PPMP20012 Program and Portfolio Management Information Systems

Term 2 - 2024

Profile information current as at 09/05/2024 05:50 pm

All details in this unit profile for PPMP20012 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

The unit introduces you to systems thinking, systems engineering and systems management principles, concepts, tools and techniques for project, program and portfolio managers (PPPM). Systems thinking offers you a powerful perspective to help design clever and enduring solutions. In your study, you will learn how to effectively apply systems engineering and systems management to organise complex projects. You will also identify the implementation of systems to create outputs and manage information flows. You will study contemporary developments in PPPM using international software, standards and knowledge bases as well as modelling and simulation techniques. As a consequence of managing PPPM information, you will be able to support effective knowledge management and decision making in an organisation.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student evaluation survey

Feedback

Assessment feedback should be provided early.

Recommendation

- Tutors and lecturers emphasise that their comments in the group discussion activity in the weekly tutorial are assessment feedback. - In Assignment 1 (biweekly portfolio submission on Moodle forum from week 2-10), the course coordinator summarises the student responses and gives some hints weekly.

Feedback from Student evaluation survey, student comment during the class

Feedback

Limited learning support. The course is about portfolio management information systems but there are not any applications and software to use.

Recommendation

- The lectures and tutorials will provide students with templates, examples about portfolio management and also introduce different software and applications for practice.

Feedback from Assessment calendar

Feedback

Overloaded at the end of the semester There are 4 assessments in total. Assessment 1: consolidated portfolio submission (early week 10) - 35% Assessment 2: Quiz (week 6) - 10% Assessment 3: group report (week 11) - 30% Assessment 4: Online test (Exam week either week 13 or 14) - 25%. Starting from week 9, students would be overloaded with the amount of the assignment submission while the tutors would also be overloaded with the marking.

Recommendation

- The new proposal will exclude the online exam (assessment 4- 25%) as online exams no longer align with recommendations from the CQU Renew.
