General Information

Overview

This unit covers the theory and practice of professional real property management. You will examine the functions, roles and responsibilities of property managers at the various levels of the property management hierarchy within the broader context of the parameters that govern the property industry. You will explore the practical requirements and skills required for effective and ethical property management across a range of property types, including focused research skills to resolve emerging practical problems.

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student evaluation

Feedback

Students made mentions of learning something new, such as, 'As a property manager for the past 6 years, I was pleasantly surprised that I picked up some extra knowledge from this course that have helped round out my understanding of the processes and hierarchy of property management. With [UC] being an active member of the property community he provided some really valuable real life examples to bed down the literature.'

Recommendation

The virtual classes are to include real life examples and clear connections to current news and events.

Feedback from Student evaluation

Feedback

Students presented constructive comments around the major assignment. They suggest: 1. more exemplars should be shared. 2. the word count was considered too short to cover the required headings. 3. much of the required material is covered late in the semester requiring them to read ahead if they were to commence the assignment early.

Recommendation

More exemplars are now available and will be shared with the 2021 cohort. The suggested headings or 'template' for the assignment will be revised to be more concise. The refined assignment will exclude some of the later material. The later material will be assessed in the final assessment task.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Demonstrate the theory underlying property management practice
2. Analyse and propose solutions for practical and ethical problems in the property management
3. Research emerging legal, and practical issues in property management.

The Australian Property Institute (API) has accredited this unit as part of the Bachelor of Property course. This unit contributes to the core knowledge field of the API in Property Management. The learning outcomes for the unit and the assessments have been designed around the accreditation requirements.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
