

PSYC12048 *Research Methods*

Term 1 - 2021

Profile information current as at 27/04/2024 07:51 pm

All details in this unit profile for PSYC12048 have been officially approved by CQUniversity and represent a learning partnership between the University and you (our student). The information will not be changed unless absolutely necessary and any change will be clearly indicated by an approved correction included in the profile.

General Information

Overview

This unit will introduce you to key concepts in research methodology as employed in psychological research and the social sciences. The material covered in this unit provides the necessary background for you to conduct and/or appraise research as part of your undergraduate or professional careers. The primary goals of this unit are to a) provide you with an awareness of the range of methodologies available (both quantitative and qualitative) to researchers and to appreciate the strengths and weaknesses of both approaches and b) design research studies to understand psychological phenomena, including writing sub-sections of research reports in APA style.

Details

Career Level: *Undergraduate*

Unit Level: *Level 2*

Credit Points: 6

Student Contribution Band: 7

Fraction of Full-Time Student Load: 0.125

Pre-requisites or Co-requisites

Successful completion of 24 credit points.

Important note: Students enrolled in a subsequent unit who failed their pre-requisite unit, should drop the subsequent unit before the census date or within 10 working days of Fail grade notification. Students who do not drop the unit in this timeframe cannot later drop the unit without academic and financial liability. See details in the [Assessment Policy and Procedure \(Higher Education Coursework\)](#).

Offerings For Term 1 - 2021

- Adelaide
- Bundaberg
- Cairns
- Online
- Rockhampton
- Townsville

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

[This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.](#)

Class and Assessment Overview

Recommended Student Time Commitment

Each 6-credit Undergraduate unit at CQUniversity requires an overall time commitment of an average of 12.5 hours of study per week, making a total of 150 hours for the unit.

Class Timetable

[Regional Campuses](#)

Bundaberg, Cairns, Emerald, Gladstone, Mackay, Rockhampton, Townsville

[Metropolitan Campuses](#)

Adelaide, Brisbane, Melbourne, Perth, Sydney

Assessment Overview

1. **Portfolio**

Weighting: 55%

2. **Group Discussion**

Weighting: 15%

3. **Take Home Exam**

Weighting: 30%

Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy
- Assessment Policy and Procedure (Higher Education Coursework)
- Review of Grade Procedure
- Student Academic Integrity Policy and Procedure
- Monitoring Academic Progress (MAP) Policy and Procedure – Domestic Students
- Monitoring Academic Progress (MAP) Policy and Procedure – International Students
- Student Refund and Credit Balance Policy and Procedure
- Student Feedback – Compliments and Complaints Policy and Procedure
- Information and Communications Technology Acceptable Use Policy and Procedure

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Student feedback and self-reflection

Feedback

Textbook was not concise enough.

Recommendation

Retain main textbook for 2021 delivery, but signpost relevant material more clearly.

Feedback from Student feedback

Feedback

Lectures were a little long and needed more interaction.

Recommendation

Make pre-recorded material more concise and live lectures more interactive.

Feedback from Student feedback

Feedback

Variety of resources to support learning was good, especially formative quizzes.

Recommendation

Maintain existing resources, updating where appropriate.

Feedback from Student feedback

Feedback

Weekly seminar with discussion topics aided learning.

Recommendation

Maintain smaller seminars in addition to larger lectures.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Evaluate basic research designs
2. Design studies to investigate psychological phenomena
3. Demonstrate knowledge of key concepts in research methods.

Alignment of Learning Outcomes, Assessment and Graduate Attributes

Alignment of Assessment Tasks to Learning Outcomes

Assessment Tasks	Learning Outcomes		
	1	2	3
1 - Portfolio - 55%	•	•	•
2 - Group Discussion - 15%	•	•

Schedule

Week 1 - 08 Mar 2021

Module/Topic	Chapter	Events and Submissions/Topic
Introduction to Research	1, 2	

Week 2 - 15 Mar 2021

Module/Topic	Chapter	Events and Submissions/Topic
Validity, Reliability and Measurement	3, 5	

Week 3 - 22 Mar 2021

Module/Topic	Chapter	Events and Submissions/Topic
Threats to Validity	7	

Week 4 - 29 Mar 2021

Module/Topic	Chapter	Events and Submissions/Topic
Experiments	9	Portfolio Component 1 Due: Week 4 Monday (29th March) 11:55pm AEST

Week 5 - 05 Apr 2021

Module/Topic	Chapter	Events and Submissions/Topic
Quasi-Experiments	10	

Vacation Week - 12 Apr 2021

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Week 6 - 19 Apr 2021

Module/Topic	Chapter	Events and Submissions/Topic
Research Designs	11	

Week 7 - 26 Apr 2021

Module/Topic	Chapter	Events and Submissions/Topic
Writing in Psychology (focus on Methods section)	13 McBurny & White, Ch. 4 (available online) Burton, Chs. 1 & 3 (available online)	

Week 8 - 03 May 2021

Module/Topic	Chapter	Events and Submissions/Topic
Surveys	6	Group Discussion Due: Week 8 Tuesday (4th May 2021) 11.55pm AEST

Week 9 - 10 May 2021

Module/Topic	Chapter	Events and Submissions/Topic
Understanding and Representing Data	12 De Veaux, Vellman & Bock, Chs. 2, 3 & 4 (available online)	

Week 10 - 17 May 2021

Module/Topic	Chapter	Events and Submissions/Topic
Non-experimental Research	8	

Week 11 - 24 May 2021

Module/Topic	Chapter	Events and Submissions/Topic
Qualitative and Mixed Methods	Richardson, Goodwin & Vine, Chs. 7 & 8 (available online)	

Week 12 - 31 May 2021

Module/Topic	Chapter	Events and Submissions/Topic
Bringing it all together and exam revision		Portfolio Component 2 Due: Week 12 Monday (31st May 2021) 11:55pm AEST

Review/Exam Week - 07 Jun 2021

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

Exam Week - 14 Jun 2021

Module/Topic	Chapter	Events and Submissions/Topic
--------------	---------	------------------------------

End of year take home exam:

Opens Monday of Week 13 (Monday 7th June 2021) 9am AEST, due on Friday of Week 13 (Friday 11th June 2021) 9am AEST

Assessment Tasks

1 PORTFOLIO

Assessment Type

Portfolio

Task Description

This assessment item will provide you with the opportunity to practice the skills and knowledge gained throughout the unit in an applied setting. The portfolio assessment will test your understanding of how to construct a testable hypothesis from a research question, how to design an experiment to test this hypothesis, and how to interpret experimental findings. The assessment task will also develop your research report writing skills and evaluate your understanding of fundamental concepts in psychological research.

This assessment task closely relates to each of the unit learning outcomes.

Details:

During the unit, you will be required to submit two (2) components related to the research process and the research report writing process. Each component will be submitted independently. The components are:

1. Constructs, Variables and Hypotheses
2. Experimental Design

Your unit coordinator will provide a list of research questions at the start of the unit to help you with each of the components. See Moodle for more detailed requirements

Assessment Due Date

Components are due by 11.55pm on Monday at the start of weeks 4 and 12

Return Date to Students

Each component will be returned within 2 working weeks of the submission due date.

Weighting

55%

Assessment Criteria

Component 1 - Constructs, Variables and Hypotheses

Your Unit Coordinator will provide you with a set of five research questions at the start of the unit. For each question, you will be asked to identify the constructs in the research question, describe a variable that could be used to measure the constructs that you have identified, and construct a testable hypothesis using the variables that you have described. Requirements/criteria: Identify the constructs, describe variables to measure the constructs, construct a testable hypothesis (4 marks for each question). See Moodle for more details.

Due Date: 11:55pm Monday - start of week 4

Component 1 Weighting: 20%

Word Count Range: 500 – 600 words (max 600 words)

Component 2 – Experimental Design

For this component, you will need to choose one of the two questions from the list provided by your Unit Coordinator. Your task is to design an experiment to answer your research question. You will 'write up' your experiment in the form of an APA style methods section containing the following sections: design statement, participants, materials, procedure, and use of data.

Requirements/criteria: Design statement (5 marks), Participants (7 marks), Materials (10 marks), Procedure (10 marks), Use of data (3 marks). Marks per section will be awarded via a detailed criteria and feedback sheet available on Moodle. For example, to get a HD for the Design Statement, students would need "All of the major aspects of the design (including hypothesis, type of design, IVs, DVs) have been clearly described". Two sample exemplars from previous cohorts (different research topics to those set in 2021) will be given.

Due Date: 11:55pm Monday - start of week 12

Component 2 Weighting: 35%

Word Count Range: 700 – 800 words (max 800 words)

Referencing Style

- [American Psychological Association 7th Edition \(APA 7th edition\)](#)

Submission

Online

Submission Instructions

Online files (MS Word preferred) in Moodle. Components 1 and 2 are submitted separately

Learning Outcomes Assessed

- Evaluate basic research designs
- Design studies to investigate psychological phenomena
- Demonstrate knowledge of key concepts in research methods.

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Ethical practice

2 Group Discussion

Assessment Type

Group Discussion

Task Description

Objectives:

Contributing to a group discussion provides you with the opportunity to demonstrate a functional knowledge of the issue under discussion and to apply the knowledge and skills learned throughout the unit in a practical setting reflecting the research process. Participation in a group discussion will further reveal the extent to which you have synthesised theory and practice associated with various issues within the field.

Details:

After Census Date (30th March 2021) you will assign yourselves into groups of four (4). The task for the Group Discussion will be posted on the unit website in Week 2. You will be required to discuss the task within

your group and to submit a single group solution to the task in the form of a Wiki page. Briefly, the task requires your group to evaluate and comment on four (4) research designs. Private discussion forum spaces and private chat sessions will be provided to each group to assist with communication (although groups may choose any method of communication that they like). The word count range for the Wiki submission is 500 – 700 words. There is an individual contribution component where you need to evaluate the teamworking skills of the other people in your group based on *cooperation*, *participation* and *contribution*.

Assessment Due Date

The task is due by 11.55pm Tuesday of week 8

Return Date to Students

The group task will be returned within 2 weeks of submission

Weighting

15%

Assessment Criteria

Grading of the Group Discussion assignment will be based on:

Group solution (10 marks).

Identify which type of validity is threatened. Explain how/why you think validity is threatened. Explain how the design could be changed to eliminate/reduce the threat. (2.5 marks for each design)

Evaluation of teamworking skills individual task (5 marks). Each member of your group will assess your participation and contribution to the assignment. An individual evaluation of the teamworking skills (of other group members) form will be available on the unit website and must be submitted by the due date.

Referencing Style

- [American Psychological Association 7th Edition \(APA 7th edition\)](#)

Submission

Online Group

Submission Instructions

The group component requires producing a Wiki page in Moodle. The individual contribution component requires submitting an online file (MS Word preferred) in Moodle.

Learning Outcomes Assessed

- Evaluate basic research designs
- Design studies to investigate psychological phenomena

Graduate Attributes

- Communication
- Problem Solving
- Critical Thinking
- Information Literacy
- Team Work
- Information Technology Competence
- Ethical practice

3 End of year take home exam

Assessment Type

Take Home Exam

Task Description

Task Description

Format:

There will be a take home exam, comprising of two parts. Part A will be a series of 'fill in the blank' (unseen) questions and a short answer question (one from a choice of three seen in the term). Part B will be an applied research scenario with separate questions. Students will have seen a similar scenario prior to the exam but will have to adapt their answers to fit the specific example given. Thus, the exam has seen, and unseen elements as indicated above and a guidance template will be supplied during the term.

Restrictions:

You have to complete the take home exam within a working week. Only one attempt is allowed. The assessment is to be done individually and submitted via Moodle using Turnitin.

Dates:

The exam will open on Monday of Week 13, 9am AEST, and will close on Friday of Week 13, 9am AEST. As the time allowed to complete the take-home exam is comfortably more than is needed (if students have prepared throughout the term) there will no extensions given. Students with documented evidence of being unable to start the assessment at the required time or experiencing problems (e.g. medical) during the assessment will be required to sit a new paper at a later point in time. This may delay conferral of grades for the unit.

Note: Responses after the close time will not be counted by the system.

Weighting:

The take-home exam counts for 30% of your final grade.

Assessment Due Date

The take home exam will open on Monday of Week 13, 9am AEST, and will close on Friday of Week 13, 9am AEST.

Return Date to Students

Take home exam marks will be available after the assessment board. There will be no detailed individual feedback given.

Weighting

30%

Assessment Criteria**Examinable Topics:**

All topics covered in this unit are examinable.

Marks will be awarded as follows:

Section A - 'fill in the blank' questions will be worth 1 mark each, 20 question = 20 marks. Short answer question = 10 marks. Total = 30 marks.

Section B - *part a* (short answer) = 10 marks; *part b* (short answer) = 10 marks; *part c* (short list) = 5 marks; *part d* (short list) = 5 marks. Total = 30 marks.

Note: short answer questions will be evaluated using the generic CQU grade descriptor. For example, for a HD grade we would typically require – “Demonstrates imagination, originality or flair, based on proficiency in all the learning outcomes of the unit; work is interesting or surprisingly exciting, challenging, well-read or scholarly” ; whereas a P grade would typically require – “Demonstrates the

learning outcomes of the unit, such as knowledge of fundamental concepts and performance of basic skills; demonstrates sufficient quality of performance to be considered satisfactory or adequate or competent or capable in relation to the learning outcomes of the unit. Unlike a coursework assignment during the 12 week term, detailed written feedback will not be given on each submission.

Examinable Materials:

Weekly videos/lecture notes, tutorials, & textbook.

Referencing Style

- [American Psychological Association 7th Edition \(APA 7th edition\)](#)

Submission

Online

Submission Instructions

Online file (MS Word preferred) in Moodle.

Learning Outcomes Assessed

- Demonstrate knowledge of key concepts in research methods.

Graduate Attributes

- Problem Solving
- Critical Thinking

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
