

PSIO13007 *Musculoskeletal Physiotherapy 3*

Term 1 - 2020

Profile information current as at 27/04/2024 02:06 pm

All details in this unit profile for PSIO13007 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

Corrections

Unit Profile Correction added on 28-04-20

The Objective Structured Clinical Examination task has now been changed to an alternate form of assessment. Please see your Moodle site for details of the assessment.

Unit Profile Correction added on 02-04-20

The **Mid-Term In-Class Test** has now been changed to an alternate form of assessment. Please see your Moodle site for details of the assessment

The **End-Term In-Class Test** has now been changed to an alternate form of assessment. Please see your Moodle site for details of the assessment.

The Objective Structured Clinical Examination has been postponed and you will need to complete this at a later date. Further details about the Objective Structured Clinical Examination will be made available on Moodle in due course.

General Information

Overview

In this unit you will advance your knowledge and skills in the assessment and management of complex musculoskeletal conditions, with a focus on developing and refining your clinical reasoning and manual therapy skills. The unit will foster an evidence-based and client-centred approach to physiotherapy management of acute sporting injuries, orthopaedic surgery, complex spinal and peripheral conditions, chronic disease and persisting pain, across the lifespan. Complex clinical presentations will be explored in the context of biological, social and psychological factors that influence client recovery and participation.

Details

Career Level: *Undergraduate*

Unit Level: *Level 3*

Credit Points: 6

Student Contribution Band: 8

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

To enrol in this unit you must be enrolled in the CB85 Course and meet the following pre-requisites: PSIO12001 Musculoskeletal Physiotherapy 1 PSIO12005 Musculoskeletal Physiotherapy 2 ALLH12008 Functional Anatomy and Biomechanics

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2020

- Bundaberg
- Rockhampton

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **In-class Test(s)**

Weighting: 20%

2. **In-class Test(s)**

Weighting: 30%

3. **Objective Structured Clinical Examinations (OSCEs)**

Weighting: 50%

4. **On-campus Activity**

Weighting: Pass/Fail

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Have Your Say - student feedback

Feedback

Many students felt they needed more time during their End-Term In-Class Test.

Recommendation

It is recommended that the duration of the End-Term In-Class Test be extended to 2.5 hours.

Feedback from Have Your Say - student feedback

Feedback

Students really enjoyed the practical sessions involving 'real' patients (e.g. persisting pain session).

Recommendation

It is recommended that, subject to availability, 'real' patients will be included in some practical sessions.

Feedback from Face-to-face communication -student feedback

Feedback

Students enjoyed the inclusion of additional 'role-play' simulations during the clinical reasoning sessions.

Recommendation

It is recommended that these 'role-play' simulations tasks be further developed, and utilised more frequently during the clinical reasoning sessions.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Demonstrate theoretical and applied knowledge of pathophysiology, symptomatology, clinical course and prognosis for complex musculoskeletal conditions
2. Develop, implement and evaluate evidence-based assessment and treatment for clients with complex musculoskeletal conditions
3. Explain how biological, social, and psychological factors inform a physiotherapy intervention plan for clients with complex musculoskeletal conditions
4. Describe the role of the physiotherapist within an interprofessional team in the management of clients with complex musculoskeletal conditions
5. Demonstrate acceptable professional and ethical behaviours consistent with a physiotherapy practitioner.

Schedule

Week 1 - 09 Mar 2020

Module/Topic	Chapter	Events and Submissions/Topic
Introduction to Musculoskeletal Physiotherapy 3 Patient interview and physical assessment for spinal pain	Chapter 9 - Petty and Barnard (2018) Principles of musculoskeletal treatment and management (3rd Edition).	N/A

Week 2 - 16 Mar 2020

Module/Topic	Chapter	Events and Submissions/Topic
Musculoskeletal Treatment: Spinal Mobilisations	Chapter 3 - Petty and Barnard (2018) Principles of musculoskeletal treatment and management (3rd Edition). Chapter 17 - Brukner and Khan (2017) Clinical sports medicine (5th Edition).	N/A

Week 3 - 23 Mar 2020

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Musculoskeletal Treatment: Soft Tissue Techniques	Chapter 5 and 7 - Petty and Barnard (2018) Principles of musculoskeletal treatment and management (3rd Edition).	N/A
---	--	-----

Week 4 - 30 Mar 2020

Module/Topic	Chapter	Events and Submissions/Topic
Musculoskeletal Treatment: High Velocity Thrust Manipulations	Chapter 3 - Petty and Barnard (2018) Principles of musculoskeletal treatment and management (3rd Edition).	N/A

Week 5 - 06 Apr 2020

Module/Topic	Chapter	Events and Submissions/Topic
Musculoskeletal Treatment: Therapeutic Exercise	Chapter 10 - Petty and Barnard (2018) Principles of musculoskeletal treatment and management (3rd Edition).	N/A MID-TERM TEST Due: Week 5 Thursday (9 Apr 2020) 10:00 am AEST

Vacation Week - 13 Apr 2020

Module/Topic	Chapter	Events and Submissions/Topic
N/A	N/A	N/A

Week 6 - 20 Apr 2020

Module/Topic	Chapter	Events and Submissions/Topic
Complex Musculoskeletal: Peripheral musculoskeletal conditions (Tendinopathy and shoulder pain)	N/A	N/A

Week 7 - 27 Apr 2020

Module/Topic	Chapter	Events and Submissions/Topic
Complex Musculoskeletal: Chronic lower back pain and persisting pain	Chapter 8 - Petty and Barnard (2018) Principles of musculoskeletal treatment and management (3rd Edition). Chapter 5 - Brukner and Khan(2017) Clinical sports medicine (5th Edition).	N/A

Week 8 - 04 May 2020

Module/Topic	Chapter	Events and Submissions/Topic
Complex Musculoskeletal: Sports Physiotherapy	Chapter 20 - Brukner and Khan (2017) Clinical sports medicine (5th Edition).	NB: Due to Labour Day Public Holiday (Monday 4th May), all MSK3 classes will be <u>moved to Friday 8th May</u> (see Moodle for updates).

Week 9 - 11 May 2020

Module/Topic	Chapter	Events and Submissions/Topic
Complex Musculoskeletal: Orthopaedic elective surgery and common paediatric conditions	Chapter 35 - Brukner and Khan (2017) Clinical sports medicine (5th Edition). Chapter 44 - Brukner and Khan (2017) Clinical sports medicine (5th Edition).	Reminder to complete the 'Have your say' Unit evaluations.

Week 10 - 18 May 2020

Module/Topic	Chapter	Events and Submissions/Topic
Complex Musculoskeletal: Occupational Physiotherapy	N/A	Reminder to complete the 'Have your say' Unit evaluations.

Week 11 - 25 May 2020

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

N/A

OSCE preparation N/A

END-TERM TEST Due: Week 11
Monday (25 May 2020) 8:00 am AEST

Week 12 - 01 Jun 2020

Module/Topic	Chapter	Events and Submissions/Topic
OSCE preparation	N/A	Reminder to complete the 'Have your say' Unit evaluations.

Review/Exam Week - 08 Jun 2020

Module/Topic	Chapter	Events and Submissions/Topic
N/A	N/A	OBJECTIVE STRUCTURED CLINICAL EXAMINATION (OSCE) (50%) - will be scheduled in either Exam Week 1 or Exam Week 2. See Moodle for updates. Reminder to complete the 'Have your say' Unit evaluations.

Exam Week - 15 Jun 2020

Module/Topic	Chapter	Events and Submissions/Topic
N/A	N/A	OBJECTIVE STRUCTURED CLINICAL EXAMINATION (OSCE) (50%) - will be scheduled in either Exam Week 1 or Exam Week 2. See Moodle for updates. Reminder to complete the 'Have your say' Unit evaluations.

Assessment Tasks

1 MID-TERM TEST

Assessment Type

In-class Test(s)

Task Description

The Mid-Term Test is a 1.5 hr (i.e. 90 min, plus 10 min perusal) closed book in-class written test that will be held on-campus (Bundaberg and Rockhampton campuses only). This will be a paper-based assessment. Access to books, notes and/or electronic devices is prohibited during the test. The Mid-Term Test will assess all content covered from weeks 1 to 5, inclusive, including all lecture, practical and required reading material.

The test will include some, or all, of the following question types:

- Multiple choice
- True/False
- Short answer
- Case studies

Assessment Due Date

Week 5 Thursday (9 Apr 2020) 10:00 am AEST
Bundaberg (1/1.10) Rockhampton (34/1.10)

Return Date to Students

Results will be accessible on Moodle within two weeks of the submission date.

Weighting

20%

Assessment Criteria

All questions will be marked numerically and an overall percentage mark will be awarded.

Late Arrivals: You should aim to arrive at least 15-minutes prior to the official assessment commencement time. In the extraordinary circumstance that you are late you will be permitted late entry to your assessment of up to 10 minutes after the official assessment commencement time. The period of lateness will be deducted from your overall assessment

time. If you are denied access to the assessment due to lateness (i.e. arriving beyond the permitted late entry period), you should make an online application for deferred assessment (which may or may not be granted in line with CQU policy). If your application for deferred assessment is denied, you will receive a score of zero percent (0%) for your assessment item.

Submission

Offline

Submission Instructions

The Mid-Term Test will be an in-class paper-based written test held on-campus (Bundaberg and Rockhampton campuses only).

Learning Outcomes Assessed

- Demonstrate theoretical and applied knowledge of pathophysiology, symptomatology, clinical course and prognosis for complex musculoskeletal conditions

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy

2 END-TERM TEST

Assessment Type

In-class Test(s)

Task Description

The End-Term Test is a 2.5 hour (i.e. 150 min, plus 10 min perusal) closed book, paper-based, written test that will be held on-campus (Bundaberg and Rockhampton campuses only). Access to books, notes and electronic devices are prohibited during the test. The End-Term Test will examine all content covered from weeks 1 to 10, inclusive, including all lectures, practicals and required readings.

The test will include some, or all, of the following question types:

- Multiple choice
- True/False
- Short answer/essay
- Case studies

Assessment Due Date

Week 11 Monday (25 May 2020) 8:00 am AEST
Bundaberg (1/1.19) Rockhampton (34/1.15)

Return Date to Students

Results will be accessible on Moodle within two weeks of the submission date.

Weighting

30%

Assessment Criteria

All questions will be marked numerically and an overall percentage mark will be awarded.

Late Arrivals: You should aim to arrive at least 15-minutes prior to the official assessment commencement time. In the extraordinary circumstance that you are late you will be permitted late entry to your assessment of up to 10 minutes after the official assessment commencement time. The period of lateness will be deducted from your overall assessment time. If you are denied access to the assessment due to lateness (i.e. arriving beyond the permitted late entry period), you should make an online application for deferred assessment (which may or may not be granted in line with CQU policy). If your application for deferred assessment is denied, you will receive a score of zero percent (0%) for your assessment item.

Learning Outcomes Assessed

- Demonstrate theoretical and applied knowledge of pathophysiology, symptomatology, clinical course and prognosis for complex musculoskeletal conditions
- Explain how biological, social, and psychological factors inform a physiotherapy intervention plan for clients with complex musculoskeletal conditions
- Describe the role of the physiotherapist within an interprofessional team in the management of clients with complex musculoskeletal conditions

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Cross Cultural Competence

3 OBJECTIVE STRUCTURED CLINICAL EXAMINATION

Assessment Type

Objective Structured Clinical Examinations (OSCEs)

Task Description

The Objective Structured Clinical Exam (OSCE) is intended to assess your theoretical knowledge and practical application of physiotherapy assessment, treatment and clinical reasoning. The OSCE will be held in either Exam Week 1 or Exam Week 2. A timetable for the OSCE will be published on Moodle during term.

The OSCE will be based on two (2) written clinical scenarios and will last 60 minutes (i.e. 20 min preparation time and 40 min examination time). You will be given 20 minutes before the formal OSCE to prepare for both clinical scenarios. When the OSCE commences you will be given 20 minutes to complete each clinical scenario. Your performance on each clinical scenario will be assessed by a different examiner (i.e. you will be examined by two examiners - one per clinical scenario). For each scenario you will be required to plan, discuss and perform relevant aspects of physiotherapy assessment, treatment and overall management.

You may be requested to:

- Demonstrate knowledge of the presenting condition, including relevant pathophysiology, pathoanatomy, and symptomatology.
- Identify and act upon any precautions and/or contraindications to assessment and/or treatment.
- Demonstrate knowledge and clinical reasoning in the selection of assessment, treatment and/or overall management.
- Demonstrate clear, effective and thorough communication.
- Demonstrate safe and effective application of clinical assessment, treatment and/or overall management.
- Explain and interpret the findings of a clinical assessment and/or treatment, including progression and regression of selected treatment techniques.
- Demonstrate accurate and appropriate documentation of your clinical assessment and/or treatment findings.

All material relevant to musculoskeletal physiotherapy assessment and treatment covered in the following pre-requisite units is also examinable in the OSCE: Foundations of Physiotherapy Practice 1 (PSIO11004), Foundations of Physiotherapy Practice 2 (PSIO11003), Functional Anatomy and Biomechanics (ALLH12008), Musculoskeletal Physiotherapy 1 (PSIO12001) and Musculoskeletal Physiotherapy 2 (PSIO12005).

You need to be appropriately attired in your full clinical uniform for the examination. If you are required to be a 'simulated patient' for another student's examination please bring additional clothes suitable for a clinical assessment.

Assessment Due Date

The Practical Assessment (OSCE) will be held in either Exam Week 1 or Exam Week 2.

Return Date to Students

Results will be accessible on Moodle within two weeks following completion.

Weighting

50%

Minimum mark or grade

In order to PASS the OSCE you must: 1) PASS the PASS/FAIL component of Risk Management/Safety for each of the two clinical scenarios, and 2) achieve 50% or higher for each of the two clinical scenarios. Refer to 'Assessment Criteria' for further details.

Assessment Criteria

The assessment rubric for this assessment task is based on the Australian Standards for Physiotherapy, the Accreditation Standard set by the Australian Physiotherapy Council, and The Assessment of Physiotherapy Practice Instrument. These quality frameworks are mapped against the CQUniversity Graduate Attributes and are intended to give a holistic understanding of standards expected for the assessment task.

Detailed marking criteria will be available on the unit Moodle site, and will be based on the following rubric categories:

- Communication (20%)
- Selection, application and interpretation of assessment (40%)
- Selection, application and interpretation of treatment/management (40%)
- Risk Management/Safety and Professional Behaviour (PASS/FAIL)

In order to PASS the Objective Structured Clinical Examination (OSCE) you must:

1) achieve a PASS result for the PASS/FAIL component of Risk Management/Safety and Professional Behaviour for each of the two clinical scenarios (i.e. PASS for clinical scenario one and PASS for clinical scenario two).

AND

2) achieve 50% or higher in the graded component for each of the two clinical scenarios (i.e. a minimum of 50% for clinical scenario one and a minimum of 50% for clinical scenario two).

If you do not meet the above criteria for each clinical scenario, you will be eligible for one opportunity to re-sit the entire OSCE assessment task, provided you have achieved an overall grade equal to, or higher than 44.5% for your original OSCE.

OSCE re-sit conditions:

- 1) If you meet the eligibility criteria for a re-sit, you will be given only one re-sit opportunity.
- 2) The re-sit will be conducted during the Term 1 University Vacation period.
- 3) The re-sit will be assessed by up to two examiners and will be of an equivalent format to the original assessment task.
- 4) The assessment criteria of the re-sit will be identical to the original OSCE.
- 5) If you pass the re-sit you will receive a mark of exactly 50% for the OSCE (i.e. 25% of the Total Unit mark), irrespective of your achievement for the graded component of the re-sit. This is to ensure equity to those students who only had one attempt.

If you do not meet the requirements for a re-sit, you will receive a mark equal to your original OSCE mark, and may be offered a supplementary assessment in line with CQUniversity Policy.

If you do not meet the requirements to PASS the re-sit, you will receive a mark equal to your re-sit OSCE grade, and may be offered a supplementary assessment in line with CQUniversity Policy.

Late Arrivals: You should aim to arrive at least 15-minutes prior to the official assessment commencement time (i.e. when your preparation time starts). In the extraordinary circumstance that you are late you will be permitted late entry to your assessment of up to 10 minutes after the official assessment commencement time. The period of lateness will be deducted from your overall assessment time. If you are denied access to the assessment due to lateness (i.e. arriving beyond the permitted late entry period), you should make an online application for deferred assessment (which may or may not be granted in line with CQU policy). If your application for deferred assessment is denied, you will receive a score of zero percent (0%) for your assessment item and will not be eligible for a re-sit, but may be eligible for a supplementary assessment in line with CQU policy.

Submission

No submission method provided.

Learning Outcomes Assessed

- Develop, implement and evaluate evidence-based assessment and treatment for clients with complex musculoskeletal conditions
- Explain how biological, social, and psychological factors inform a physiotherapy intervention plan for clients with complex musculoskeletal conditions
- Describe the role of the physiotherapist within an interprofessional team in the management of clients with complex musculoskeletal conditions
- Demonstrate acceptable professional and ethical behaviours consistent with a physiotherapy practitioner.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Cross Cultural Competence
- Ethical practice

4 ATTENDANCE HURDLE

Assessment Type

On-campus Activity

Task Description

A minimum attendance rate of 85% for all scheduled tutorial and practical sessions is required to PASS this unit. This minimum attendance requirement is recommended by the Australian Physiotherapy Council. The monitoring of attendance will take into consideration legitimate requests for absence, such as those outlined in the CQUniversity Assessment Policy and Procedure (Higher Education Coursework) document, and these will not be counted as absence for the purpose of this attendance requirement.

Assessment Due Date

Attendance rate will be determined at the end of term (i.e. Week 12)

Return Date to Students

Attendance rate will be determined at the end of term (i.e. Week 12)

Weighting

Pass/Fail

Minimum mark or grade

In order to PASS the Attendance Hurdle you must attend at least 85% of all scheduled tutorials/practicals for this unit.

Assessment Criteria

Your attendance at each scheduled practical session will be recorded by the tutor using an attendance spreadsheet. The monitoring of attendance will take into consideration legitimate requests for absence, such as those outlined in the CQUniversity Assessment Policy and Procedure (Higher Education Coursework) document, and these will not be counted as absence for the purpose of this attendance requirement.

Referencing Style

- [American Psychological Association 6th Edition \(APA 6th edition\)](#)

Submission

No submission method provided.

Learning Outcomes Assessed

- Demonstrate acceptable professional and ethical behaviours consistent with a physiotherapy practitioner.

Graduate Attributes

- Ethical practice

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
