## General Information

### Overview

This unit is designed for first-time researchers. It provides you with an introduction to the research methods and critical thinking approach that will be used throughout your psychology degree. At the end of this unit, you will be able to describe, apply, and evaluate a range of basic qualitative and quantitative research methods used in the social sciences. You will develop critical thinking, problem solving skills and group work skills. You will gain introductory competence in critically evaluating scientific literature, constructing empirical arguments, generating research questions, applying basic statistical concepts, and preparing scientific research reports in American Psychological Association (APA) formatting style. A focus will be placed on conducting research with diverse populations and in an ethically responsible manner. The skills and knowledge gained in this unit will be developed further in Research Methods 2 (PSYC12048) and Research Methods 3 (PSYC13015).

### Offerings For Term 3 - 2023

- Online

### Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

### Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

## Class and Assessment Overview

### Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

### Class Timetable

Weighting: 15%

#### 2. **Written Assessment**

Weighting: 15%

#### 3. **Critical Review**

Weighting: 20%

#### 4. **Report**

Weighting: 50%

### Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

## Previous Student Feedback

### Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

#### Feedback from Student and Unit Teaching Evaluations

**Feedback**

Group work was challenging if students did not respond to their group members' efforts to contact them.

**Recommendation**

Students who do not engage with their group will be contacted directly by the unit coordinator via email and encouraged to participate.

#### Feedback from Student and Unit Teaching Evaluations

**Feedback**

Students reported that it would be helpful to have their marks and feedback for Assessment 2 earlier to get an understanding of how well they were doing, prior to Assessment 3 being due.

**Recommendation**

Review the due date for assessment 2 to allow time for students to have feedback prior to Assessment 3 being due. Video feedback for students on Assessment 2 will also be provided to ensure students are aware of key areas for improvement.

#### Feedback from Verbal feedback in tutorials

**Feedback**

Students reported that they were expected to complete an assessment that included both quantitative and qualitative content) before most of the quantitative information had been given to them (weeks 9 - 12).

**Recommendation**

Review the order that quantitative and qualitative information will be provided and how this aligns with due dates.

## Unit Learning Outcomes

**On successful completion of this unit, you will be able to:**

1. Describe and apply foundational quantitative and qualitative research methods in psychology.
2. Apply knowledge of research methodology and research ethics to the evaluation of academic and non-academic sources of information.
3. Critically reflect on how personal and societal attitudes, experiences and values influence perceptions of ethical research and scientific knowledge.
4. Write a scientific report using American Psychological Association (APA) format.

This unit addresses Foundational Competencies as specified by the Australian Psychology Accreditation Council (APAC). The unit specifically aligns to the following APAC graduate competencies:

- 1.1 Comprehend and apply a broad and coherent body of knowledge of psychology, with depth of understanding of underlying principles, theories and concepts in the discipline, using a scientific approach, including the following topics:
  - i. the history and philosophy underpinning the science of psychology and the social, cultural, historical and professional influences on the practice of psychology; and
  - xii. research methods and statistics.
- 1.2 Apply knowledge and skills of psychology in a manner that is reflexive, culturally appropriate and sensitive to the diversity of individuals.
- 1.3 Analyse and critique theory and research in the discipline of psychology and communicate these in written and oral formats.
- 1.4 Demonstrate an understanding of appropriate values and ethics in psychology.
- 1.5 Demonstrate interpersonal skills and teamwork.
- 1.6 Demonstrate self-directed pursuit of scholarly inquiry in psychology.
