Assessment Grading

This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the [University's Grades and Results Policy](#) for more details of interim results and final grades.

CQUniversity Policies

All University policies are available on the [CQUniversity Policy site](#).

You may wish to view these policies:

- Grades and Results Policy

This list is not an exhaustive list of all University policies. The full list of University policies are available on the [CQUniversity Policy site](#).

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Course Convenor and student feedback.

Feedback

The unit textbook has been updated (Version 4) and includes an interactive resource site (Connect) that can be purchased. A number of students, however, had purchased the third version of the textbook and site which created some confusion and inconsistencies in content, chapter numbers and quiz interpretation.

Recommendation

To improve consistency and ensure that students are accessing and learning the same content (e.g. readings, online practice quizzes), students to be aware that they should purchase the latest version of the textbook i.e. Abnormal Psychology: Leading Researcher Perspectives 4th Edition, (2017) Elizabeth Rieger. This will also enable them to purchase and access the 4th Edition Connect site.

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Explain the foundations of abnormal psychology
2. Provide both functional and critical knowledge of major facets of abnormal psychology
3. Integrate theory, research and practice considerations within areas of abnormal psychology
4. Reflect a commitment to a scientist-practitioner philosophy.

3 Case Report

Assessment Type

Written Assessment

Task Description

Objectives: The case report is where you are expected to demonstrate your functional and critical knowledge of major facets of abnormal psychology. This requires you to demonstrate a capacity to engage in research that develops your understanding of the aetiology, assessment, diagnosis, and treatment of various major psychological disorders presented in the abnormal psychology literature.

Details: You will be given a list of films to review for your case report (see assessment information sheet on Moodle). It is not an exhaustive list of feature films in the area of psychology, yet it represents a number of films that deal with major themes in abnormal psychology. **You are required to watch ONE film from this list**, observing and assessing thoughts, feelings, and behaviour in the respective character. The story may be fiction or non-fiction. To potentially receive a high grade, the focus of your paper will be on the individual, not on the plot or theme of the movie. Your report must address questions relating to aspects of the individual and the environment. These questions and a template for the structure of the case report will be provided on Moodle.

Word count. A good case report should be brief and focussed hence the **word** count should be between 1800-2200 (excluding Title page, and Reference list). No abstract is necessary. Please also note that an APA formatted title page is required and the use of APA 6th ed. for referencing, formatting etc.

A detailed marking sheet with specific criteria and marks for each section of the case report will be provided to students on return of their assignment. The marking sheet will be available on Moodle.

Assessment Criteria

You will be provided with the marking guide that will be used to mark your case report. It is recommended to write your report closely following the provided marking guide on Moodle.

Some key criteria include:

1. A demonstrated ability to apply abnormal psychology concepts.
2. The use of succinct, formal and non-judgmental language.
3. Critical use of empirical research (at least 10 references, not including the textbook or references used for definitions of concepts or terms).
4. Consistent and accurate use of APA 6th edition referencing style.

As mentioned above, a detailed marking sheet with specific criteria and marks for each section of the case report will be provided to students with the return of their assignment. This marking sheet will be available on Moodle.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the [Student Academic Integrity Policy and Procedure](#). This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?

A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?

A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?

For academic advice and guidance, the [Academic Learning Centre \(ALC\)](#) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
