Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student evaluation

Feedback

Learning from this unit was a good experience. Instructions, guidelines and teaching from the unit coordinator and tutor was good.

Recommendation

The teaching team will continue to provide outstanding academic support for the students and give them a better education and learning experience at CQU.

Feedback from Student evaluation

Feedback

Very supportive and great skills to communicate.

Recommendation

This practice will be continued with a continuous improvement goal for more effective communication.

Feedback from Student evaluation

Feedback

When it came to reviewing a submitted assessment or class task, some students believed that more attention and focus response time to emails could have been more timely.

Recommendation

The teaching staff, including the Unit Coordinator, will reply to students' queries and give them sufficient feedback on time in the future.

Feedback from Teaching team

Feedback

There was a peer assessment practice item on Moodle. However, most of the students did not practice enough, which impacted their submissions and gradings.

Recommendation

The peer assessment practice session must be continued. The unit coordinator can make a video on how to do the peer assessment. The tutors can have a session or a part of a session where students will practice the peer assessment tasks in the tutorial session.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Demonstrate an integrative understanding of the key theories and concepts underpinning buyer-contractor relationships as well as the concepts of project contracts and procurement standards
2. Analyse different commercial negotiation strategies and demonstrate an ability to creatively negotiate project plans, conflicts, delays, and incentives in commercial projects
3. Employ risk management planning and identification and assess the risk encountered over the procurement process
4. Negotiate and analyse the principles of tendering, pricing and awarding techniques and to utilise the negotiation approaches in commercial contracts
5. Evaluate and develop clear legal, financial and technical components of project contracts
6. Develop a project budget and an expenditure forecast as control mechanisms and link time, cost and resources to the project framework.

The unit contributes to the required number of academic study units for students wishing to undertake profession certification with the Project Management Institute's (PMI) professional qualifications, such as CAPM or PMP.

Daylight saving is ended on **Sunday 7 April 2024** in New South Wales, Victoria, South Australia, Tasmania, and the Australian Capital Territory while it is not observed in Queensland, Western Australia or the Northern Territory. In Term 1, until Sunday 7 April 2024, Sydney and Melbourne students or any students enrolled from the DST observing parts of Australia (Australian Eastern Daylight Time - **AEDT**) are one hour ahead of Queensland (observing the Australian Eastern Standard Time - **AEST**). This could be reflected in Moodle and other systems you use. All students, please check for the correct times depending on your location.

Assessment Tasks

1 Assessment 1 (40%): Written Report + Peer Assessment

Assessment Type

Practical Assessment

Task Description

This is an individual assignment comprising two parts:

- **Part A (30%):** You are required to submit an **anonymised** written report responding to the specific tasks; and
- **Part B (10%):** Represents a “peer assessment” report evaluating your peers' submission. Marks will be awarded based on the quality of your evaluation.

The assessment contains descriptions and the scope of work for a multi-component real-world case study. The case study and assessment requirements will be provided on the unit Moodle website.

Part A: You are required to submit a written report considering the followings:

- Critically analyse the case study and propose the most suitable procurement route for two (2) subcontract packages of your choice. The characteristics of the client, constraints, conditions, and available resources for each sub-project will be given.
- Justify the proposed procurement route for the packages and explain why this route is the most

suitable to make the project successful.

- Propose the most suitable contract type for 2 subcontract packages for parties involved to complement the procurement strategy of the main contract.
- Discuss the associated risks and the key components which must be covered in the selected subcontracts.
- For one subcontract package, develop a hypothetical budget and an expenditure forecast as control mechanisms.
- Your report should evidence your understanding of the chosen procurement options in the context of the project, the program, and the main contract procurement strategy.

Part B: The peer assessment aims to enhance your understanding and allows you to learn from this assessment by exchanging knowledge with your peers considering the followings:

- You are required to evaluate **3 (THREE) submissions** by your peers, which will be randomly and anonymously assigned to you.
- You will be asked to submit your evaluation reports along with your constructive feedback and comments.
- You will evaluate the submissions based on the assessment criteria and using the marking tool provided.
- Your evaluation will be checked and moderated to ensure the quality of the feedback and the peer assessment.
- Failing to submit the evaluation report by the deadline will result in zero (0) marks for this part.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own
