PSYC13020 *Individual Differences and Assessment*
Term 2 - 2018

Profile information current as at 05/05/2024 02:20 pm

General Information

Overview

This unit will introduce you to the principles, processes, applications, and issues pertaining to the development and use of psychological assessment. This unit is presented through a number of themes, covering topics such as origins, ethics and uses of psychological testing; testing in adults, children and vulnerable populations; neuropsychological testing and testing for industry and career development. The psychometric basis of psychological assessment and testing is emphasised. You will focus on a variety of common psychological procedures and tests measuring individual differences. Consideration of individual differences and assessment in an Australian context will be a key component of your studies in this unit.

Attendance Requirements

All on-campus students are expected to attend scheduled classes – in some units, these classes are identified as a mandatory (pass/fail) component and attendance is compulsory. International students, on a student visa, must maintain a full time study load and meet both attendance and academic progress requirements in each study period (satisfactory attendance for International students is defined as maintaining at least an 80% attendance record).

Website

This unit has a website, within the Moodle system, which is available two weeks before the start of term. It is important that you visit your Moodle site throughout the term. Please visit Moodle for more information.

Assessment Grading
This is a graded unit: your overall grade will be calculated from the marks or grades for each assessment task, based on the relative weightings shown in the table above. You must obtain an overall mark for the unit of at least 50%, or an overall grade of 'pass' in order to pass the unit. If any 'pass/fail' tasks are shown in the table above they must also be completed successfully ('pass' grade). You must also meet any minimum mark requirements specified for a particular assessment task, as detailed in the 'assessment task' section (note that in some instances, the minimum mark for a task may be greater than 50%). Consult the University's Grades and Results Policy for more details of interim results and final grades.

Previous Student Feedback

Feedback, Recommendations and Responses

Every unit is reviewed for enhancement each year. At the most recent review, the following staff and student feedback items were identified and recommendations were made.

Feedback from Course Evaluation Report

Feedback

Moodle quizzes (particularly 1 and 2) required to much expected knowledge.

Recommendation

Assess only one chapter per moodle quiz, by extending to 4 quizzes instead of 3.

Feedback from Course Evaluation Report

Feedback

Guest lecturers for specific weeks were well received

Recommendation

Include a minimum of 2 guest lecturers OR a lecturer with practicing clinical psychology expertise for unit co-ordinator

Feedback from Course Evaluation Report

Feedback

New textbook is still viewed as very dense, with limited relevance to Australian context

Recommendation

Integrate guest lecturers with skills sets and experience relevant to assessment in an Australian context (this is particularly important for Assessment with Indigenous populations).

Unit Learning Outcomes

On successful completion of this unit, you will be able to:

1. Articulate the purposes and principles of psychological assessment and testing
2. Restate the qualities and appropriate applications of common psychological assessment procedures and tests
3. Apply knowledge of test construction processes and basic statistics to develop and validate a test of a psychological construct
4. Apply knowledge of psychometric principles to evaluate the reliability, validity and other relevant features of psychological assessment processes and tests
5. Locate and use professional standards, ethical codes and sources of information relevant to developers and users of psychological assessments and tests
6. Explain cross-cultural considerations and other relevant issues pertaining to the development and use of psychological assessment procedures and tests.

Assessment Tasks

1 Online Quizzes (3; total 30%)

Assessment Type
Online Quiz(zes)

Task Description
Assessment task one consists of three quizzes which you will complete online over the course of the unit. These quizzes are *open book assessments* and are **timed, meaning you have 30 minutes from commencement to complete each quiz.**
<u>You will only have one opportunity to complete each quiz.</u>
Topics assessed relate directly to the textbook. Each quiz is linked to specific chapters from the text. You will need access to assigned textbook for this unit – Pearson Education offer this as a hard copy, and an online copy for ease of access.

Gregory, R.J. (2015). *Psychological Testing: History, Principles, and Applications.* Essex: Pearson Education Limited
Questions are randomized from a large bank of potential questions; no two students will receive the same questions in their assessment.
All three of the quizzes will open on 1 July 2018, to allow to you work ahead if desired. However, I would encourage you to complete these quizzes as you progress through the learning Themes so you can support your reading with lecture and tutorial material.
A breakdown of the content contained within each Quiz can be found in the Assessment One Information sheet on Moodle, under the topic 'All things Assessment'.

Academic Integrity Statement

As a CQUniversity student you are expected to act honestly in all aspects of your academic work.

Any assessable work undertaken or submitted for review or assessment must be your own work. Assessable work is any type of work you do to meet the assessment requirements in the unit, including draft work submitted for review and feedback and final work to be assessed.

When you use the ideas, words or data of others in your assessment, you must thoroughly and clearly acknowledge the source of this information by using the correct referencing style for your unit. Using others' work without proper acknowledgement may be considered a form of intellectual dishonesty.

Participating honestly, respectfully, responsibly, and fairly in your university study ensures the CQUniversity qualification you earn will be valued as a true indication of your individual academic achievement and will continue to receive the respect and recognition it deserves.

As a student, you are responsible for reading and following CQUniversity's policies, including the **Student Academic Integrity Policy and Procedure**. This policy sets out CQUniversity's expectations of you to act with integrity, examples of academic integrity breaches to avoid, the processes used to address alleged breaches of academic integrity, and potential penalties.

What is a breach of academic integrity?
A breach of academic integrity includes but is not limited to plagiarism, self-plagiarism, collusion, cheating, contract cheating, and academic misconduct. The Student Academic Integrity Policy and Procedure defines what these terms mean and gives examples.

Why is academic integrity important?
A breach of academic integrity may result in one or more penalties, including suspension or even expulsion from the University. It can also have negative implications for student visas and future enrolment at CQUniversity or elsewhere. Students who engage in contract cheating also risk being blackmailed by contract cheating services.

Where can I get assistance?
For academic advice and guidance, the Academic Learning Centre (ALC) can support you in becoming confident in completing assessments with integrity and of high standard.

What can you do to act with integrity?

Be Honest

If your assessment task is done by someone else, it would be dishonest of you to claim it as your own

Seek Help

If you are not sure about how to cite or reference in essays, reports etc, then seek help from your lecturer, the library or the Academic Learning Centre (ALC)

Produce Original Work

Originality comes from your ability to read widely, think critically, and apply your gained knowledge to address a question or problem
