment Type

Presentation and Written Assessment

Task Description

Assignment Overview

This assessment item requires you to consider:-

- Project management life cycles,
- Business cases,
- Project execution,
- Project closing, and
- Control systems.

You must describe each of the above in the context of the theories and principles of project management as espoused by researchers and experts in the field.

You must further, critically analyse project contractual arrangements for a range of project domains:-

- Engineering and construction domain,
- Telecommunications, IT and software development domain,
- Financial and business services domain,
- Government and welfare domain.

Then explain in what way they impact on the processes for the execution and closing of projects within those domains. You must submit a Microsoft PowerPoint presentation and then make a presentation to your peers that discusses and explains your insights to the above (flex students will answer questions over the phone).

You must also submit a written set of presentation notes or script that matches your presentation. The notes can be either part of your PowerPoint presentation or written and submitted separately in Microsoft Word.

You are encouraged to use assignment output and ideas that you may have developed from previous assignments within this unit as supporting evidence for your presentation.

Task

Your task is to consider the three learning outcomes (L1, L2 and L3) in the context of this unit. You must then make a presentation of 10 minutes in length that summarises the learning outcomes below and how they relate to the spectrum of the major project domains discussed during the unit (flex students will answer questions over the phone).

Once your 10 minute presentation has been made you must be prepared to answer questions from unit participants and the respective teacher.

You will be graded based on how well you have made your presentation and described, discussed, explained and critically analysed project management theories and principles according to these assignment instructions.

Purpose

The primary purpose of this assessment item is to help you to develop and demonstrate your skills in the use of project management concepts, principles, theories and arguments about project management execution and closing. You are particularly required to demonstrate your ability to differentiate aspects of the life cycle as it relates to different projects. You must then be able to analyse and argue what type of control systems will enable better or worse project outcomes within those domains.

The secondary purpose of this assignment is to give you the opportunity to enhance your analysis, critical thinking and written communication skills; particularly in the areas of argument development and oral presentation.

Structure

Your presentation should be a properly constructed academic presentation. It should contain an effective introduction, body, and conclusion. The introduction should introduce the presentation and include your major arguments. The body should present the evidence you have collected to support your arguments, and the conclusion should restate your arguments, summarise the evidence and make a conclusion regarding your arguments.

The presentation should contain a coherent, but necessarily restricted review of the academic literature on the project management topics in question. Your literature review should be integrated into the presentation, not a separate section. Do not include an executive summary or an abstract. A reference list formatted in the prescribed Harvard style is compulsory. Do not include a bibliography.

This assessment item involves researching your assigned topic to enhance your understanding of project management concepts and utilisation of academic literature. Whilst you should use the recommended textbooks you may also refer to relevant peer reviewed academic journal articles.

You will be expected to present information and evidence from, and cite, at least twenty (20) times from the text book material from the unit. You are also encouraged to cite other material that is peer reviewed.

Assessment Due Date

Week 12 Friday (2 June 2017) 5:00 pm AEST

Presentation and accompanying script to be submitted online - Note: face to face presentations will be scheduled during

Week 12 (flex students over the phone)

Return Date to Students

Exam Week Friday (16 June 2017)

Weighting

20%

Assessment Criteria

Your presentation will be assessed on the extent and quality to which it meets each of the following criteria.

- A description and discussion of differing perspectives of project management life cycles within the execution and closing project life cycle phases? (20%)
- An explanation of how organisational characteristics might impact upon business case development and verification of business cases when the execution and closing of projects is undertaken? (20%)
- Critical analysis of execution and closing control systems that are used within the major project management domains? (20%)
- Appropriate and well structured, concise and clear expression of project management arguments in response to the assessment task? (5%)
- A clear flow of thought throughout the presentation with a clear purpose described in the introduction and a comprehensive conclusion? (5%)
- A critical review and integration of relevant academic and professional literature (cited at least twenty (20) times)? (10%)
- Clarity of expression, grammar and spelling? (5%)
- Strict conformity to CQUniversity Australia Harvard Referencing Guide? (5%)
- Appropriate presentation format and presented within slide and note/script limit: 10 to 20 slides & notes/script? (10%)

Referencing Style

- [Harvard \(author-date\)](#)

Submission

Online

Submission Instructions

To be submitted as a PowerPoint document file and optionally a Microsoft Word document file

Learning Outcomes Assessed

- Describe and discuss framework differences with the project management life cycle for executing and closing projects.
- Explain how organisational strategies might impact upon business case verification when the execution of projects is undertaken.
- Critically analyse how control systems are used within the project management domain.

Graduate Attributes

- Knowledge
- Communication
- Cognitive, technical and creative skills
- Research
- Self-management
- Ethical and Professional Responsibility
- Leadership

2 Earned Value Management

Assessment Type

Practical Assessment

Task Description

Assignment Overview

This assessment item requires you to consider:-

- earned value management

...you must then undertake earned value reporting for a selected case study. The case studies will be supplied for a range of project domains:-

- Engineering and construction domain,
- Telecommunications, IT and software development domain,
- Financial and business services domain,
- Government and welfare domain.

The earned value report must meet the minimum requirement outlined in the PMBOK (2013) and conform to the requirements of the progress evaluation techniques (p.108) outlined in Managing Successful Projects with PRINCE2 (2009).

Task

Your task is to consider the overview above and write earned value and S-curve reports. You will be graded upon how well your earned value and S-curve reports have been completed and reflect information from the case studies.

Purpose

The primary purpose of this assessment item is to help you to develop skills in the contents and compilation of earned value and S-curve reports.

The secondary purpose of this assignment is to give you the opportunity to consider the role of progress evaluation techniques and control within a project life cycle.

The assignment will also give you the opportunity to enhance your analysis and written communication skills; particularly in the areas of rigorous structured assignment writing.

Structure

Your submission must use the supplied template. You should complete all of the required parts of the earned value and S-curve reports in a manner as you deem appropriate. The instruction boxes in the template that state they should be deleted must be deleted.

Assessment Due Date

Week 4 Friday (31 Mar 2017) 5:00 pm AEST

Return Date to Students

Monday (10 Apr 2017)

Weighting

20%

Assessment Criteria

Your assignment will be assessed on the extent and quality to which it meets each of the following criteria.

- A complete earned value report is supplied? (10%)
- A complete S-curve report is supplied? (10%)
- The earned value report is an accurate reflection of the case study? (30%)
- The S-curve report is an accurate reflection of the case study? (30%)
- Appropriate and well structured, concise and clear expression of project management arguments in response to the assessment task? (10%)
- Clarity of expression, grammar and spelling? (10%)

Referencing Style

- [Harvard \(author-date\)](#)

Submission

Online

Submission Instructions

To be submitted as Microsoft Word documents and optionally Microsoft Project and Excel files

Learning Outcomes Assessed

- Develop earned value management project reports for supplied case studies.

Graduate Attributes

- Knowledge
- Communication
- Cognitive, technical and creative skills
- Research
- Self-management

3 Controls

Assessment Type

Practical Assessment

Task Description

Assignment Overview

This assessment item requires you to consider:-

- event-driven controls, and
- time-driven controls

...you must then develop the items listed above for a case study. There will be a template supplied for each of the items above. The case studies will cover a number of project domains:-

- Engineering and construction domain,
- Telecommunications, IT and software development domain,
- Financial and business services domain,
- Government and welfare domain.

Your submission must meet the minimum requirements for the controls outlined in the PMBOK (2013) and conform to the progress and project control requirements outlined in Managing Successful Projects with PRINCE2 (2009).

You are encouraged to use assignment outputs that you may have developed from previous assignments.

Task

Your task is to consider the overview above and develop and complete the required items for case studies using the templates that will be supplied during the unit.

You will be graded upon how well your submissions have been completed and reflect the case studies.

Purpose

The primary purpose of this assessment item is to help you to develop skills in the definition and development of event and time driven management processes.

The secondary purpose of this assignment is to give you the opportunity to consider progress and project control requirements within a project life cycle.

The assignment will also give you the opportunity to enhance your analysis and written communication skills; particularly in the areas of structured assignment writing.

Structure

Your submission should be made using the supplied template. You should complete all of the required parts in as complete manner as you deem appropriate. The instruction boxes in the template that state they should be deleted must be deleted.

Assessment Due Date

Week 6 Friday (21 Apr 2017) 5:00 pm AEST

Return Date to Students

Monday (1 May 2017)

Weighting

20%

Assessment Criteria

Your assignment will be assessed on the extent and quality to which it meets each of the following criteria.

- A complete event driven plan is supplied? (10%)
- A complete time driven plan is supplied? (10%)
- The event driven plan is an accurate reflection of the case study? (30%)
- The time driven plan is an accurate reflection of the case study? (30%)
- Appropriate and well structured, concise and clear expression of project management arguments in response to the assessment task? (10%)
- Clarity of expression, grammar and spelling? (10%)

Referencing Style

Submission

Online

Submission Instructions

To be submitted as Microsoft Word documents and optionally Microsoft Project and Excel files

Learning Outcomes Assessed

- Develop project event-driven and time-driven controls for supplied case studies.

Graduate Attributes

- Knowledge
- Communication
- Cognitive, technical and creative skills
- Research
- Self-management

4 Audit & Termination

Assessment Type

Practical Assessment

Task Description

Assignment Overview

This assessment item requires you to consider:-

- audit plans and reports,
- project termination plans and reports

...you must then develop both for a selected case study. The case studies, audit, project audit and termination template will be supplied for a range of project domains:-

- Engineering and construction domain,
- Telecommunications, IT and software development domain,
- Financial and business services domain,
- Government and welfare domain.

The audit plans and reports, and the project termination plans and reports must meet the minimum requirement outlined in the PMBOK (2013) and conform to the requirements outlined in Managing Successful Projects with PRINCE2 (2009).

You are encouraged to use assignment outputs that you may have developed from previous assignments.

Task

Your task is to consider the overview above and write audit plans and reports, and project termination plans and reports using the template that will be supplied during the unit.

You will be graded upon how well your audit plans and reports, and project termination plans and reports have been completed and reflect the case studies.

Purpose

The primary purpose of this assessment item is to help you to develop skills in the contents and compilation of audit plans and reports, as well as project termination plans and reports.

The secondary purpose of this assignment is to give you the opportunity to consider the role of audit plans and reports, as well as project termination plans and reports within a project life cycle.

The assignment will also give you the opportunity to enhance your analysis and written communication skills; particularly in the areas of structured assignment writing.

Structure

Your submission should be made using the supplied template. You should complete all of the required parts in as complete manner as you deem appropriate. The instruction sections in the template that state they should be deleted must be deleted.

Task Description

Assignment Overview

This assessment item requires you to consider:-

- project governance,

...you must then develop all the required governance documentation for a selected case study. The case studies and the associated governance template will be supplied for a range of project domains:-

- Engineering and construction domain,
- Telecommunications, IT and software development domain,
- Financial and business services domain,
- Government and welfare domain.

The governance documentation must meet the minimum requirement outlined section 2.2.2 in the PMBOK (2013) and conform to the requirements outlined in Appendix B in Managing Successful Projects with PRINCE2 (2009).

You are encouraged to use assignment outputs that you may have developed from previous assignments.

Task

Your task is to consider the overview above and write project management governance documentation using the templates that will be supplied during the unit.

You will be graded upon how well your governance documentation has been completed and reflects the case studies.

Purpose

The primary purpose of this assessment item is to help you to develop skills in the objective, contents and compilation of project governance frameworks and principles.

The secondary purpose of this assignment is to give you the opportunity to consider the role of project management governance within a project life cycle.

The assignment will also give you the opportunity to enhance your analysis and written communication skills; particularly in the areas of structured assignment writing.

Structure

Your submission should be made using the supplied template. You should complete all of the required parts in as complete manner as you deem appropriate. The instruction boxes in the template that state they should be deleted must be deleted.

Assessment Due Date

Week 10 Friday (19 May 2017) 5:00 pm AEST

Return Date to Students

Monday (29 May 2017)

Weighting

20%

Assessment Criteria

Your assignment will be assessed on the extent and quality to which it meets each of the following criteria.

- Complete project management governance documentation is supplied? (10%)
- The project management governance is an accurate reflection of the requirements outlined in the PMBOK? (35%)
- The project management governance is an accurate reflection of the requirements outlined in the PRINCE2? (35%)
- Appropriate and well structured, concise and clear expression of project management requirements in response to the assessment task? (10%)
- Clarity of expression, grammar and spelling? (10%)

Referencing Style

- [Harvard \(author-date\)](#)

Submission

Online

Submission Instructions

To be submitted as Microsoft Word documents and optionally Microsoft Project and Excel files

Learning Outcomes Assessed

- Develop project governance approaches for supplied case studies.

Graduate Attributes

- Knowledge
- Communication
- Cognitive, technical and creative skills
- Research
- Self-management

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
