General Information

Overview
This unit is designed for first-time researchers. It provides you with an introduction to the research methods and critical thinking approach that will be used throughout your psychology degree. At the end of this unit, you will be able to describe, apply, and evaluate a range of basic qualitative and quantitative research methods used in the social sciences. You will develop critical thinking, problem solving skills and group work skills. You will gain introductory competence in critically evaluating scientific literature, constructing empirical arguments, generating research questions, applying basic statistical concepts, and preparing scientific research reports in American Psychological Association (APA) formatting style. A focus will be placed on conducting research with diverse populations and in an ethically responsible manner. The skills and knowledge gained in this unit will be developed further in Research Methods 2 (PSYC12048) and Research Methods 3 (PSYC13015).
